The Wayward Mind An Intimate History Of The Unconscious:

The Wayward Mind Guy Claxton, 2005 The unconscious has had a long and chequered history For at least the last 4 000 years societies have concocted comforting fables in the face of the recurrent puzzles of human existence death dreaming madness possession inspiration that invariably rely on some notion of the unconscious Supernatural fairy stories need some internal proxy or contact point through which the influence of demons and spirits can flow And without such gods and forces some psychological machinery is needed to take over their work But what IS the unconscious Is it God s viceroy the soul Is it the locked ward of Freudian desire Is the subliminal mind the source of the sublime emotions of the Romantics Is it the mental microchip of cognitive science Or is it simply the brain In this exceptional book Guy Claxton finally frees the unconscious from its narrow psychoanalytic confines and explores its evolution from the Sun God myths of Ancient Egypt to the insights of 21st century neuroscience

Going Beyond the Jesus Story Douglas Lockhart, 2011-09-30 Who am I Why am I Where am I headed and where have I been These are just some of the questions that concern the author of Going Beyond the Jesus Story a book that ranges freely across complex and intriguing subject areas such as the nature of religious belief contemplative and meditative experience lucid dreaming the role of feeling in our appreciation of reality the inherently spiritual nature of asking questions and our need to go beyond not only the Jesus story as it has come down to us but also the ingrained notion that self is an ongoing uninterrupted experience of the conscious mind that can be taken for granted

Directing our attention to the nature of attention itself we are introduced step by carefully constructed step to the idea that consciousness is not what we have assumed it to be or conscious awareness quite as conscious as we like to think it is Delving into history theology and philosophy in an attempt to reach an integrated understanding of the religious and secular problems we face as human beings the author examines ideas that confront and challenge on just about every level ideas that carry us towards an appreciation of what it means to presence the self to the self as an experience in its own right At this point theory gives way to experiment to methodology to a knowing or seeing that makes this book a unique contribution to the study of human sentience and its evolved and evolving structures The Creativity of Social Dreaming W. Gordon Lawrence, 2018-03-21 This broad range of papers covers different aspects of social dreaming The book begins with a summary of the Social Dreaming Matrix conceptualised as a temporary system with its intakes transformation processes and outputs The remaining chapters cover social dreaming in different contexts including amongst others from the perspectives of art architecture theatre working with immigrants with pilots and lawyers and family mediators and hospitals All the papers cover areas outside of the goal orientated activities of the institution and examine what they may be saying about the organization of the participants The Spirits of the Times Lia Theresa Schraeder, 2009 **The Psychologist** , 2006
