Untying the Text Robert Young, 1982 **An Introduction to Literature, Criticism and Theory** Andrew

Bennett, Nicholas Royle, 2023-03-23 Lively original and highly readable An Introduction to Literature Criticism and Theory is the essential guide to literary studies Starting at The Beginning and concluding with The End chapters range from the familiar such as Character Narrative and The Author to the more unusual such as Secrets Pleasure and Ghosts Now in its sixth edition Bennett and Royle's classic textbook successfully illuminates complex ideas by engaging directly with literary works so that a reading of Jane Eyre opens up ways of thinking about racial difference for example while Chaucer Monty Python and Hilary Mantel are all invoked in a discussion of literature and laughter The sixth edition has been revised and updated throughout In addition four new chapters Literature Loss Human and Migrant engage with exciting recent developments in literary studies As well as fully up to date further reading sections at the end of each chapter the book contains a comprehensive bibliography and an invaluable glossary of key literary terms A breath of fresh air in a field that can often seem dry and dauntingly theoretical this book will open the reader's eyes to the exhilarating possibilities of reading and studying literature

Encyclopedia of Contemporary Literary Theory Irene Rima Makaryk, 1993-01-01 The last half of the twentieth century has seen the emergence of literary theory as a new discipline As with any body of scholarship various schools of thought exist and sometimes conflict within it I R Makaryk has compiled a welcome guide to the field Accessible and jargon free the Encyclopedia of Contemporary Literary Theory provides lucid concise explanations of myriad approaches to literature that have arisen over the past forty years Some 170 scholars from around the world have contributed their expertise to this volume Their work is organized into three parts In Part I forty evaluative essays examine the historical and cultural context out of which new schools of and approaches to literature arose The essays also discuss the uses and limitations of the various schools and the key issues they address Part II focuses on individual theorists It provides a more detailed picture of the network of scholars not always easily pigeonholed into the categories of Part I This second section analyses the individual achievements as well as the influence of specific scholars and places them in a larger critical context Part III deals with the vocabulary of literary theory It identifies significant complex terms places them in context and explains their origins and use Accessibility is a key feature of the work By avoiding jargon providing mini bibliographies and cross referencing throughout Makaryk has provided an indispensable tool for literary theorists and historians and for all scholars and students of contemporary criticism and culture
