The Eyes of Power Karen Margaret Gerhart,1999-07-01 In this study of the political thrust behind some of the most important officially sponsored art of the early Tokugawa Karen Gerhart takes as her focus the heyday of the rule of the third Tokugawa shogun Iemitsu She analyzes aspects of painting architecture and sculpture created expressly under the patronage of Iemitsu at three major monuments the castles at Nijo and Nagoya and the sumptuous decoration of the great Tokugawa mausoleum Nikko Toshogu In highlighting key examples of artistic production Gerhart brings to the fore significant themes and issues that exemplify political art in the first half of the 17th century Weaving and Binding Michael Como,2009-09-02 Among the most exciting developments in the study of Japanese religion over the past two decades has been the discovery of tens of thousands of ritual vessels implements and scapegoat dolls hitogata from the Nara 710-784 and early Heian 794-1185 periods Because inscriptions on many of the items are clearly derived from Chinese rites of spirit pacification it is now evident that previous scholarship has mischaracterized the role of Buddhism in early Japanese religion Weaving and Binding makes a compelling argument that both the Japanese royal system and the Japanese Buddhist tradition owe much to continental rituals centered on the manipulation of yin and yang animal sacrifice and spirit quelling Building on these recent archaeological discoveries Michael Como charts an epochal transformation in the religious culture of the Japanese islands tracing the transmission and development of fundamental paradigms of religious practice to

immigrant lineages and deities from the Korean peninsula In addition to archaeological materials Como makes extensive use of a wide range of textual sources from across Asia including court chronicles poetry collections gazetteers temple records and divinatory texts As he investigates the influence of myths legends and rites of the ancient Chinese festival calendar on religious practice across the Japanese islands Como shows how the ability of immigrant lineages to propitiate hostile deities led to the creation of elaborate networks of temple shrine complexes that shaped later sectarian Shinto as well as popular understandings of the relationship between the buddhas and the gods of Japan For much of the book this process is examined through rites and legends from the Chinese calendar that were related to weaving sericulture and medicine technologies that to a large degree were controlled by lineages with roots in the Korean peninsula and that claimed female deities and weaving maidens as founding ancestors Como s examination of a series of ancient Japanese legends of female immortals weaving maidens and shamanesses reveals that female deities played a key role in the moving of technologies and ritual practices from peripheral regions in Kyushu and elsewhere into central Japan and the heart of the imperial cult As a result some of the most important building blocks of the purportedly native Shinto tradition were to a remarkable degree shaped by the ancestral cults of immigrant lineages and popular Korean and Chinese religious practices This is a provocative and innovative work that upsets the standard interpretation of early historical religion in Japan revealing a complex picture of continental cultic practice both at court and in the countryside

Reverie and Reality Yanning Wang, 2013-12-18 This is a study of Chinese gentry women s poems on the theme of travel written during the late imperial period ca 1600 1911 when Chinese women s literature and culture flourished as never before It challenges the clichéd image of completely secluded and immobile women anxiously waiting inside their prescribed feminine space the so called inner quarters for the return of traveling husbands or other male kin The travel poems discussed in this book while not necessarily representative of all of the women writers of this period point to the fact that many of them longed to explore the world through travel as did so many of their male counterparts Sometimes they were able to actualize this desire for travel and sometimes they were forced to resort to imaginary armchair travel In either case women writers often used poetry as a means of recording their experiences or delineating their dreams of traveling outside the inner quarters and indeed sometimes far away from the inner quarters With its promise of adventure and fulfillment and above all a broadening of one s intellectual and emotional horizons travel was an important and until now understudied theme of late imperial women s poetry

A Visible Witness Jules A. Martinez-Olivieri, 2016-06-03 *A Visible Witness* presents a fresh innovative perspective on a vital movement in twentieth century theology Protestant theology in Latin America emerged over fifty years ago side by side with the initial development of Roman Catholic liberation theology Both traditions have common theological interests the praxical nature of theology Christology and soteriology Protestants also share some of the fundamental intuitions of liberation theology the centrality of praxis in Christian life and the priority of opting for the suffering masses Key Protestant theologians like Jos M

quez Bonino Nancy Bedford and Guillermo Hansen challenged Protestant theology in Latin America to develop a Trinitarian hermeneutic for Christology in order to see the work of salvation as the work of the triune God and to relate Christology and pneumatology in ways that fundamentally shape the praxis of the church This dissertation takes on this challenge and proposes a theodramatic Christology that serves to ground the Christian notion of salvation as historical liberation and the church's participation in the present experience of redemption in the Trinitarian and economic work of Jesus Christ The ecclesia of believers participates in God's communicative activity via union with Christ the community of disciples becomes a theater of liberation
