

The book cover features a stylized illustration of a man in a dark suit and red tie, sitting at a desk and holding a large sheet of paper. He has a serious expression. The background is a vibrant red with a stylized world map in shades of orange and yellow. Above the man, there are blue, mechanical-looking structures resembling satellite components or camera lenses, connected by thin lines to the map below. The title 'UNRELIABLE SOURCES' is prominently displayed in a white box with a black border, centered above the man.

UNRELIABLE SOURCES

A GUIDE TO DETECTING
BIAS IN NEWS MEDIA

With a new introduction on the **Gulf War and the Media**

"This book is about the media's dirty secrets... You can see why media moguls
aren't happy about [Unreliable Sources]"

—Barbara Reynolds, *USA Today*

MARTIN A. LEE & NORMAN SOLOMON

Unreliable Sources A Guide To Detecting Bias In News Media

L Reisser

Unreliable Sources A Guide To Detecting Bias In News Media:

Unreliable Sources Martin A. Lee, Norman Solomon, 1990 Reveals how and why news media are distorting current events **Media Bias** Wm. David Sloan, Jenn Burleson Mackay, 2016-03-24 In this book scholars examine the many prevailing arguments about media bias from a non polemical perspective Essays cover individual forms of bias including ideology politics television photography religion abortion homosexuality gender race crime environment region military corporate ownership labor and health Each essay introduces the topic presents arguments for and against the specific bias assesses the evidence for all arguments and includes a list of suggested readings Two additional essays discuss the broader aspects of the bias debate and give a personal perspective on reporting the controversial Israeli Palestinian conflict Instructors considering this book for use in a course may request an examination copy here **Introduction to Media Literacy** W. James Potter, 2015-07-23 Introduction to Media Literacy builds students media literacy step by step to make them more knowledgeable and engaged producers and consumers of media In nine streamlined chapters students learn how the mass media operate and how to use the media in better ways to achieve their own personal goals All of the essential media topics are covered from understanding media audiences industries and effects to confronting controversies like media ownership privacy and violence in a concise format that keeps students focused on effectively improving their media literacy skills Give your students the SAGE edge SAGE edge offers a robust online environment featuring an impressive array of free tools and resources for review study and further exploration keeping both instructors and students on the cutting edge of teaching and learning **Making Sense of Media and Politics** Gadi Wolfsfeld, 2011-06-23 Politics is above all a contest and the news media are the central arena for viewing that competition One of the central concerns of political communication has to do with the myriad ways in which politics has an impact on the news media and the equally diverse ways in which the media influences politics Both of these aspects in turn weigh heavily on the effects such political communication has on mass citizens In Making Sense of Media and Politics Gadi Wolfsfeld introduces readers to the most important concepts that serve as a framework for examining the interrelationship of media and politics political power can usually be translated into power over the news media when authorities lose control over the political environment they also lose control over the news there is no such thing as objective journalism nor can there be the media are dedicated more than anything else to telling a good story the most important effects of the news media on citizens tend to be unintentional and unnoticed By identifying these five key principles of political communication the author examines those who package and send political messages those who transform political messages into news and the effect all this has on citizens The result is a brief engaging guide to help make sense of the wider world of media and politics and an essential companion to more in depths studies of the field **Mass Media** James B. Martin, 2002 Mass media has become an integral part of the human experience News travels around the world in a split second affecting people in other countries in untold ways Although being on top of the news may be good at

least for news junkies mass media also transmits values or the lack thereof condenses complex events and thoughts to simplified sound bites and often ignores the essence of an event or story The selective bibliography gathers the books and magazine literature over the previous ten years while providing access through author title and subject indexes

Bad Girls A. Susan Owen, Leah R. Vande Berg, Sarah R. Stein, 2007 *Bad Girls* examines representational practices of film and television stories beginning with post Vietnam cinema and ending with postfeminisms and contemporary public disputes over women in the military The book explores a diverse range of popular media texts from the Alien saga to Ally McBeal and Sex and the City from The Net and VR5 to Sportsnight and G I Jane The research is framed as a study of intergenerational tensions in portrayals of women and public institutions in careers governmental service and interactions with technology Using iconic texts and their contexts as a primary focus this book offers a rhetorical and cultural history of the tensions between remembering and forgetting in representations of the American feminist movement between 1979 and 2005 Looking forward the book sets an agenda for discussion of gender issues over the next twenty five years and articulates with authority the manner in which transgression itself has become a site of struggle

Inciting Democracy Randy Schutt, 2001-09-10 *Inciting Democracy* offers a vision of what a good society might look like and explores how we can overcome five key obstacles to creating such a society It offers a practical way to develop a large decentralized education and support program that can increase the skills knowledge and strength of hundreds of thousands of goodhearted people so they can democratically and nonviolently transform society through grassroots change movements It also provides a realistic long term vision of success a vision that can encourage and inspire people working for positive change thus making success more likely

Good News, Bad News Jeremy Iggers, 2018-02-12 In *Good News Bad News* Jeremy Iggers argues that journalism s institutionalized conversation about ethics largely evades the most important issues regarding the public interest and the civic responsibilities of the press Changes in the ownership and organization of the news media make these issues especially timely although journalism s ethics rest on the idea of journalism as a profession the rise of market driven journalism has undermined journalists professional status Ultimately argues Iggers journalism is impossible without a public that cares about the common life Written in an accessible style *Good News Bad News* is important reading for journalists communication scholars and students Public dissatisfaction with the news media frequently gives rise to calls for journalists to live up to the ethical standards of their profession But what if the fault lies in part with the standards themselves Jeremy Iggers argues that journalisms institutionalized conversation about ethics largely evades the most important issues regarding the public interest and the civic responsibilities of the press Changes in the ownership and organization of the news media make these issues especially timely although journalisms ethics rest on the idea of journalism as a profession the rise of market driven journalism has undermined journalists professional status Ultimately argues Iggers journalism is impossible without a public that cares about the common life A more meaningful approach to journalism ethics must begin with a

consideration of the role of the news media in a democratic society and proceed to look for practical ways in which journalism can contribute to the vitality of public life Written in an accessible style Good News Bad News is important reading for journalists communication scholars and students *Digital Disconnect* Robert W. McChesney, 2013-03-05 Celebrants and skeptics alike have produced valuable analyses of the Internet's effect on us and our world oscillating between utopian bliss and dystopian hell But according to Robert W McChesney arguments on both sides fail to address the relationship between economic power and the digital world McChesney's award winning Rich Media Poor Democracy skewered the assumption that a society drenched in commercial information is a democratic one In Digital Disconnect McChesney returns to this provocative thesis in light of the advances of the digital age incorporating capitalism into the heart of his analysis He argues that the sharp decline in the enforcement of antitrust violations the increase in patents on digital technology and proprietary systems and other policies and massive indirect subsidies have made the Internet a place of numbing commercialism A small handful of monopolies now dominate the political economy from Google which garners an astonishing 97 percent share of the mobile search market to Microsoft whose operating system is used by over 90 percent of the world's computers This capitalistic colonization of the Internet has spurred the collapse of credible journalism and made the Internet an unparalleled apparatus for government and corporate surveillance and a disturbingly anti democratic force In Digital Disconnect Robert McChesney offers a groundbreaking analysis and critique of the Internet urging us to reclaim the democratizing potential of the digital revolution while we still can

A Cognitive Psychology of Mass Communication

Fred W. Sanborn, Richard Jackson Harris, 2013-07-18 A Cognitive Psychology of Mass Communication is the go to text for any course that adopts a cognitive and psychological approach to the study of mass communication In its sixth edition it continues its examination of how our experiences with media affect the way we acquire knowledge about the world and how this knowledge influences our attitudes and behavior Using theories from psychology and communication along with reviews of the most up to date research this text covers a diversity of media and media issues ranging from commonly discussed topics such as politics sex and violence to lesser studied topics such as sports music emotion and prosocial media This sixth edition offers chapter outlines and recommended readings lists to further assist readability and accessibility of concepts and a new companion website that includes recommended readings even more real world examples and activities PowerPoint presentations sample syllabi and an instructor guide Monsters in the Classroom: Noam Chomsky, Human Nature, and Education Philip G. Hill, 2023 In this lucid original and comprehensive work the articulated approaches to pedagogy are based on specific conceptions of human nature Drawing on a vast range of Chomsky's prodigious output in linguistics politics biology cognitive science and education Hill highlights two fundamental elements of Chomsky's understanding of human nature and uses these elements as the foundation of a highly creative approach to pedagogy The originality of the work is apparent in the way the author identifies how key ideas in Chomsky's linguistics and political discourse are rooted in a

liberatory approach to education The value of the work lies in its practical nature Even though it makes reference to ideas in various academic disciplines the work s overall value is reflected in the way ideas relate to Hill s personal teaching experiences and how they apply in a concrete classroom setting The reader is offered a practical and highly creative way to apply Chomsky s understanding of human nature in a classroom setting **Understanding Global News** Jaap van Ginneken,1998-01-23 Using the enormous number of available examples and a range of theoretical perspectives the author demonstrates the ways in which the news media are able to manipulate an individual s perception of the world Media Literacy W. James Potter,2008 Media Literacy is a captivating engaging reader friendly textbook essential for introductory Media Studies courses in communication sociology film studies and English SirReadaLot org In this media saturated world it is critical to approach media influences using critical thought and active participation Media Literacy Fourth Edition uses an engaging and conversational style to help students gain the skills needed to navigate the rocky terrain of mass messages which are designed to inform them to entertain them and to sell them This captivating book offers a plan of action for gaining a clearer perspective on the borders between the real world and the simulated media world helping readers become responsible media consumers *Gonzo Marketing* Christopher Locke,2009-06-17 Ladies and gentlemen please return your tray tables to the fully upright and locked position suspend your disbelief and put on your tinfoil pyramid hats We are now entering cue lights cue music the Brand Dimension Gonzo Marketing is a knuckle whitening ride to the place where social criticism biting satire and serious commerce meet and where the outdated ideals of mass marketing and broadcast media are being left in the dust As master of ceremonies at the wake for traditional one size fits all marketing Locke has assembled a unique guest list from Geoffrey Chaucer to Hunter S Thompson to guide us through the revolution that is rocking business today as people connect on the Web to form powerful micromarkets These networked communities based on candor trust passion and a general disdain for anything that smacks of corporate smugness reflect much deeper trends in our culture which Locke illuminates with his characteristic wit Just as gonzo journalism arose in response to objective news standards that claimed to foster fairness but in practice discouraged writers from speaking their minds in their own voices so too does gonzo marketing call for a similar response to assumptions about consumer behavior that no longer relate to how people actually live their lives Gonzo Marketing is not yet another nostrum for hoodwinking the unwary It s about market advocacy It describes how the artist formerly known as advertising must do a 180 It s about transforming the marketing message from we want your money to we share your interests It s about tapping into listening to and even forming alliances with emerging on line markets who probably know more about your company than you do It s a hip hop cover of boring old best practices played backwards The paradox is that companies that support and promote these communities can have everything they ve always wanted greater market share customer loyalty brand equity Irreverent penetrating profoundly simple and on the money Gonzo Marketing is the raucous wake up that no one interested in any aspect of twenty first century business from the

trading floor right up to the boardroom can afford to ignore

Prime Time Activism Charlotte Ryan,1991 An essential primer for all grassroots activists this book demystifies the media in such a way that the reader activist gains a framework for understanding the propaganda industry of the United States

Scientific and Technical Communication James H. Collier,David M. Toomey,1997 Scientific and Technical Communication is a major textbook that represents a new focus area in communication studies It integrates multidisciplinary perspectives on the relations among rhetoric science technology and public policymaking to the process and product of technical communication The text is inspired by science and technology studies STS a field emerging from the history sociology and philosophy of science and technology which also has roots in economics political theory and rhetoric Reformulating the issues raised by STS within the context of technical communication Scientific and Technical Communication is composed of three highly integrated parts Part I provides a summary critique and alternative to recent theoretical perspectives developed in the rhetoric of science and the sociology of scientific knowledge Part II applies these critical alternatives to the traditional practices of scientific and technical communication and shows how these new practices can be applied to the communication that is vital in forming national and local science and technology policy This hands on introductory textbook will supply students and professionals in the areas of scientific and technical communication rhetoric and media studies with broad based and applicable knowledge in this area

Political Communication Carsten Reinemann,2014-07-28 Against the background of an enormous expansion and diversification of both political communication itself and scientific research into its structures processes and effects this volume gives an overview of some of the key theories and findings accumulated by political communication research over the last decades In order to do so the volume provides readers with review articles by renowned international authors on various aspects of I the normative regulatory and conceptual foundations of political communication II different situations of political communication e g elections referendums social movements media hypes crisis and war III the activities of and part played by political actors IV mass media and journalism V characteristics and typical features of media messages VI the role played by citizens as well as VII various kinds of effects on citizens Each section includes several chapters that address specific issues and research problems in the form of comprehensive overviews articles

Environmental Communication and the Public Sphere Robert Cox,2010 Environmental Communication and the Public Sphere is the first comprehensive undergraduate textbook in the growing field of environmental communication It takes as its theme the role of communication in influencing the ways in which we perceive the environment as well as what actions we and others take in our relations to the natural world The text blends scholarship and hands on experiences to provide a theory based and coherent description of the concrete communication practices and sites in the debates over environment protection Additional theory and vocabulary are introduced as are case studies and examples for closer examination of the principal sites and practices of environmental communication including forums for public participation advocacy campaigns media coverage of environmental stories risk

communication and models of dispute settlement This accessible book Summarizes current scholarship in the area and makes accessible many of the practices of media corporations and advocacy groups that are not readily available in public sources Gives students insight into the practical ways to participate publicly in influencing the decisions of governmental agencies that affect the environment Offers a comprehensible treatment of the complexity and range of issues sites and practices in environmental communication Includes Act Locally exercises which provide opportunities for students to apply their knowledge of the principles of environmental communication *News Narratives and News Framing* Karen S.

Johnson-Cartee,2005 *News Narratives and News Framing* is a revealing look at how the media s construction of news affects our political economic and social realities In this introduction to the theory behind news framing Karen Johnson Cartee pulls together elements from communication journalism politics and sociology to create a picture of how news forms these realities for the public With its comprehensive reference section and suggestions on how to influence the news agenda this is a beneficial resource for students in political communication media criticism and communication theory Visit our website for sample chapters **Networks of Power** Dennis W. Mazzocco,1994 This book is a startling expose of the increasing threat to free speech a democratic government Mazzocco describes the ways that an ever expanding U S based multinational media cartel velis the machinations of the corporate state by dominating worldwide markets for TV radio newspapers books movies cable recordings and videos
