Elisabeth De Bievre

Utrecht Kruispunt Van De Middeleeuwse Kerk:

Utrecht tussen kerk en staat, 1991 **Space in the Medieval West** Fanny Madeline, 2016-04-01 In the last two decades research on spatial paradigms and practices has gained momentum across disciplines and vastly different periods including the field of medieval studies Responding to this spatial turn in the humanities the essays collected here generate new ideas about how medieval space was defined constructed and practiced in Europe particularly in France Essays are grouped thematically and in three parts from specific sites through the broader shaping of territory by means of socially constructed networks to the larger geographical realm The resulting collection builds on existing scholarship but brings new insight situating medieval constructions of space in relation to contemporary conceptions of the subject **Pieter Saenredam, The Utrecht Work** Liesbeth M. Helmus, 2002-01-01 Pieter Saenredam 1597 1665 was one of the magical painters of 17th century Holland a time known as the Golden Age of Dutch Art He spent his career immortalizing the churches of Holland in drawings and paintings Working through a series of perspective drawings to the finished painting he made innumerable fine adjustments to architectural details to create what may be justly called spaces of wondrous perfection of proportion and luminosity Pieter Saenredam The Utrecht Work is published to coincide with an exhibition of Saenredam s drawings and paintings originally held at the Centraal Museum Utrecht and on view from April 16 through July 7 2002 at the Getty Museum This elegant volume brings together more than sixty drawings and paintings depicting the beautiful and historically venerable churches of the Dutch city of Utrecht Jaarboek voor Middeleeuwse geschiedenis, 6 B. van Bavel, 2003 **Utrecht** Elisabeth De Bievre, 2024-12-06 This book presents the latest research on the cities monuments from the arrival of Willibrord and Boniface and the establishment of the Bishopric It focuses on 12th century sculptural iconography manuscript production fonts secular architecture and the Gothic cathedral De nalatenschap van de Paulusabdij in Utrecht Hildo van Engen, Kaj van Vliet, 2012 Bundel over de culturele en historische nalatenschap van het benedictijnenklooster The Grove Encyclopedia of Medieval Art and Architecture Colum Hourihane, 2012 This volume offers unparalleled coverage of all aspects of art and architecture from medieval Western Europe from the 6th century to the early 16th century Drawing upon the expansive scholarship in the celebrated Grove Dictionary of Art and adding hundreds of new entries it offers students researchers and the general public a reliable up to date and convenient resource covering this field of major importance in the development of Western history and international art and architecture **Het kapittel van Sint Jan te Utrecht** Ellen Palmboom, 1995 *Financing Cathedral Building in the Middle Ages* Wim Vroom, 2025-10-01 This first comprehensive overview of the process of commissioning and financing the construction of cathedrals in the Middle Ages reveals a financing system almost as monumental as the cathedrals themselves Here we follow the historian on a fascinating examination of construction accounts and other sources extant but never so minutely explored bringing the bishop and the chapter to account as it were The book is divided into two parts The first gives a broad overview of the

resources on which medieval commissioners could draw including contributions from the bishop chapter sovereign city and above all the faithful of the diocese in which the cathedral was erected The second part is a case study of the financing of construction at Utrecht Cathedral whose archives are among the best preserved in Europe followed by a brief discussion of the financing of several other cathedral building projects throughout Europe and of the church of St Peter s in Rome

Conrad II, 990-1039 Herwig Wolfram, 2010-11-01 In this biography of the German emperor Conrad II 990 1039 internationally renowned medievalist Herwig Wolfram paints a fascinating portrait of a consummate politician set against the background of a Europe entering a new millennium Conrad was the founder of the Salian Dynasty under whose almost century long dominion Germany became the most powerful state in Western Europe He was also the first emperor of the high Middle Ages to rule the three kingdoms of Germany Italy and Burgundy Conrad s reign marked the triumph of the concept of kingdom and the zenith of what has been termed imperial grandeur He broadened the internal bases of imperial power and brought the full weight of his office to bear upon popes clerics and abbots in the pursuit of his ecclesiastical policies His astounding ability to achieve his political goals was practically unparalleled among the emperors of the High Middle Ages Wolfram sees Conrad as a politician in almost the modern sense of the word capable of exploiting the political social and economic structures of his day in order to exert his authority and marginalize his opponents The result is an intimate portrait filled with fresh insights about Conrad and his consort Gisela who as Wolfram demonstrates played an influential advisory role with her husband First published in 2000 this work demonstrates Wolfram s masterly command of the sources and the storyteller s craft making Conrad II a compelling history of an emperor and his magnificent epoch
