Reconceiving Civil Society and Transitional Justice Joanne Wallis, Lia Kent, 2020-05-21 Reconceiving Civil Society and Transitional Justice examines the role of civil society in transitional justice exploring the forms of civil society that are enabled or disabled by transitional justice processes and the forms of transitional justice activity that are enabled and disabled by civil society actors Although civil society organisations play an integral role in the pursuit of transitional justice in conflict affected societies the literature lacks a comprehensive conceptualisation of the diversity and complexity of these roles This reflects the degree to which dominant approaches to transitional justice focus on liberal legal justice strategies and international human rights norms In this context civil society organisations are perceived as intermediaries who are thought to advocate for and support formal liberal transitional justice processes The contributions to this volume demonstrate that the reality is more complicated civil society can and does play important roles in enabling formal transitional justice processes but it can also disrupt them Informed by detailed fieldwork across Asia and the Pacific Islands the contributions demonstrate that neither transitional justice or civil society should be treated as taken for granted concepts Demonstrating that neither transitional justice or civil society should be treated as taken for granted concepts Reconceiving Civil Society and Transitional Justice will be of great interest to scholars of Security Studies Asian Studies Peacebuilding Asia Pacific Human Rights Reconciliation and the Politics of Memory The chapters were originally published as a special issue of Global Change Peace Security

Civil Society and Transitional Justice in Asia and the Pacific Claire Cronin, Lia Kent, JoAnne Wallis, 2019-01-01 Over the last two decades civil society has helped catalyse responses to the legacies of violent conflicts and oppressive political regimes in Asia and the Pacific Civil society has advocated for the establishment of criminal trials and truth commissions monitored their operations and pushed for take up of their recommendations It has also initiated community based transitional justice responses Yet there has been little in depth examination of the breadth and diversity of these roles This book addresses this gap by analysing the heterogeneity of civil society transitional justice activity in Asia and the Pacific Based upon empirically grounded case studies of Timor Leste Indonesia Cambodia Myanmar Bougainville Solomon Islands and Fiji this book illustrates that civil society actors can have different and sometimes competing priorities resources and approaches to transitional justice Their work is also underpinned by diverse understandings of justice By reflecting on the richness of this activity this book advances contemporary debates about transitional justice and civil society

It will also be a valuable resource for scholars and practitioners working on Asia and the Pacific *Oxford Handbook of Transitional Justice*, 2025-08-15 The Oxford Handbook of Transitional Justice is an authoritative guide to the rapidly growing domain of transitional justice the practices and processes of reckoning pursued in the aftermath of historic injustice Since the neologism s coining in the late 1990s transitional justice has become one of the 21st century s most influential practices of international humanitarianism However transitional justice projects often conceal the very violence they are intended to address or even inflict further violence on victims of atrocities Across 48 genre bending chapters the Handbook explores articulates and advances a multifaceted critique of transitional justice Ranging innovatively across space and time it interrogates the nature and legacies of the justice cascade that the prosecution of international crimes is said to have inspired An interdisciplinary cast of leading scholars questions the meaning and efficacy of transitional justice s modalities which range from archives to courts from memorials to reparations In so doing this volume s authors critically challenge the panglossian orthodoxies that have accumulated and ossified around efforts to come to terms with violent pasts from colonialism to genocide This global endeavor is not one of tear down however Rather it points toward a reimagined project that is more clear eyed about the promises of transitional justice and its inherent limits A definitive work on the subject The Oxford Handbook of Transitional Justice is essential reading for students scholars and practitioners interested in practices of reckoning Transitional Justice in Nepal Yvette Selim, 2018-06-27 The conflict in Nepal 1996 2006 resulted in an estimated 15 000 deaths 1 300 disappearances along with other serious human rights and humanitarian law violations Demands for peace democracy accountability and development have abounded in the post conflict context Although the conflict catalysed major changes in the social and political landscape in Nepal the transitional justice TJ process has remained deeply contentious and fragmented This book provides an in depth analysis of transitional justice process in Nepal Drawing on interviews with a diverse range of stakeholders including victims ex combatants community members human rights advocates journalists and representatives from diplomatic missions international organisations and the donor community it reveals the differing viewpoints knowledge attitudes and preferences about TJ and other post conflict issues in Nepal The author develops an actor typology and an action spectrum which can be used in Nepal and other post conflict contexts The actor typology identifies four main groups of TJ actors experts brokers implementers and victims and highlights who is making claims and on behalf of whom The action spectrum based on contentious politics literature and resistance literature demonstrates the strategies actors use to shape the TJ process This book argues that the potential of TJ lies in these dynamics of contention It is by letting these dynamics play out that different conceptualisations of TJ can arise While doing so may lead to practical challenges and produce situations that are normatively undesirable for some actors particularly when certain political parties and national actors seem to hijack TJ remaining steadfast to the dominant TJ paradigm is also undesirable As the first book to provide a single case study on TJ in Nepal it makes theoretical and empirical contributions to

TJ research in Nepal and the Asia Pacific more broadly the politics versus justice binary and the concept of victimhood among others It will be of interest to a wide range of scholars in the study of transitional justice peace and conflict studies human rights sociology political science criminology law anthropology and South Asian Studies as well as policy makers and NGOs

Transitional Justice in South Asia Tazreena Sajjad, 2013-08-21 Offering a comparative case study of transitional justice processes in Afghanistan and Nepal this book critically evaluates the way the local is consulted in post conflict efforts toward peace and reconciliation It argues that there is a tendency in transitional justice efforts to contain the discussion of the local within religious and cultural parameters thus engaging only with a static local as interpreted by certain local stakeholders Based on data collected through interviews and participant observation carried out in the civil societies of the respective countries this book brings attention to a dynamic local where societal norms evolve and realities on the ground are shaped by shifting power dynamics local hierarchies and inequalities between actors It suggests that the local must be understood as an inter subjective concept the meaning of which is not only an evolving and moving target but also dependent on who is consulted to interpret it to external actors This timely book engages with the divergent range of civil society voices and offers ways to move forward by including their concerns in the efforts to help impoverished war torn societies transition from a state of war to the conditions of peace
