What Means Psi Myanmar:

Lawful by Design Isabel Lischewski, 2022-01-20 In recent years the procedural rules of global governance institutions have come under scrutiny from scholars worldwide and have been conceptualized as akin to domestic administrative law. However, one question has so far not been addressed: who shapes this procedure and why? In the present work, Isabel Lischewski develops a simple matrix connecting procedure and state interest. When this matrix is applied to a sample of forty diverse institutions, fascinating patterns emerge which are further explored through in-depth case studies. It is shown that states prefer to balance sovereignty preservation through procedure with the costs it entails. Thus, normative considerations are not the predominant basis on which this procedure is designed. The research provides original insights into the landscape of global governance procedure and cautions against a notion of apolitical administration law.

Ruling Myanmar Nick Cheesman, Monique Skidmore, Trevor Wilson, 2010 November 2010 sees the first elections in Myanmar/Burma since 1990 to be held as the culmination of the military regime's Road Map for Democracy. The conditions under which the elections are being held are far from favourable, although the laws and procedures under which they will be conducted have been in place for seven months and quite widely publicized. Political controls remain repressive, freedom of expression and assembly does not exist, and international access is restricted by government controls as well as sanctions. While the elections represent a turning point for Myanmar/Burma, the lead-up period has not been marked by many notable improvements in the way the country is governed or in the reforming impact of international assistance programmes. Presenters at the Australian National University 2009 Myanmar/Burma Update conference examined these questions and more. Leading experts from the United States, Japan, France, and Australia, as well as from Myanmar/Burma, have contributed to this collection of papers from the Conference.

Myanmar's Transition Nick Cheesman, 2003-08-01 With the world watching closely, Myanmar began a process of political, administrative, and institutional transition from 30 January 2011. After convening the parliament elected in November 2010, the former military regime transferred power to a new government headed by former Prime Minister and retired general U Thein Sein. With parliamentary processes restored in Myanmar, its new capital of Naypyitaw, Thein Sein's government announced a wide-ranging reform agenda and began releasing political prisoners and easing press censorship. Pivotal meetings between Thein Sein and Aung San Suu Kyi led to amendment of the Election Law and the National League for Democracy contesting by-elections in April 2012. The 2011 Myanmar/Burma update conference considered the openings offered by these political changes and media reforms and the potential opportunities for international assistance. Obstacles covered include impediments to the rule of law, the continuation of human rights abuses, the impunity of the Army, and the failure to end ethnic insurgency.

Reduction of HIV Vulnerability Within the Land Transport Sector, 2000 Petroleum Geology of Myanmar A. Racey, M.F. Ridd, 2015-09-18 With the social, political, and economic changes taking place in Myanmar (formerly Burma), there is a keen interest among international resource companies to explore opportunities for

investment in the country As early as the 1700s oil was being produced onshore from deep hand dug wells and was exported as far afield as India But in the petroleum sector the most dramatic change has been the discovery offshore of major gasfields The present volume is the first to bring together information on the offshore as well as the onshore petroleum geology The readership is likely to include not only those in the petroleum industry seeking an overview of the habitat of Myanmar's oil and gas but also researchers in the broader field of SE Asian geology As in many parts of the world it has been the petroleum industry that has provided data of value to stratigraphers structural geologists and those seeking to decipher the tectonic history of the region *External Review, Mekong Subregion STD/HIV/AIDS Project: Country review documents, Cambodia, China, Lao PDR, Myanmar, Thailand & Viet Nam*, 1999

The Many Faces of Corruption J. Edgardo Campos, Sanjay Pradhan, 2007-04-04 Corruption How can policymakers and practitioners better comprehend the many forms and shapes that this social pandemic takes From the delivery of essential drugs the reduction in teacher absenteeism the containment of illegal logging the construction of roads the provision of water and electricity the international trade in oil and gas the conduct of public budgeting and procurement and the management of public revenues corruption shows its many faces The Many Faces of Corruption attempts to bring greater clarity to the often murky manifestations of this virulent and debilitating social disease It explores the use of prototype road maps to identify corruption vulnerabilities suggests corresponding warning signals and proposes operationally useful remedial measures in each of several selected sectors and for a selected sample of cross cutting public sector functions that are particularly prone to corruption and that are critical to sector performance Numerous technical experts have come together in this effort to develop an operationally useful approach to diagnosing and tackling corruption The Many Faces of Corruption is an invaluable reference for policymakers practitioners and researchers engaged in the business of development *Discourse*, 2009

Healthcare in Motion Cecilia Vindrola-Padros, Ginger A. Johnson, Anne E. Pfister, 2018-08-17 How does the need to obtain and deliver health services engender particular mobility forms And how is mobility experienced and imagined when it is required for healthcare access or delivery Guided by these questions Healthcare in Motion explores the dynamic interrelationship between mobility and healthcare drawing on case studies from across the world and shedding light on the day to day practices of patients and professionals

Delineates the challenges posed by North Korea **Handbook of Research on Counterfeiting and Illicit Trade** Peggy E. Chaudhry,2017-07-28 This unique Handbook provides multiple perspectives on the growth of illicit trade primarily exploring counterfeits and internet piracy It includes expert opinion on a wide range of topics including the evaluation of key global enforcement issues government and private sector agency initiatives to stifle illicit trade and the evolution of piracy on the internet The authors also assess the efficacy of anti counterfeiting strategies such as targeted consumer campaigns working with intermediaries in the supply chain authentication technology and online brand protection **From Migrant to**

Worker Michele Ford,2019-04-15 What happens when local unions begin to advocate for the rights of temporary migrant workers asks Michele Ford in her sweeping study of seven Asian countries Until recently unions in Hong Kong Japan Malaysia Singapore South Korea Taiwan and Thailand were uniformly hostile towards foreign workers but Ford deftly shows how times and attitudes have begun to change Now she argues NGOs and the Global Union Federations are encouraging local unions to represent and advocate for these peripheral workers and in some cases succeeding From Migrant to Worker builds our understanding of the role the international labor movement and local unions have had in developing a movement for migrant workers labor rights Ford examines the relationship between different kinds of labor movement actors and the constraints imposed on those actors by resource flows contingency and local context Her conclusions show that in countries Hong Kong Malaysia and Thailand where resource flows and local factors give the Global Union Federations more influence local unions have become much more engaged with migrant workers But in countries Japan and Taiwan for example where they have little effect there has been little progress While much has changed Ford forces us to see that labor migration in Asia is still fraught with complications and hardships and that local unions are not always able or willing to act *Civil Society and Nuclear Non-Proliferation* Claudia Kissling,2016-05-23 Since the end of the Cold War globalization has brought new actors to the political arena One of those which has attracted considerable attention in academic research is civil society or NGOs Claudia Kissling addresses the topic of civil society participation in the nuclear non proliferation regime The regime

qualifies well for this objective since it features given its characteristics as a treaty regime in the international security field notable legal avenues for civil society participation The study takes on a twofold perspective It addresses the empirical question of whether civil society can contribute to the evolution of regimes in the security field especially when it comes to security cooperation It also questions whether civil society can under certain conditions contribute to the democratic quality of international decision making Here empirical findings are used in order to test normative political theories on the legitimacy and democracy of global institutions
