Auger,2005 Little is known of the internment of German prisoners of war civilians and merchant seamen on Canadian soil during the Second World War In the midst of the most destructive conflict in human history almost 40 000 Germans were detained in twenty five permanent internment camps and dozens of smaller work camps located across Canada Five of these permanent camps were located on the southern shores of the St Lawrence River at Farnham Grande Ligne Ile aux Noix Sherbrooke and Sorel in the province of Quebec Martin Auger s book provides a fascinating insight into the internment operation in southern Quebec The study examines the organization and day to day affairs of internment camps and offers an in depth analysis of the experience of the German prisoners who inhabited these camps The author shows how the pressures of internment such as restricted mobility sexual deprivation social alienation and the lack of material comfort created important psychological and physical strains on inmates In response Canadian authorities introduced labour projects and educational programs to uphold morale to thwart internal turmoil and to prevent escapes These initiatives also aimed to expose German prisoners to the values of a democratic society and prepare their postwar reintegration The author concludes that Canada abided with the provisions of the Geneva Convention and that its treatment of German prisoners was humane Prisoners of the Home Front sheds light on life behind Canadian barbed wire The study fills an important void in our knowledge of the Canadian home front during the Second World War and furthers our understanding of the human experience in times of war **Days of Remembrance, April 7-14, 1991** ,1990 *God and the Fascists* Karlheinz Deschner,2013-10-08 Now available in English for the first time a controversial work that indicts the Vatican for its actions before and during World War II In the decade preceding the outbreak of World War II the Vatican made a devil s bargain with fascist leaders Anticipating that their regimes would eliminate a common enemy namely Marxist Leninist communism two popes essentially collaborated with Hitler Mussolini and the fascist dictators in Spain Franco and Croatia Paveli This is the damning indictment of this well researched polemic which for almost five decades in Germany has sparked controversy outrage and furious debate Now it is available in English for the first time Many will dismiss Deschner who himself was raised and educated in a pious Catholic tradition as someone who is obsessed with exposing the failings of the church of his upbringing But he has marshaled so many facts and presented them with such painstaking care that his accusations cannot easily be ignored The sheer weight of the evidence that he has brought together in this book raises a host of questions about a powerful institution that continues to exercise political influence to this day **The Holocaust Film Sourcebook: Documentary and propaganda** Caroline Joan Picart,2004 A comprehensive filmography listing fictional narrative films in the first volume and documentary and propaganda films in the second The films listed alphabetically were produced in many different countries The work lists films made during World War II and after including Nazi films Each entry provides bibliographic information a summary of the
