philosophers ethicists evolutionary biologists and a whole range of scholars and scientists within the emerging field of consciousness studies Teresa Jordan offers a wry and intimate journey into a year in midlife devoted to the challenge of trying to live authentically The Ayn Rand Lexicon Ayn Rand,1988-01-01 A prolific writer bestselling novelist and world renowned philosopher Ayn Rand defined a full system of thought from epistemology to aesthetics Her writing is so extensive and the range of issues she covers so enormous that those interested in finding her discussions of a given topic may have to search through many sources to locate the relevant passage The Ayn Rand Lexicon brings together all the key ideas of her philosophy of Objectivism Begun under Rand s supervision this unique volume is an invaluable guide to her philosophy or reason self interest and laissez faire capitalism the philosophy so brilliantly dramatized in her novels The Fountainhead We the Living and Anthem **With Charity Toward None** William F. O'Neill,2015-09-08 This book is a study of Ayn Rand s philosophy of objectivism It addresses three basic questions What is objectivism What is the full meaning of the objectivist point of view And what are the basic social implications of objectivism The book is divided into two major sections The first part summarizes Ayn Rand s philosophy with respect to three basic areas of inquiry 1 knowing and the known 2 personal value and the nature of man and 3 the ethics of objectivism The second part consists primarily of a critical analysis of the ideas presented in the earlier pages The purpose of the study is to deal with Ayn Rand s basic premises only secondary consideration is given to the way in which these premises apply to specific problems in such areas as politics economics and esthetics Throughout O Neill is less concerned with criticizing what Rand says than with determining whether what she says makes sense in terms of established procedures for rational and semantic analysis and with respect to generally accepted principles for the scientific verification of evidence **The Objectivist** ,1969 *Basic Principles of Objectivism* Nathaniel Branden,1960 **The Passion of Ayn Rand** Barbara Branden,1986 The bestselling biography of one of the 20th century s most remarkable and controversial writers Author Barbara Branden who knew Rand for nineteen years provides a matchless portrait of this fiercely private and complex woman **Ayn Rand** Hector Davidson, Ayn Rand s philosophy known as Objectivism centers around a few key principles Metaphysics Rand asserts the primacy of existence She argues that reality exists independent of our perceptions or beliefs and that it is knowable through reason Epistemology She champions reason as the only means of acquiring knowledge According to Rand reason is the faculty that identifies and integrates the material provided by our senses Ethics Rand s ethical theory is based on rational self interest or egoism She argues that individuals should act in their own best interest and that this is both moral and practical The virtue of selfishness as she terms it means pursuing one s own happiness as the highest moral aim Politics Rand advocates for laissez faire capitalism as the ideal political system She believes that the government s sole role should be to protect individual rights through the police military and judiciary but not to interfere in the economy or individual choices Aesthetics In her view art is a reflection of an artist s values and vision of life She supports Romantic Realism where art is a representation of life as it could be and should be

celebrating human potential and achievement *My Years with Ayn Rand* Nathaniel Branden, 1999-02-26 The relationship between Rand and Branden changed over eighteen years from student and teacher to friends to colleagues to lovers and finally antagonists **The Writers Directory** ,2013 **Words on Cassette, 2002** R R Bowker Publishing, 2002 *Words on Cassette* ,2000 **The Objective Standard** ,2007 *Lingua Franca* ,1999 **The Objectivist** Ayn Rand, Nathaniel Branden, 1962
