Interrogating Ethnography Steven Lubet,2018 In this comprehensive review of urban ethnography Steven Lubet encountered a field that relies heavily on anonymous sources often as reported by a single investigator whose underlying data remain unseen Upon digging into the details he discovered too many ethnographic assertions that were dubious exaggerated tendentious or just plain wrong Employing the tools and techniques of a trial lawyer Lubet uses original sources and contemporaneous documentation to explore the stories behind ethnographic narratives Many turn out to be accurate but others are revealed to be based on rumors folklore and unreliable hearsay Interrogating Ethnography explains how qualitative social science would benefit from greater attention to the quality of evidence and provides recommendations for bringing the field more closely in line with other fact based disciplines such as law and journalism

Latino Homicide Ramiro Martinez, Jr.,2014-10-24 Latino

Homicide is the first empirically based but readable book for courses to counter the conventional wisdom that immigrant populations only contribute crime to their communities. For this second edition, Martinez further emphasizes his argument with updated data and the addition of a new city, San Antonio. With fascinating case studies from police reports and actual cases from six varied cities, Latino homicide rates are revealed to be markedly lower than one would expect given the economic deprivation of these urban areas. Far from dangerous or criminal, these communities often have exceptionally strong social networks precisely because of their shared immigrant experiences. Martinez skillfully refutes negative stereotypes in a coherent and critically rigorous analysis of the issues.
