**Native American Wisdom** Gustav Almlöf, 2024-03-28 A book in which various well known and lesser known Native Americans talk about life from the indigenous perspective their views on white people and the problems of not respecting nature and other people in an ever changing world The most essential part of the book is presentations of quotes by Geronimo Sitting Bull Chief Joseph Gertrude S Bonnin Tecumseh and many others The common denominator is a temperate view on life that can inspire people nowadays as the quotes are simply timeless Again the key part of the book is the quotes or their own words To make the reading experience more interesting there is also a short introductory essay maps biographies and many photographs and images All this combined probably makes it the most thorough book of its kind And finally some food for thought When the last tree is cut the last fish is caught and the last river is polluted when to breathe the air is sickening you will realize too late that wealth is not in bank accounts and that you cannot eat money

*Off the Hook* Earl Wayne Heflinger, 2018-03-15 The author uses his own personal story of being born into a Christian fundamentalist family with extreme beliefs to paint a vivid picture of what life is like in toxic ideologies such as fundamentalist religion The book has three parts The first describes the spiritual abuse of his childhood due to stifling rules and restrictions inflicted by his parents caught up in their church's teachings on his thought processes and behavior The remarkably poignant stories show in painful detail how his self esteem was crushed how he was never intended to think for himself and how he was made to feel different and totally out of place in the world all by loving but misguided parents During his school days his social life was severely stunted because he felt like an outsider everywhere but in church The second part discusses his lifelong struggle with spiritual healing and his transition from a spoon fed belief system to a personally chosen worldview He thoughtfully muses about all the significant elements of religious spiritual belief systems God Jesus the Bible sin morality science life after death marriage divorce and others and contrasts his evolving beliefs with those of organized religion This is presented to give the reader a comprehensive illustration of how one particular seeker has constructed a personalized belief system through continual rethinking and updated understanding The third part calls on the author's advanced education and professional experience in business and government in analyzing and developing systems and procedures It describes with a wealth of tips and checklists the process by which he escaped a toxic ideology and came to feel intellectually free and off the hook It ends with heartfelt encouragement for anyone similarly affected by repression to accept all available helpful resources and muster the determination to claim their personal power
