and peoples that shaped Western civilization both outside the West and within it Conquest and Survival in Colonial Guatemala, Fourth Edition W. George Lovell, 2015-06-01 A landmark contribution to research on Mesoamerica updated and expanded **Resources in Education**, 2000-04 **Anthropology of Cultural Transformation II** Xudong Zhao, 2024-02-26 This book is the second of a two volume set on the anthropology of cultural transformation It examines how cultural consciousness enriches and reshapes the vision of anthropology and ethnographic writing Anthropology in the twenty first century is confronted with a worldview of cultural transformation based on communication collision and interaction among cultures around the globe This two volume set aims to reorient the role and function of anthropology by focusing on reconstructing knowledge and cultural consciousness to better imagine and realize the synergetic interaction between different cultures and civilizations The second volume begins with a case study of the demolition of urban areas in Beijing revealing a reinvention of public cultural representation It then explores the new paths and missions of Chinese anthropological studies and ethnographic writing which should be grounded in China s indigenous consciousness and cultural reservoir The title will appeal to anthropologists students and general readers interested in anthropology sociology and ethnography Engineering, 1890 **The Conqueror's Gift** Michael Maas, 2025-02-25 An account of the central role that ethnography played in the Roman empire and its transformation in Late Antiquity Ethnography broadly understood is a key element in the toolkit of every empire as important as armies tax collectors or ambassadors It helps rulers articulate cultural differences with outsiders and sometimes bridge them and it lets the inhabitants of an empire especially those who guide its course understand themselves and their place in the midst of the enemies allies and friends who surround them Whenever provinces are drawn peace treaties and alliances framed diplomats sent on mission decisions taken to go to war or simply life lived in the midst of unfamiliar voices some kind of ethnographic vision must come into play This ethnographic infrastructure as ancient historian Michael Maas calls it supports the empire s view of itself regarding the nations of the world and it shapes and reflects actual interactions with them Ethnography is not simply a reflection of changes It also enables change by providing terms and concepts that give voice to the articulation of new circumstances In this book Maas argues that to understand how the Roman Empire transformed in the crucial period of Late Antiquity the empire s ethnographic underpinnings especially as they were affected by Christianity must be examined As Maas demonstrates Romans knew they lived in a world of great cultural diversity movement and instability They believed that their empire imposed order upon it Images of barbarians filled public spaces throughout the empire as reminders of Roman control Writers likewise filled their pages with descriptions of foreigners in a wide variety of genres These ethnographies according to Maas served three general functions First they described foreign peoples placing them in established and accessible systems of knowledge Second they judged them on a register of distance from Roman norms with most like us the best possible evaluation Third ethnography indicated explicitly or implicitly what the possibilities of participation within the

imperial community might be In other words the gift of ethnography possessed for the conquerors a mechanism of imperial transformation
