Ethnic Renewal in Philadelphia's Chinatown Kathryn Wilson, 2015-04-10 Philadelphia s Chinatown like many urban chinatowns began in the late nineteenth century as a refuge for immigrant laborers and merchants in which to form a community to raise families and conduct business But this enclave for expression identity and community is also the embodiment of historical legacies and personal and collective memories In *Ethnic Renewal in Philadelphia s Chinatown* Kathryn Wilson charts the unique history of this neighborhood After 1945 a new generation of families began to shape Chinatown s future As plans for urban renewal ranging from a cross town expressway and commuter rail in the 1960s to a downtown baseball stadium in 2000 were proposed and developed Save Chinatown activists rose up and fought for social justice Wilson chronicles the community s efforts to save and renew itself through urban planning territorial claims and culturally specific rebuilding She

shows how these efforts led to Chinatown's growth and its continued ability to serve as a living community for subsequent waves of new immigration

Urban Inequality and Segregation in Europe and China Gwilym Pryce, Ya Ping Wang, Yu Chen, Jingjing Shan, Houkai Wei, 2021-11-16 This open access book explores new research directions in social inequality and urban segregation. With the goal of fostering an ongoing dialogue between scholars in Europe and China it brings together an impressive team of international researchers to shed light on the entwined processes of inequality and segregation and the implications for urban development. Through a rich collection of empirical studies at the city, regional and national levels the book explores the impact of migration on cities, the related problems of social and spatial segregation and the ramifications for policy reform. While the literature on both segregation and inequality has traditionally been dominated by European and North American studies, there is growing interest in these issues in the Chinese context. Economic liberalization, rapid industrial restructuring, the enormous growth of cities and internal migration have all reshaped the country profoundly. What have we learned from the European and North American experience of segregation and inequality and what insights can be gleaned to inform the burgeoning interest in these issues in the Chinese context? How is China different both in terms of the nature and the consequences of segregation, inequality and what are the implications for future research and policy? Given the continued rise of China's significance in the world and its recent declaration of war on poverty, this book offers a timely contribution to scholarship, identifying the core insights to be learned from existing research and providing important guidance on future directions for policy makers and researchers

The Routledge Companion to Ethnic Marketing Ahmad Jamal, Lisa Peñaloza, Michel Laroche, 2015-06-19 The globalization of marketing has brought about an interesting paradox: as the discipline becomes more global, the need to understand cultural differences becomes all the more crucial. This is the challenge in an increasingly international marketplace and a problem that the world's most powerful businesses must solve. From this challenge has grown the exciting discipline of ethnic marketing, which seeks to understand the considerable opportunities and challenges presented by cultural and ethnic diversity in the marketplace. To date, scholarship in the area has been lively but disparate. This volume brings together cutting edge research on ethnic marketing from thought leaders across the world. Each chapter covers a key theme reflecting the increasing diversity of the latest research, including models of culture change, parenting and socialization, responses to web and advertising, role of space and social innovation in ethnic marketing, ethnic consumer decision making, religiosity, differing attitudes to materialism, acculturation, targeting and ethical and public policy issues. The result is a solid framework and a comprehensive reference point for consumer researchers, students and practitioners
