The Wakeful World Animism Mind And The Self In Nature:

The Wakeful World Emma Restall Orr, 2012-10-26 Over the past few hundred years animism has been dismissed as a primitive naïve and irrational perspective irrelevant within the civilised West In *The Wakeful World* Emma Restall Orr argues that this is based on the misrepresentation drawn in crayon that each tree and stone has its own Christian like immortal soul Taking the reader on a philosophical adventure Restall Orr explores the heritage of Western thought with precision enthusiasm and sensitivity considering how soul spirit mind and consciousness have been understood through millennia Challenging the prevailing worldviews of materialism and dualism she presents animism as a radically different yet mature and coherent philosophy Providing deep green ethics with a wholly rational metaphysical foundation *The Wakeful World* is a compelling view of the nature of existence and the experience of reality giving solid ground for the now necessary journey to a sustainable world This original and lively book brings back animism a most useful range of ideas which reductivists have somewhat wildly abandoned during the last century into focus once more just when it is badly needed to cure current

confusions about mind and body Dr Mary Midgley Moral Philosopher **Where Airy Voices Lead** Piotr Bienkowski, 2020-05-29 Many have pursued and continue to pursue real immortality by seeking to prolong their lives on this earth Others pursue symbolic or proxy immortality through children fame or being part of something long lasting One can imagine these different forms of immortality as a menu of options of how to live forever you click the one that appeals to you most and best fits your beliefs hopes values and worldview **Another Kind of Normal** Graham Ward, 2022-01-13 Every age needs to examine and propose its ways of living ethically *Another Kind of Normal Ethical Life II* constructs a mode of such living according to the Christian tradition based upon an interpretation of Christ's coming and the relationship of that incarnation to God as the Creator of all things In the second of four volumes Graham Ward explores an Augustinian vision of consonance between divine rhythm and the rhythmic orders of creation On the basis of what Augustine calls the interval it proposes Christ is encountered as riddle scandal and paradox It provides an account of creation as a Trinitarian event that calls for a rethinking of what are the key teachings in Christianity with respect to an understanding of creation as a divine benediction and a theatre for transformation and healing Ward argues through Scriptural exegesis for the omnidirectionality of time as graced rejecting a conception of linear temporality and theologies indebted to that conception Throughout participation in God through our hiddenness in Christ develops an account of the complex relationship between divine and human creativity appealing to music painting poetry drama film architecture and novels **Altered Perspectives** Sam Woolfe, 2024-12-10 This collection of essays delves into some of the strangest and most profound aspects of the psychedelic experience such as seeing the self as an illusion feelings of deep insight the sublime fear mixed with wonder encounters with DMT entities déjà vu and existential joy Drawing on research and theories from a variety of disciplines Sam Woolfe reflects on the ways that altered states may inform our understanding of consciousness the self and reality Particular attention is paid to

the philosophy of psychedelics with the aim of clarifying altered states through the lenses of metaphysics philosophy of mind epistemology aesthetics existentialism and Buddhism In these essays Woolfe balances open mindedness with a critical and sceptical perspective he believes that this approach is necessary when examining psychedelic consciousness **Mind is the Ride** Jet McDonald,2019-05-16

When Jet McDonald cycled four thousand miles to India and back he didn't want to write a straightforward account He wanted to go on an imaginative journey The age of the travelogue is over today we need to travel inwardly to see the world with fresh eyes Mind is the Ride is that journey a pedal powered antidote to the petrol driven philosophies of the past The book takes the reader on a physical and intellectual adventure from West to East using the components of the bike as a metaphor for philosophy which is woven into the cyclist's experience Each chapter is based around a single component and as Jet travels he adds new parts and new philosophies until the bike is built the ride to India is completed and the relationship between mind body and bicycle made apparent Lessons from the Mountaintop

Lawrence Pintak,2025-08-22 Lessons from the Mountaintop is an inspiring account of the experiences of modern day spiritual explorers who have dedicated their lives to the mystic quest to find their own Truth It is aimed at readers looking for answers in our complex and challenging world Few of us will ever retreat to a mountaintop or spend decades in monastic silence Some of the individuals profiled in Lessons from the Mountaintop have done exactly that Others have spent their lives studying with spiritual masters of multiple traditions A New York record company art director a medical doctor from Australia a formerly unhoused non binary BIPOC Californian and other once ordinary folk who have carved out their own unique spiritual paths You will not find them on the best seller lists or the Spiritual 100 rankings Most of them quietly pursue their spiritual quest far from the media spotlight What prompted them to walk away from it all What do they see that the rest of us do not What lessons do they bring back from their spiritual journeys What can we learn from them Veteran journalist and author Lawrence Pintak introduces the reader to individuals of grace and profound spiritual experience who he has encountered in his decades reporting from around the globe and others he sought out as he explored unfamiliar spiritual traditions The result is a fascinating collection of profiles that offer deep insight into what has been called the perennial wisdom at the heart of the world's religions Lessons from the Mountaintop contains lessons for us all whether we are religious spiritual or simply trying to navigate our complex and challenging world Cosmopolitanism, Nationalism, and Modern Paganism

of indigenous religions and new political configurations Cosmopolitanism and nationalism have both influenced the weaving of unique local Paganisms in diverse contexts Pagans articulate a strong attachment to local or indigenous traditions and landscapes constructing paths that reflect local socio cultural political and historical realities However they draw on the Internet and the global circulation of people and universal ideas This collection considers how they confound these binaries in fascinating complex ways as members of local communities and global networks **And God Created Wholeness** Edwin E.
