McConville, 2012-01-06 Philip E Satterthwaite and J Gordon McConville introduce the content and the context of the historical books their setting in ancient history and history writing their literary artistry their role within the Scriptures of Israel and their lasting value as theological and ethical resources *Old Testament Ethics for the People of God* Christopher J. H. Wright, 2013-01-30 Nothing confuses Christian ethics quite like the Old Testament Christopher Wright examines a theological social and economic framework for Old Testament ethics exploring themes in relation to contemporary issues economics the land and the poor politics and a world of nations law and justice society and culture and the way of the individual **Reading the Law** J. G. McConville, Karl Møller, 2007-11-15 The volume will be a collection of essays by leading scholars on the interpretation of the Old Testament on the topics of law and ethics *A Theological Introduction to the Old Testament* Prof. Walter Brueggemann, Prof. Bruce C. Birch, Prof. Terence E. Fretheim, David L. Petersen, 2011-12-01 This book has become a standard text in seminary and university classrooms The purpose of this second edition is to help readers come to a critically informed understanding of the Old Testament as the church's scripture This book introduces the Old Testament both as a witness of ancient Israel and as a witness to the church and synagogue through the generations of those who have passed these texts on as scripture The authors of this volume share a commitment to the interpretation of the Old Testament as a central resource for the life of the church today At the same time they introduce the Old Testament witness in a manner that honors the importance of biblical scholarship in helping students engage the variety of theological voices within the Old Testament This second edition gives special attention to deepening and broadening theological interpretations by including for example issues related to gender race and class It also includes more detailed maps and charts for student use **The Emergence of Israel in Ancient Palestine** Emanuel Pfoh, 2016-04-01 Taking advantage of critical methodology for history writing and the use of anthropological insights and ethnographic data from the modern Middle East this study aims at providing new understandings on the emergence of Israel in ancient Palestine and the socio political dynamics at work in the Levant during antiquity The book begins with a discussion of matters of historiography and history writing both in ancient and modern times and an evaluation on the incidence of the modern theological discourse in relation to history and history writing Chapter 2 evaluates the methodology used by biblical scholars for gaining knowledge on ancient Israelite society Pfoh argues that such attempts often apply socio scientific models on biblical narratives without external evidence of the reconstructed past producing a virtual past reality which cannot be confirmed concretely Chapter 3 deals with the archaeological remains usually held as clear evidence of Israelite statehood in the tenth century BCE The main criticism is directed towards archaeological interpretations of the data which are led by the biblical narratives of the books of Judges and Samuel resulting in a harmonic blend of ancient literature and modern anthropological models on state formation Chapter 4 continues with the discussion on how anthropological models should be employed for history writing Socio political concepts such as chiefdom society or state formation should not be imposed on the contents of ancient literary sources i.e. the

Bible but used instead to analyse our primary sources the archaeological and epigraphic records in order to create a socio historical account The final chapter attempts to provide an historical explanation regarding the emergence of Israel in ancient Palestine without relying on the Bible but only on archaeology epigraphy and anthropological insights This Israel is not the biblical one This is the Israel from history the one that the modern historian aims at recovering from the study of ancient epigraphic and archaeological remains The arguments presented challenge the idea that the biblical writers were recording historical events as we understand this practice nowadays and that we can use the biblical records for creating critical histories of Israel in ancient Palestine It also questions the existence of undisputable traces of statehood in the archaeological record from the Iron Age as the biblical images about a United Monarchy might lead us to believe Thus drawing on ethnographic insights we may gain a better knowledge on how ancient Levantine societies functioned providing us with a context for understanding the emergence of historical Israel as a major highland patronate with a socio political life of almost two centuries It is during the later periods of ancient Palestines history the Persian and the Graeco Roman that we find the proper context into which biblical Israel is created beginning a literary life of more than two millennia

Biblical Narratives, Archaeology and Historicity Emanuel Pfoh, Lukasz Niesiolowski-Spanò, 2019-11-14 This volume collects essays from an international body of leading scholars in Old Testament studies focused upon the key concepts of the question of historicity of biblical stories the archaeology of Israel Palestine during the Bronze and Iron Ages and the nature of biblical narratives and related literature As a celebration of the extensive body of Thomas L Thompson s work these essays enable a threefold perspective on biblical narratives Beginning with method the contributors discuss archaeology cultural memory epistemology and sociology of knowledge before moving to history historiography and archaeology and close analysis of the Qumran Writings Josephus and biblical rewritings Finally the argument turn to the narratives themselves exploring topics including the possibility of invented myth the genre of Judges and the depiction of Moses in the Qu ran Presenting an interdisciplinary analysis of the historical issues concerning ancient Israel Palestine this volume creates an updated body of reference to fifty years worth of scholarship

Two Testaments, One Bible David L. Baker, 2013-04-06 Do we need the Old Testament today Is this collection of ancient writings still relevant in our postmodern and increasingly post literary world Isn't the New Testament a sufficient basis for the Christian faith What does the Old Testament God of power and glory have to do with the New Testament God of love whom Jesus calls Father Are these two very different Testaments really one Bible In this thoroughly revised updated and expanded edition of Two Testaments One Bible David L Baker investigates the theological basis for the continued acceptance of the Old Testament as Christian Scripture through a study of its relationship to the New Testament He introduces the main issues surveys the history of interpretation and critically examines four major approaches He then considers four key themes which provide a framework for Christian interpretation of two Testaments in the context of one Bible typology promise and fulfillment continuity and discontinuity and covenant He completes his study with a summary of the main conclusions and reflection on their implications for the use of the Bible today **The World and the Word** Eugene H. Merrill, Mark Rooker, Michael A. Grisanti, 2011-07-05 Three esteemed Old Testament professors introduce students to the first eighty percent of the Bible freshly illuminating the text as a rich source of theology and doctrine packed with practical principles for modern times Text and History Jens Bruun Kofoed, 2005-06-30 During the past two or three decades the value of the text of the Hebrew Bible as a testimony to the history of Israel has come under siege As the date of the final form of the text has been pushed later and later often into the Hellenistic era the text has been devalued accordingly what is late is viewed as having less value At the same time the connection between the text and extratextual information particularly from

archaeology has been rendered less and less clear by both archaeological investigation itself and an increasing inability to connect text and artifact or to do so compellingly. Some of the foremost scholars who have argued that the biblical text contributes little to historical research have come from Copenhagen. Now from Copenhagen Jens Bruun Kofoed steps forward to address the methodological issues that must lie behind the use of the biblical text and its validation as a source for historical information. In this volume he sets out the methodological stepping stones necessary to an honest use of the biblical text and through discussion of presuppositions underlying various methodologies and by evaluating specific test cases shows among other things that lateness of the extant text by itself is not a charge that reduces the text's value as a source of historical information that taking modern genre research and authorial intent into account opens new vistas for evaluating the historiographical reliability of ancient texts and that a way forward from the current impasse is possible.

Building Belief Chad V. Meister, 2009-06-01 Take a journey from doubt to belief. It can be hard to share your faith with others especially when people can't agree on whether there is even any actual truth. With that in mind Chad Meister has developed a simple logical way for you to help others move past relativism to a place where Christian belief makes sense. The Apologetics Pyramid. In Building Belief Meister leads you up each step of the pyramid beginning where many find themselves today doubting if anything is really true. From there he powerfully builds a case for absolute truth, the existence of God, universal morals and values, the reliability and divine inspiration of the Bible, the resurrection of Christ and ultimately the good news that Jesus is the Son of God who offers salvation to the world. Join Chad Meister in this concise, clear and compelling book as he builds a persuasive case for the truth of Christianity. Lee Strobel, author The Case for Christ and The Case for Faith. An excellent book to lead earnest enquirers from doubt to conviction about the basic truths of the Christian faith. Norman L. Geisler, dean Southern Evangelical Seminary and Bible College. Chad Meister is a force to be reckoned with and this delightful little book is a timely resource to be studied by Christians and given to non-Christians. J. P. Moreland, distinguished professor of philosophy Talbot School of Theology, author Love Your God with All Your Mind. Building Belief is thoughtful, fresh and full of personal and practical illustrations. Meister strikes just the right balance providing a model for how apologetics ought to be done. Paul Copan, Pledger Family Chair of Philosophy and Ethics, Palm Beach Atlantic University. Meister offers both the tools and the method for making discussions with skeptics more fruitful. Jay W. Richards, research fellow Acton Institute, coauthor The Privileged Planet.

Israel in Transition 2 Lester L. Grabbe, 2008-01-01 Israel in Transition 2 is the second in a two-volume work addressing some of the historical problems relating to the early history of Israel from its first mention around 1200 BCE to the beginnings of the kingdoms of Israel and Judah. During this four-century transition period Israel moved from a group of small settlements in the Judean and Samaritan hill country to the two kingdoms of Israel and Judah occupying much of the land on the west side of the Jordan. The present volume engages with the relevant texts. These include various inscriptions such as the Tel Dan inscription and the Assyrian inscriptions but also an examination

of the biblical text The articles discuss various individual problems relating to Israelite history but ultimately the aim is to comment on historical methodology The debate among Seminar members illustrates not only the problems but also suggests solutions and usable methods The editor provides a perspective on the debate in a Conclusion that summarizes the contributions of the two volumes together

Symbol, Service, and Song J. Nathan Clayton, 2021-11-09 In the Old Testament the Levites stand as key ministry leaders for the worship of the people of God from their origins with Moses and the tabernacle to their service at the Jerusalem temple to their roles in the postexilic period This study proposes a multidimensional reading of the texts centered on the Levites in the Davidic narratives of 1 Chronicles 10-29 From a literary point of view the notion that the Levites are closely associated with the symbol of God's presence is explored From a historical perspective the roles of the Levites in expanding the service to God and his people is examined And from a theological perspective the means by which the Levites facilitate the song of God's people is studied Overall this work seeks to defend the idea that these texts contribute significantly to the rhetorical argumentation the historiographic method and the biblical theological meaning of the canonical books of Chronicles generally and of the Davidic narratives of 1 Chronicles 10-29 specifically as they emphasize the central role played by proper Levitical worship leadership at the time of David and during the challenging situation of the Chronicler's Yehudite postexilic audience
