An Architectural Approach to Instructional Design Andrew S. Gibbons, 2013-10-30 Winner of the 2014 AECT Design Development Outstanding Book Award An Architectural Approach to Instructional Design is organized around a groundbreaking new way of conceptualizing instructional design practice Both practical and theoretically sound this approach is drawn from current international trends in architectural digital and industrial design and focuses on the structural and functional properties of the artifact being designed rather than the processes used to design it Harmonious with existing systematic design models the architectural approach expands the scope of design discourse by introducing new depth into the conversation and merging current knowledge with proven systematic techniques An architectural approach is the natural result of increasing technological complexity and escalating user expectations As the complexity of design problems increases specialties evolve their own design languages theories processes tools literature organizations and standards An Architectural Approach to Instructional Design describes the implications for theory and practice providing a powerful and commercially relevant introduction for all students of instructional design

The Instructional Design Knowledge Base Rita C. Richey, James D. Klein, Monica W. Tracey, 2010-10-18 The Instructional Design Knowledge Base Theory Research and Practice provides ID professionals and students at all levels with a comprehensive exploration of the theories and research that serve as a foundation for current and emerging ID practice This book offers both current and classic interpretations of theory from a range of disciplines and approaches It encompasses general systems communication learning early instructional media conditions based constructivist design and performance improvement theories Features include rich representations of the ID literature concise theory summaries specific examples of how theory is applied to practice recommendations for future research a glossary of related terms a comprehensive list of references A perfect resource for instructional design and technology

doctoral masters and educational specialist certificate programs The Instructional Design Knowledge Base provides students and scholars with a comprehensive background for ID practice and a foundation for future ID thinking *Innovations in Instructional Technology* J. Michael Spector, Celestia Ohrazda, Andrew Van Schaack, David A. Wiley, 2006-04-21 M David Merrill has been active in the field of instructional technology for almost 40 years His contributions range from basic instructional principles and instructional design theory to development and implementation of learning environments *Innovations in Instructional Technology* is a collection of original essays written by leading scholars and practitioners who have worked with and been inspired by Professor Merrill The chapters in this book represent a sampling of key innovations in the instructional technology field and include knowledge of how people learn how people solve problems how designers conceptualize learning spaces how teachers implement learning activities and how evaluators assess outcomes This volume is divided into five basic areas of research in instructional technology mirroring the diverse contributions of Dr Merrill s work four chapters on learning objects and the notion of reusable components three chapters that discuss fundamental aspects of learning and the design of instruction three chapters that address innovations in the area of assessment evaluation and model validation three chapters that concern theories of learning and instruction and three chapters on instructional design practice The book concludes with a chapter outlining Dr Merrill s responses to challenges comments and questions on the future of the field ranging from the notion of initial passions with regard to instructional technology to connections between theory and practice to questions of conscience from an expert panel comprised of many of the contributors to the book As Dave Merrill s work will continue to be required reading for students of instructional technology *Innovations in Instructional Technology* is a book that will appeal to students researchers and practitioners in the field **The Instructional Design Trainer's Guide** Jill Stefaniak, Rebecca Reese, 2022-03-21 The Instructional Design Trainer s Guide provides foundational concepts and actionable strategies for training and mentoring instructional design and educational technology students to be effective across contexts ID faculty are charged with bridging the gap between research and practice preparing graduate students for the real world workforce This book provides trainers and university programs with authentic learning experiences that better articulate the practices of and demands on design and technology professionals in the field Through this enhanced perspective learners will be better positioned to confidently embrace constraints work among changing project expectations interact with multiple stakeholders and convey to employers the skills and competencies gleaned from their formal preparation *Handbook of Design in Educational Technology* Rosemary Luckin, Sadhana Puntambekar, Peter Goodyear, Barbara L Grabowski, Joshua Underwood, Niall Winters, 2013-06-26 The Handbook of Design in Educational Technology provides up to date comprehensive summaries and syntheses of recent research pertinent to the design of information and communication technologies to support learning Readers can turn to this handbook for expert advice about each stage in the process of designing systems for use in educational settings from theoretical foundations to the challenges

of implementation the process of evaluating the impact of the design and the manner in which it might be further developed and disseminated The volume is organized into the following four sections Theory Design Implementation and Evaluation The more than forty chapters reflect the international and interdisciplinary nature of the educational technology design research field

Fostering Pedagogy Through Micro and Adaptive Learning in Higher Education: Trends, Tools, and Applications Queirós, Ricardo, Cruz, Mario, Pinto, Carla, Mascarenhas, Daniela, 2023-08-14 Fostering Pedagogy Through Micro and Adaptive Learning in Higher Education Trends Tools and Applications is a timely and groundbreaking book that addresses the challenges of engaging the digital generations in the teaching learning process intensified by the pandemic Written by Ricardo Queirós a renowned researcher in e learning interoperability and programming languages the book offers a unique perspective on using micro and adaptive learning approaches to create immersive and personalized environments that cater to the learning styles and paces of diverse students The book covers innovative trends tools and applications that enable educators to implement pedagogical practices that enhance the teaching learning experience It explores topics such as artificial intelligence in education adaptive hypermedia differentiated instruction and micro gamification design providing readers with practical tools to create personalized and immersive learning environments This book is a valuable resource for professors of any domain practitioners and students pursuing education as well as research scholars looking to expand their understanding of e learning and pedagogical innovation It is a must read for anyone interested in the future of education and how digital technologies can be leveraged to create engaging and immersive learning environments
