 Army World War II training manuals and tactical documents The battle for Europe in 1943 45 was one of the greatest
 military challenges in the history of the U S Army Fighting against often veteran German forces from the mountains of Italy
 to the beaches of Normandy and the frozen forests of the Ardennes hundreds of thousands of U S infantrymen had to move
 quickly beyond their training and acquire real world combat skills with extraordinary pace if they were to raise their chances
 of survival beyond a few days They fought in an age of total war in which the enemy deployed heavy armor artillery air power
 and their own infantry firepower in a battle of true equals Without the drive and blood of the U S Army infantry the Allies
 could not have defeated the Wehrmacht in Western Europe Extensive documentation was provided for the in theater U S
 Army infantryman from booklets rather misguidedly advising on how to behave in foreign countries through to field manuals
 explaining core combat tactics across squad platoon company and battalion levels This pocket manual presents critical
 insights from many of these sources but also draws on a broad spectrum of intelligence reports after action reports and other
 rare publications Together they give an inside view on what it was like to live and fight in the U S Army infantry during
 arguably the most consequential conflict in human history Praise for The U S Army Infantryman Pocket Manual ETO MTO
 1941 45 This guide and explanation of Army tactical doctrine is a welcome addition to Second World War literature The

 Superintendent of Documents, 1993 *Monthly Catalogue, United States Public Documents* , 1993-05 *The Browning
 Automatic Rifle* Robert R. Hodges Jr., 2012-04-20 For nearly fifty years the hard hitting mobile Browning Automatic Rifle or
 BAR served in US infantry units as a light squad automatic base of fire weapon providing quick bursts of concentrated fire
 Designed in World War One it didn t reach the front until September 1918 In the interwar years US forces used the BAR

across the world from China to Nicaragua It also became a favorite of notorious gangsters like Clyde Barrow and Bonnie Parker who prized its ability to punch through police armored cars At the outset of World War II the US armed forces decided to adapt the BAR for a light machine gun role The BAR was not without its flaws it was heavy and difficult to dismantle and reassemble and it didn't cope well with sustained fire Nevertheless the BAR saw action in every major theater of World War II and went on to be used in Korea and in the opening stages of the Vietnam War Featuring arresting first hand accounts specially drawn full color artwork and close up photographs many in color this lively study offers a vivid portrait of this powerful long lived and innovative weapon that saw service with US and other forces across the world for much of the 20th century Army, 1955
