A special appendix in each volume presents the original scores for the Segovia editions discussed in the text, some of which have never been published, as well as modern editions of these pieces. Includes access to an online audio recording by Gerard Garono. *Classical Guitar Solos - Favorite Sonatinas* David Grimes, 2021-01-14 In this book, guitarist and music historian David Grimes presents 20 small sonatas or sonatinas, complete with detailed performance notes and bio sketches of each of the contributing composers: Leonhard von Call, Matteo Carcassi, Ferdinando Carulli, Mauro Giuliani, Francesco Molino, and Antonio Nava. While flexible, the early 19th-century sonatina form usually consists of 2-4 contrasting movements here in guitar-friendly keys, making these pieces ideal for performance by intermediate-level students. In all but the most challenging passages, Grimes has intentionally kept fingering to a minimum to allow students to form their own concept of this critical skill. Then, as many bass notes in these pieces are played on open strings, the player must develop a sense of when to selectively damp dissonant tones or observe a rest, exposing and overcoming yet another shortcoming in the education of many guitarists. Most classic guitar teachers are familiar with the easy didactic studies by Carcassi, Carulli, and Giuliani. *Favorite Sonatinas* offers more highly developed but not yet virtuosic pieces by the same Italian triumvirate, plus three more composers in a similar vein, promoting confident, enjoyable sight-reading by guitarists of all levels. **The Classical Guitar** Maurice J.
