Home Care Fault Lines Cynthia J. Cranford, 2020-06-15 In this revealing look at home care Cynthia J Cranford illustrates how elderly and disabled people and the immigrant women workers who assist them in daily activities develop meaningful relationships even when their different ages abilities races nationalities and socioeconomic backgrounds generate tension As Cranford shows workers can experience devaluation within racialized and gendered class hierarchies which shapes their pursuit of security Cranford analyzes the tensions alliances and compromises between security for workers and flexibility for elderly and disabled people and she argues that workers and recipients negotiate flexibility and security within intersecting inequalities in varying ways depending on multiple interacting dynamics What comes through from Cranford's analysis is the need for deeply democratic alliances across multiple axes of inequality To support both flexible care and secure work she argues for an intimate community unionism that advocates for universal state funding designs culturally sensitive labor market intermediaries run by workers and recipients to help people find jobs or workers and addresses everyday tensions in home workplaces

Congress,1972 **Eat Like a Pig, Run Like a Horse** Anastacia Marx de Salcedo,2022-07-05 There is no magic pill There is no perfect diet Could it be that our underlying assumption that what we re eating is making us fat and sick is just plain wrong To address the rapid rise of lifestyle diseases like diabetes and heart disease scientists have conducted a whopping 500 000 studies of diet and another 300 000 of obesity Journalists have written close to 250 million news articles combined about these topics Yet nothing seems to halt the epidemic Anastacia Marx de Salcedo s Eat Like a Pig Run Like a Horse looks not just to data driven science but to animals and the natural world around us for a new approach What she finds will transform the national debate about the root causes of our most pervasive diseases and offer hope of dramatically reducing the number who suffer no matter what they eat It all began with her own medical miracle she has multiple sclerosis but has discovered that daily exercise was key to keeping it from progressing And now new research backs up her own experience This revelation prompted Marx de Salcedo to ask what would happen if people with lifestyle illnesses put physical activity front and center in their daily lives Eat Like a Pig Run Like a Horse takes us on a fascinating journey that weaves together true confessions mad ish scientists and beguiling animal stories Marx de Salcedo shows that we need to move beyond our current diet focused model to a new dynamic concept of metabolism as regulated by exercise Suddenly the answer to good health is almost embarrassingly simple Don t worry about what you eat Worry about how much you move In a few years time adhering to a finicky Keto Paleo low carb or any other special diet to stay healthy will be as antiquated as using Daffy s Elixir or Dr Bonker s Celebrated Egyptian Oil popular medicines from the 1800s to cure disease And just as the 19th century health revolution was based on a new understanding that the true cause of malaria tuberculosis and cholera was microorganisms so the coming 21st century one will be based on our new understanding that exercise is the only way to metabolic health Fascinating and brilliant Eat Like a Pig Run Like a Horse is primed to usher in that new era **From Walking to Wheeling** J.
