Making Sense of Media and Politics Gadi Wolfsfeld, 2011-06-23 Politics is above all a contest and the news media are the central arena for viewing that competition One of the central concerns of political communication has to do with the myriad ways in which politics has an impact on the news media and the equally diverse ways in which the media influences politics Both of these aspects in turn weigh heavily on the effects such political communication has on mass citizens In Making Sense of Media and Politics Gadi Wolfsfeld introduces readers to the most important concepts that serve as a framework for examining the interrelationship of media and politics political power can usually be translated into power over the news media when authorities lose control over the political environment they also lose control over the news there is no such thing as objective journalism nor can there be the media are dedicated more than anything else to telling a good story the most important effects of the news media on citizens tend to be unintentional and unnoticed By identifying these five key principles of political communication the author examines those who package and send political messages those who transform political messages into news and the effect all this has on citizens The result is a brief engaging guide to help make sense of the wider world of media and politics and an essential companion to more in depths studies of the field

Center Stage Gary C. Woodward, 2007 Exploring political communication as theater Center Stage shows how American civic culture is both enriched and diminished by the ways journalists organize narratives about civic life This up to date text focuses on issues such as politics as representational theater economic forces shaping political media and growth of new media Covering contexts from the presidency and Congress to political art Center Stage suggests additional pathways for imagining our national life including Internet supported activism and innovative uses of documentary film

Journalism in the United States Edd Applegate, 2011-05-19 Print and broadcast journalism in the United States have changed in recent years as a result of millions of people using the Internet and social media for obtaining some or most of the information they desire So notes professor of journalism Edd Applegate who after surveying the decline in circulation and advertising revenues of newspapers and broadcast and radio news stations and the rise of cable news and website journalism outlines in Journalism in the United States Concepts and Issues the effect of this sea of change on key matters in journalism today In this work

Applegate updates readers on the current conditions of the print and broadcast industries with chapters on a variety of topics from theories of the press to the structure of the print and broadcast industries from the role of advertising and public relations to the role of the changing view of the press views of and commitments to objectivity and news balance Throughout Applegate obliges readers to wrestle with how the change in medium from print or broadcast to Web is not the main culprit in how the news has changed Instead he illustrates how many of the core issues remain unchanged and what is needed is a more complex analysis of core concepts and issues and how these have been affected from freedom of the press to the treatment of minorities by the evolution of news as a business and the education of journalists today for that business With a selected bibliography and an index to assist the reader this book is a wonderful text for upper level undergraduates graduates and college faculty with journalism or mass communications courses as well as for academic libraries **Women**

Politicians and the Media Maria Braden, 2021-09-15 All American politicians face the glare of media coverage both in running for office and in representing their constituents if elected But for women seeking or holding high public office as Maria Braden demonstrates the scrutiny by newspapers and television can be both withering and damaging a fact that has changed little over the decades despite the emergence of more women in politics and more women in the news media Particularly disturbing is the fact that the increase in the number of women reporters appears to have had little effect on the way women candidates are portrayed in the media Some women reporters in fact seem intent on proving that they can be just as tough on women candidates as their male counterparts thus perpetuating the misrepresentations of the past Braden examines the political fortunes of Jeannette Rankin the first woman elected to the U S House those of the congressional glamour girls of the 1940s Clare Boothe Luce and Helen Gahagan Douglas the long Senate career of Margaret Chase Smith the political struggles of diverse women of more recent decades including Bella Abzug Elizabeth Holtzman Nancy Kassebaum Barbara Jordan Dianne Feinstein and Ann Richards and the disastrous vice presidential bid of Geraldine Ferraro Braden traces a persistent double standard in media coverage of women s political campaigns through the past eighty years Journalists dwell on the candidates novelty in public office and describe them in ways that stereotype and trivialize them Especially demeaning are comments on women s appearance personality and family connections comments of a sort that would rarely be made about men candidates Are they too pretty or too plain What do their clothes say about them Are they feminine enough or too masculine Are they still just ordinary housewives or are they neglecting their families by heading for Washington or the state house Braden s study is based on both media accounts and the revealing personal interviews she conducted with a broad range of recent women politicians including Margaret Chase Smith Bella Abzug Kay Bailey Hutchison Nancy Kassebaum and Ann Richards All describe agonizing struggles to get across to the public the message that they are serious and competent candidates capable of holding high office and shaping our nation s course *Good News, Bad News* Jeremy Iggers, 2018-02-12 In *Good News Bad News* Jeremy Iggers argues that journalism s institutionalized conversation

about ethics largely evades the most important issues regarding the public interest and the civic responsibilities of the press. Changes in the ownership and organization of the news media make these issues especially timely although journalism's ethics rest on the idea of journalism as a profession the rise of market driven journalism has undermined journalists' professional status. Ultimately argues Iggers journalism is impossible without a public that cares about the common life. Written in an accessible style *Good News Bad News* is important reading for journalists communication scholars and students. Public dissatisfaction with the news media frequently gives rise to calls for journalists to live up to the ethical standards of their profession. But what if the fault lies in part with the standards themselves? Jeremy Iggers argues that journalism's institutionalized conversation about ethics largely evades the most important issues regarding the public interest and the civic responsibilities of the press. Changes in the ownership and organization of the news media make these issues especially timely although journalism's ethics rest on the idea of journalism as a profession the rise of market driven journalism has undermined journalists' professional status. Ultimately argues Iggers journalism is impossible without a public that cares about the common life. A more meaningful approach to journalism ethics must begin with a consideration of the role of the news media in a democratic society and proceed to look for practical ways in which journalism can contribute to the vitality of public life. Written in an accessible style *Good News Bad News* is important reading for journalists communication scholars and students.

Media Literacy W. James Potter, 2008 *Media Literacy* is a captivating engaging reader friendly textbook essential for introductory Media Studies courses in communication sociology film studies and English. SirReadaLot.org In this media saturated world it is critical to approach media influences using critical thought and active participation. *Media Literacy Fourth Edition* uses an engaging and conversational style to help students gain the skills needed to navigate the rocky terrain of mass messages which are designed to inform them to entertain them and to sell them. This captivating book offers a plan of action for gaining a clearer perspective on the borders between the real world and the simulated media world helping readers become responsible media consumers.

Communication, Power, and Media Donald Gibson, 2004 The communication potential of contemporary mass media is immense. It can communicate with us about the entire world and it can stimulate and inspire us with entertainment. The realisation of this potential has been frustrated by interrelated networks of people who have controlled major media over the last century. Those interests see media as a means to control and manipulate people rather than as a means to inform and inspire people. The approach in this book moves beyond the abstractions and systems approaches often used in criticisms of media to an analysis focused on the concrete groups that dominate media. These groups do constitute a system but one that must be understood in its terms of all of its historical features economic political and social.

Urban Nightmares Steve Macek, 2006 *Racialized Media* Matthew W. Hughey, Emma González-Lesser, 2020-07-28 How media propagates and challenges racism From Black Panther to Oscars So White the concept of race and how it is represented in media has continued to attract attention in the public eye In *Racialized Media* Matthew W Hughey Emma González Lesser and the contributors to this important new collection of original essays provide a blueprint to this new ever changing media landscape With sweeping breadth contributors examine a number of different mediums including film television books newspapers social media video games and comics Each chapter explores the impact of contemporary media on racial politics culture and meaning in society Focusing on producers gatekeepers and consumers of media this book offers an inside look at our media saturated world and the impact it has on our understanding of race ethnicity and more Through an interdisciplinary lens *Racialized Media* provides a much needed look at the role of race and ethnicity in all phases of media production distribution and reception *Communication, Technology, and Politics in the Information Age* Gerald Sussman, 1997-09-09 Gerald Sussman offers a detailed critical analysis of the political dimensions of 21st century communication information technologies mass media and transnational networks **Introduction to Media Literacy** W. James Potter, 2015-07-23 Introduction to Media Literacy builds students media literacy step by step to make them more knowledgeable about all facets of the media and more strategic users of media messages In nine streamlined chapters all of the essential media topics are covered from understanding media audiences industries and effects to confronting controversies like media ownership privacy and violence in a concise format that keeps students focused on improving their media literacy skills as effectively and efficiently as possible Telecommunications, Mass Media, and Democracy Robert W. McChesney, 1995-01-26 This work shows in detail the emergence and consolidation of U S commercial broadcasting economically politically and ideologically This process was met by organized opposition and a general level of public antipathy that has been almost entirely overlooked by previous scholarship McChesney highlights the activities and arguments of this early broadcast reform movement of the 1930s The reformers argued that commercial broadcasting was inimical to the communication requirements of a democratic society and that the only solution was to have a dominant role for nonprofit and noncommercial broadcasting Although the movement failed McChesney argues that it provides important lessons not only for communication historians and policymakers but for those concerned with media and how they are used

Bad Girls A. Susan Owen, Leah R. Vande Berg, Sarah R. Stein, 2007 *Bad Girls* examines representational practices of film

and television stories beginning with post Vietnam cinema and ending with postfeminisms and contemporary public disputes over women in the military The book explores a diverse range of popular media texts from the Alien saga to Ally McBeal and Sex and the City from The Net and VR5 to Sportsnight and G I Jane The research is framed as a study of intergenerational tensions in portrayals of women and public institutions in careers governmental service and interactions with technology Using iconic texts and their contexts as a primary focus this book offers a rhetorical and cultural history of the tensions between remembering and forgetting in representations of the American feminist movement between 1979 and 2005 Looking forward the book sets an agenda for discussion of gender issues over the next twenty five years and articulates with authority the manner in which transgression itself has become a site of struggle
