Tornado In A Junkyard The Relentless Myth Of Darwinism:

Tornado in a Junkyard James Perloff, 1999 In an easy to read text this book examines the growing scientific evidence that is challenging Darwin's theory of evolution lack of transitional forms in the fossil record the impossibility of mutations almost universally destructive serving as evolutionary building blocks the flawed logic of natural selection theory the stunning lack of evidence for ape men the mathematic impossibility of life beginning by itself and much more Also explores the damaging effect societal impact of Darwinism and examines how *Inherit the Wind* grossly misled Americans about the Scopes trial Addresses the ever vital question Are we here by chance or are we created by God Indexed over 80 illustrations hundreds of quotes from scientists ENDORSEMENTS DR DUANE T GISH SENIOR VICE PRESIDENT INSTITUTE FOR CREATION RESEARCH *Tornado in a Junkyard* by James Perloff should be in the library of every one who is interested in the subject of origins This book is a powerful argument for creation because it is thorough fully documented and scientifically accurate It is easily readable by scientist and layman alike and is written in a popular style that will make it interesting and entertaining for readers of all ages I highly recommend this book PUBLISHER'S WEEKLY 8 30 99 James Perloff's intriguing *Tornado in a Junkyard* aims to debunk evolutionary theory in favor of creationism Perloff a former contributing editor to the *New American* draws upon the work of neo Darwinists and geneticists to argue that while microevolution does occur meaning minor adaptations and variations within a species there is no solid evidence for macroevolution or conversion of one animal type into another DR EMMETT L WILLIAMS PRESIDENT CREATION RESEARCH SOCIETY *Tornado in a Junkyard* is a unique presentation of the scientific case against Darwinism informally written for laymen If you are looking for a user friendly explanation of the facts supporting creation this book is for you CONSERVATIVE BOOK CLUB 12 99 James Perloff brings all the data together in a volume readily accessible to nonscientific types His conclusion carefully drawn science contradicts Darwinism Perloff's style unusually lively makes *Tornado in a Junkyard* entertaining as well as educational ACTOR JACK LEMMON WHO PLAYED CLARENCE DARROW IN THE 1999 FILM VERSION OF *INHERIT THE WIND* My congratulations to Mr Perloff for an outstanding piece of work HOMESCHOOLING TODAY JAN FEB 2000 Why another anti evolution book Because *Tornado in a Junkyard* is different Author James Perloff a former fanatical atheist and anti creationist understands the other side's point of view He presents facts that logically disprove Darwinism and unveils the many frauds and lies perpetrated by Darwinists that the public accepts as unshakeable scientific fact ELLEN MYERS CREATION RESOURCE LIBRARY WICHITA KANSAS I've been heavily involved in the creationist movement for many years and am familiar with most of the facts cited in *Tornado* However the racy style the many excellent photos and especially the less known details and extensive documentation will now make *Tornado* my resource of choice in my work THE NEW AMERICAN 9 13 99 Perloff demonstrates in this reviewer's opinion conclusively that scientific evidence when examined honestly does not support modern Darwinism but actually contradicts it This is a very important work written in an informal and attractive

style that is a joy to read VICKI BRADY HOST HOMESCHOOLING USA With so many books out on the evolution creation debate it is getting hard to choose from good better and best James book falls in the best category I recommend that every homeschool family and church have a copy for their libraries CHRISTIAN NEWS 9 27 99 Christian News highly recommends Tornado in a Junkyard **Evolution Vs. Creationism** Eugenie C. Scott, 2009-08-03 Presents the scientific evidence for evolution and reasons why it should be taught in schools provides various religious points of view and offers insight to the evolution creationism controversy James Edward Gilmer, 2011-01 100 Year Cover up Revealed We Lived With Dinosaurs makes our past coexistence with dinosaurs effortlessly apparent with a wide variety of proof ranging from artistic to documentary to scientific Although it automatically invalidates evolution by proving coexistence this book takes the extra step of examining and destroying with logic and science every major assumption and claim made by evolutionists including the absurd notion that dinosaurs and humans missed each other by 65 million years The sub topic that runs throughout the entire book is that for the past century evolutionists have been brainwashing us with bogus claims while actively and passively covering up evidence showing that humans coexisted with dinosaurs and that evolution is basically a hoax 100 Year Cover up Revealed We Lived With Dinosaurs not only proves the reality of coexistence and the fallacy of evolution but also shows how the suppression of these facts has polluted our laboratories classrooms and media Finally this book highlights the scientific and educational implications of its conclusions and offers an intelligent alternative to evolution *A Fool's Guide to Wisdom* Richard G. Myatt, 2011-02 Paradox is present when the opposite of what one expects to be true is true The capacity to see paradox is the prerequisite to becoming wise It is expressed when the weak become strong those who lose their life find it and the disheartened find the Lord who uses those things that are not to nullify the things that are 1 Corinthians 1 28 NIV This work demonstrates paradox in health medicine business organizational leadership cultural myths related to the family the symptomatic solutions common in political and social structures and in the spirituality expressed by people of faith As the former director of an adolescent rehabilitation facility the author has a keen awareness of the devastation caused by the failures of this generation Clear and concise recommendations demonstrate the small changes that create enormous differences We will discover that wisdom begins when we fear the Lord and have knowledge of the Holy One The wise see paradox but not because they look for it Their openness of thought leads to a perception that life is an interaction of complex systems and ideas that truly transcend us all Those with the God given capacity to integrate knowledge emotion and faith will in the end find wisdom Rick Myatt is a licensed psychotherapist with an extensive history From building an orphanage in a war torn country to becoming the director of an adolescent psychiatric rehabilitation facility his experience includes crisis intervention treating sexual addictions and caring for children victimized by the murder of parents and child prostitution With Masters Degrees in Marriage and Family Therapy and in Theology he has also completed all Ph D coursework in Family Sociology He currently specializes in organizing his community to detect and prevent

workplace violence **The Scientific Case Against Scientific Creationism** Jon P. Alston, 2003-09 Sociologist Jon P Alston offers a unique and clear analysis of the weaknesses of scientific creationism and intelligent design by identifying what creationists say when they reject evidence for evolution He demonstrates how scientific creationists accept non scientific statements that contradict established scientific knowledge Acceptance of anti evolutionary knowledge also demands acceptance of a literal six day creation and other statements contradicting scientific findings Few persons have read so closely the writings of scientific creationists to illustrate how anti scientific anti evolutionists become when they criticize the fact of evolution Creationists are forced to develop just so stories to defend their literal interpretations of Biblical scripture Alston finds creationists cannot defend their religious beliefs using established scientific methodologies and principles

The Darwin Effect Dr. Jerry Bergman, 2014-08-01 Dr Miklos Nyiszli an imprisoned doctor in the Auschwitz camp wrote that Nazi doctors hoped studying twins would solve the problem of faster reproduction of superior races Nazis hoped to have each German mother bear as many twins as possible What Darwin influenced went far beyond the Nazi death camps Shocking political social and scientific legacies of Darwin and his family Disturbing disclosure of how over 45 million Christians were killed in the 20th century because of their faith Revealing and layman friendly presentation This book is the result of 30 years of research and study carefully documenting the common destructive threads that tie some of history s most murderous dictators uncaring capitalists and aggressive social activists to the flawed concepts of Charles Darwin in an effort to change the world and how they succeeded The extermination of races considered lower than others the profound lack of empathy for less advanced cultures the corrupted atheistic justifications for taking the lives of millions all done to advance the agendas of social Darwinism at work in the world today More than mere theoretical discussions we have seen the horrifying evidence of the practical results when applying these destructive and misleading concepts to society in the last 100 years *The Death of Evolution* Michael Ebifegha, 2007-04 For over a century evolutionists have been deliberately interpreting all scientific data on origins to fit Darwin s theory of evolution For instance although the evidence in the living world and in all reliable fossil deposits shows abrupt gaps evolutionists interpret these gaps as missing links to justify the numerous transformations that the theory predicts The evolutionist paradigm recently suffered a fatal blow when empirical science ripped off its chapter on junk DNA which Darwinists have idolized as the evolutionary key in unfolding ancestral history and thus the unique testimony against a purely creationist worldview All along just so explanations have persistently been tendered to camouflage the discrepancies In Farewell to Darwinian Evolution Michael Ebifegha presents a historical account of God s creation patent and seal and shows that they corroborate the scientific evidence Arguing that a report claiming both invention and ownership of the cosmos must override any theory relating to events in the cosmos that were never witnessed Ebifegha insists it is time to bid farewell to Darwinian transformational evolution macroevolution The focus in science he stresses must be limited to microevolution the aspect that underpins modern advances in medicine agriculture

and selective breeding Dr Michael Ebifegha is a scholar with international experience He is a graduate of Ahmadu Bello University Nigeria M Sc Applied Geophysics Carleton University Canada M Sc Physics and the University of Toronto B Ed Ph D Physics He is currently a full time science and mathematics instructor at the Toronto District School Board Ebifegha is the author of *The Darwinian Delusion Creation or Evolution* and most recently *4th Refuting the Myth of Evolutionism and Exposing the Folly of the Clergy Letters* *The Mystery of Life What'S It All About?* David E. Peebles,2018-03-15 Have you ever seriously considered the most difficult and puzzling questions presented to our minds during this mortal sojourn through an often difficult and challenging existence Who am I Where did I come from Why am I here Where am I going And perhaps the most important question of all What is my purpose for living In this ultra modern digital world of today many people have become so preoccupied with the daily pursuits of life and the addictive overuse of time consuming technology that many of them rarely pause to seriously consider what life is actually all about In writing *The Mystery of Life* it has been my hope and my goal to personally challenge each reader to consider many relevant facts and to follow a line of evidence pointing toward a worldview that is often overlooked and too easily marginalized We live in an aggressive technology driven world where the wild pursuit of power prestige possession and pleasure has become the driving influence ruling over many of our lives What does your worldview look like Is there enough evidence to support it beyond reasonable doubt If not then I invite you to consider a vast body of mounting evidence that could lead toward a more accurate discernment of an often confusing existence The view of life that we have each come to know will strongly influence everything we do say and become in this world Based on a remarkable consensus of evidence perhaps we should consider a worldview understanding that will ultimately avail our hearts and minds of the personal fulfillment and satisfaction we have always longed for and often dreamed of We owe it to ourselves to seriously consider where the evidence is leading us Isn't it about time to discover the answers to our most persistent and pressing questions *The Mystery of Life* is presented as a literary expose addressing the questions of origin meaning morality and destiny *A Fool's Guide to Wisdom* , *Scientists Confront Intelligent Design and Creationism* Andrew J. Petto,Laurie R. Godfrey,2007 With the pseudoscience of creationism rising again under the guise of intelligent design this powerful collection eviscerates the new assault on evolution and reveals the pervasive and insidious threat posed to genuine science by ID proponents like Phillip Johnson Michael Behe and William Dembski The sixteen original essays address two key issues the overwhelming scientific evidence for evolution gathered over 150 years and the dubious underpinnings of creationism and how society can mount better educational and legal policies to prevent a theological takeover of our public and scientific institutions The book includes powerful voices in the modern culture war against ID including Kevin Padian paleontologist and expert witness in the landmark lawsuit of *Kitzmiller v Dover* With creationist arguments forever morphing and reappearing under new aliases this new confrontation is a must read for teachers students and general readers and a ringing and lasting refutation of creationism's fraudulent claims **The Other**

Side of the Scopes Monkey Trial Jerry Bergman, 2023-10-26 The enormous amount of literature on the Scopes Trial focuses on the religious elements of the trial It almost totally ignored the importance of racism as taught in the text that Scopes used to teach biology Bryan was not concerned about evolution in general but specifically human evolution He believed that Darwin's theory as applied to humans encouraged the oppression of certain oppressed groups Taking evolution's philosophy to its logical conclusion meant justifying survival of the fittest in social matters This philosophy he learned from his extensive reading about WWI was a major factor influencing the Germans to fight in the first World War Furthermore Bryan believed the citizens of Tennessee had a right to determine what their children were taught in the public schools Another fact that is rarely mentioned is the main fossil evidence cited in the trial documents and the press in support of human evolution has been discredited by evolutionists including Neanderthal man Piltdown man Java man and Nebraska man Scopes was not a biology teacher but rather taught math His college degree was not in biology but law He was not put on the stand to testify in his trial probably because he never taught evolution and could not honestly answer questions about teaching it This book covers the so called trial of the century telling the real story of a sham brought on by the ACLU to further their political and anti Christian goals **A Thinker's Guide to the Philosophy of Religion** Allen

Stairs, Christopher Bernard, 2017-09-29 With an approachable reader friendly style A Thinker's Guide to the Philosophy of Religion provides up to date themes in contemporary analytic philosophy of religion This provocative collection of readings stimulates clear thinking and careful attention to the reasons for taking up views on religious questions **CONTENDING**

FOR THE FAITH Christopher H.K. Persaud, 2013-05-21 Doubt and disbelief in God's existence and his plan of redemption for lost humankind is becoming increasingly evident in today's hedonistic self directed world Many Christian believers even choose to listen to and to acknowledge a feel good now Gospel notwithstanding its deviation from Biblical truth and its possible damning implications Conversely many people are wont to deny the existence of a devil and the reality of a place of unceasing torment and or destruction called hell A good God cannot be so cruel they opine Jesus commissioned his followers to take his Gospel to the far reaches of the Earth and the Holy Scriptures encourage Christians in Jude 1-3 to earnestly contend for the faith More than at any other time in history believers must defend the Christian Gospel and advocate its timeless truths everywhere so that all of humankind may hear about Christ's offer of eternal life in a place named Paradise The miscellany of contemplative inquiries and arguments presented in **CONTENDING FOR THE FAITH** purposes to do just that endorse and advance the Gospel of Christ and help establish Biblical truth Much too much is at stake for not spreading or not listening to Christ's entreaty *Was Darwin Wrong? Yes* B. a. M. DIV Richard Pittack, Richard B. Pittack, 2011-07-05 David Quammen became the recipient of an award from the National Geographic Society for his article entitled *Was Darwin Wrong* NO In it he advocates Darwin's evolutionary theory of Natural Selection and Variation without Limitation of plants and animals Pittack's book entitled *Was Darwin Wrong* YES is a counter argument and direct refutation of the principle

arguments Quammen has extrapolated from Darwin's writings and which is based on Biogeography Paleontology Morphology and Embryology Pittack's book is short and to the point and can be understood by high school students and those adults who have always wondered about the answers to the questions posed by evolutionists and the apostles who extol it more from the author at <http://www.richardpittack.co> *The Evolution of the Long-necked Giraffe (Giraffa Camelopardalis L.)*

Wolf-Ekkehard Lönig, 2011 Darwin 1871 and many African folk legends before him proposed a simple but powerful explanation for the large and elongated shape Long necks allowed giraffe to outreach presumed competitors particularly during dry season bottlenecks when leaves become scarce Simmons and Scheepers However this old African folk legend which is still commonly taught in high schools fails to explain among other things the size differences between males and females Giraffe cows are up to 1.5 meters shorter than the giraffe bulls not to mention the offspring The wide migration range of the giraffe and the low heights of the most common plants in their diet likewise argue against the dominant selection hypothesis Also 1 The fossil links which according to the theory should appear successively and replace each other usually exist simultaneously for long periods of time 2 Evolutionary derivations based on similarities rely on circular reasoning 3 The giraffe has eight cervical vertebrae Although the 8th vertebra displays almost all the characteristics of a neck vertebra as an exception to the rule the first rib pair is attached there 4 The origin of the long necked giraffe by a macromutation is due to the many synorganized structures extremely improbable 5 Sexual selection also lacks a mutational basis and what is more is frequently in conflict with natural selection head clubbing is probably a consequence of a long neck and not a cause see also Mitchell et al 2009 6 In contrast to the thus far proposed naturalistic hypotheses the intelligent design theory is basically testable 7 The long necked giraffes possibly all belong to the same basic type inasmuch as 8 a gradual evolution from the short necked to the long necked giraffe is ruled out by the duplication of a neck vertebra and the loss of a thoracic vertebra 9 Chance mutations are principally not sufficient to explain the origin of the long necked giraffe 10 The intelligent design theory offers an adequate and satisfying solution to the problems and points to numerous old and new research projects 11 Mitchell and Skinner present a good analysis of the selectionist problem however their phylogenetic hypotheses presuppose the correctness of the synthetic evolutionary theory and their claims of intermediate forms are unproven similarly summary Part 2 Part 1 shows why Dawkins and Kutschera are wrong The scientific facts speak for design

Evolution and Ungodly Ways Gary Lassiter, 2013-02 For 150 years numerous groups of Christians have disparaged the theory of evolution With a variety of critical statements which they assure are honest sensible and correct they have succeeded in instructing generations of Christians with an anti evolution world view This book presents a different perspective that Christian anti evolution does not defend Christianity it destroys it In terms anyone can understand the most prominent anti evolution claims are disassembled and exposed But unlike other works on this topic this one goes a step further by highlighting the scriptural and spiritual errors of Christian anti evolution It is to the surprise of no one impossible

to deceive people about science without also deceiving them about scripture Evolution And Ungodly Ways is a simple account of corruption put together with the hope of strengthening those who choose to walk a lighted path Creation or Evolution: Does It Really Matter What You Believe United Church of God,2010-08-20 Why has evolution become so widely accepted and why has the Bible come to be viewed with such hostility What has changed Inside this Bible study aid Science the Bible and Wrong Assumptions The Testimony of the New Testament Scientists Creation and Evolution Ancient Near Eastern Concepts of Creation The Greek Concept of Creation What Does the Fossil Record Show The Problem of Living Fossils The Fossil Record Expectation vs Fact The Case Against Evolution Darwinism Is Not the Same as Evolution Microevolution Doesn't Prove Macroevolution Competition or Cooperation How Symbiosis Defies Darwin Oddities in Nature That Defy Evolution The Scientific Evidence In the Eye of the Beholder Earth's Age Does the Bible Indicate a Time Interval Between the First and Second Verses of Genesis Genesis 1 and the Days of Creation The Societal Consequences of Darwinism The World Before Man The Biblical Explanation **100 Year Cover-Up Revealed** James Edward Gilmer,2011-09-15 100 Year Cover up Revealed We Lived With Dinosaurs makes our past coexistence with dinosaurs effortlessly apparent with a wide variety of proof ranging from artistic to documentary to scientific Although it automatically invalidates evolution by proving coexistence this book takes the extra step of examining and destroying with logic and science every major assumption and claim made by evolutionists including the absurd notion that dinosaurs and humans missed each other by 65 million years The sub topic that runs throughout the entire book is that for the past century evolutionists have been brainwashing us with bogus claims while actively and passively covering up evidence showing that humans coexisted with dinosaurs and that evolution is basically a hoax 100 Year Cover up Revealed We Lived With Dinosaurs not only proves the reality of coexistence and the fallacy of evolution but also shows how the suppression of these facts has polluted our laboratories classrooms and media Finally this book highlights the scientific and educational implications of its conclusions and offers an intelligent alternative to evolution

The Genesis Cataclysm W. Joseph Stallings,2020-08-31 Are there sufficient evidences to plausibly warrant positing a global Noahic Flood within the auspices of a specific Old Earth biblical paradigm If so what are they It is our firm conviction that God has allowed the passage of time to cover the blatant earthen signs of the Noahic Flood in such a way and just enough as to require earnest seekers of truth to use their eyes of faith and their vision of the kingdom metanarrative along with their empirical sight and senses to view and interpret the richness of the evidence Prerequisites in this quest include a great respect for the authority of Holy Scripture a pure heart with a simple desire for God's truth and a relentless willingness to look for both the forest and the trees viz to see the multitudes of seemingly unrelated small scenes always in light of the big picture The negation of any of these necessities will completely nullify the veracity of one's conclusions However we strongly aver that the totality of these necessities can bring the historical truth of the mystery of the Noahic Flood into a much much greater clarity *Creation: "Behold, it was very good."* Richard Schaefer,2019-10-28 Author Richard A Schaefer

was a lifelong communicator fascinated by stories and like any good journalist dug for the facts and verified sources exploring nagging questions such as Is creation or evolution more credible based on science and expert opinions This book truly represented a personal passion of looking at all sides of the CREATION vs EVOLUTION issue He called on many experts and theorists including Charles Darwin himself Surprisingly Darwin was far more skeptical of his own theories than are many PhDs today and admitted to significant holes in his logic Read for yourself as great thinkers explore the pros and cons of both theories and their variants
