Neurotransmitters in Plant Signaling and Communication František Baluška, Soumya Mukherjee, Akula Ramakrishna, 2020-09-20 This book provides a comprehensive update on the recent developments concerning the role of plant neurotransmitters in signaling and communication. Physiological investigations over the past few decades have demonstrated that plants employ neurotransmitters in various signaling pathways. Plant-based neurotransmitters serotonin, melatonin, dopamine, acetylcholine, and GABA share biochemical similarities with those in animal systems in terms of their chemical nature and biochemical pathways. Plant environment interaction associated with abiotic stress management, growth modulation, flowering, circadian rhythm, fruit ripening, and allelopathic interactions are a major focus of research in the field, and recent advances in genomic, transcriptomic, and metabolomic approaches have resulted in the deciphering of the molecular mechanisms associated with various neurotransmitters in plants. Other current and potential areas of investigation include the putative phytohormone phyto-melatonin and receptor-mediated signaling in plant neurotransmitters. Providing an up-to-date overview of molecular crosstalk mechanisms between various neurotransmitters, the book offers essential insights to help readers gain a better understanding of the physiology of plant signaling and communication with the environment.

Challenges and Solutions in Ethnographic Research Tuuli Lähdesmäki, Eerika Koskinen-Koivisto, Viktorija L.A. Čeginskas, Aino-Kaisa Koistinen, 2020-07-14 Challenges and Solutions in Ethnographic Research. Ethnography with a Twist seeks to rethink ethnography outside the box of its previous tradition and to develop ethnographic methods by critically discussing the process, ethics, impact, and knowledge production in ethnographic research. This interdisciplinary edited volume argues for a twist that supports openness, courage, and creativity to develop and test innovative and unconventional ways of thinking and doing ethnography. Ethnography with a twist means both an intentional aim to conduct ethnographic research with novel approaches and methods but also sensitivity to recognize and creativity to utilize different kinds of twist moments that ethnographic research may create for the researcher. This edited volume critically evaluates new and old methodological tools and their ability to engage with questions of power difference. It proposes new collaborative methods that allow for co-production and co-creation of research material as well as shared conceptual work and wider distribution of knowledge. The book will be of use to ethnographers in humanities and social science disciplines including sociology, anthropology, and communication studies.

The Angel Marjorie Lund-Fontaine, 2016-12-30 The Angel was written as a fairytale but contains elements of truth in the way God may possibly use angels in people's daily lives. This idea comes directly from scripture as written throughout the Bible in which angels appeared to people, prophets, and animals. In this tale, the angel and animals are able to speak to one another, and conversations flow freely. The book traces the activities of Dionysius, an angel, as he orchestrates the lives of those God entrusts to him. The story begins by explaining who Dionysius is and commences with the

peculiar way in which he meets the main characters His somewhat humorous encounter with Hercules the large shire horse and Phineas the mastiff dog takes place on a farm belonging to old Ma Bond After questioning the animals Dionysius finds the old lady and her granddaughter little Rosie are living in very dire circumstances The angel seeing the predicament takes charge After receiving instructions from God he begins to arrange events to benefit Rosie who is soon unfortunately orphaned by her grandmother s demise her parents being deceased The story details the incidents after her grandmother s death introducing two more very important characters a husband and wife Sam and Beverly Harris who have been praying for a child As the tale progresses more characters enter who help the little girl Having no family alive and nowhere to call home Rosie is forced to stay at the local orphanage where she makes friends During this time a terrible fire disrupts life at the orphanage Will Rosie find a new home and will Sam and Beverly get the child they have been praying for or will the difficulties be too great Throughout the book horses dogs and cats play an important role alongside the people and the mastiff Phineas remains Rosie s faithful companion and guardian The angel Dionysius plays a vital role in everyone s lives weaving in and out of the story at intervals following God s instructions The book concentrates on love healing and forgiveness repentance and the salvation message as explained in the Bible in the gospel of John Chapter 3 where Jesus explains unless one is born again he cannot see the kingdom of God
