The Memory of Fire George Foy, 2000 Some futures just shouldn't exist From the acclaimed author of *The Shift* and *Contraband* comes an intricately plotted lushly written tale of a young composer trapped in a world turning mad where imagination and free music will soon be the worst kinds of crime In a dark and not so distant future whole populations are addicted to virtual sensation and vast bureaucracies are using deadly force to rid themselves of troublemakers Within this world small self contained communities called nodes or cruces live in an anarchistic freedom that threatens organized society This is the world of accordionist and composer Soledad MacCrae When the cruce of Bamaca on the South American coast is destroyed Soledad flees to northern California in search of a Yanqui

node to give her refuge But terrifyingly realistic dreams of her old city intrude on her peace It soon becomes clear that Soledad s visions of her doomed home have somehow turned into a black prediction of how the bureaucracies will wipe out the American node Now to save her new refuge Soledad must uncover the deadly secret that lies at the heart of her old life particularly her passionate love affair with rebel poet Jorge Echeverria whose incendiary poems she once set to music For music is the final key not only to the bureaucracies deadly plans but to the ultimate mystery of her own survival
