Unmatched in scope, this text remains the leading source for personal training preparation and professional development.

Creative Fitness Henry B. Biller, 2002-05-30 Biller integrates research about exercise, nutrition, and health within an applied developmental psychological framework. Readers are presented with ways of making fitness an enjoyable and positive force in their daily lives. Although a major focus is on how to get in shape, Biller's primary mission is to encourage a healthy lifestyle that enriches self-awareness and personal growth. The goal is not just to facilitate physical fitness but to enhance overall life satisfaction. The book's uniqueness accordingly lies in its ability to help individuals develop a creative, playful approach to fitness in all spheres of their lives. While some readers are just beginning to think about fitness because of a desire to lose weight and improve their appearance, others are more interested in refining their athletic skills or achieving a greater balance in their daily activities. Dedicated exercisers often are striving for new routines and ways to prevent burnout. Many parents, moreover, are searching for activities to help their children, as well as themselves, become more fit. Older individuals are especially likely to be concerned about staying healthy and avoiding physical dependence as they age. Biller speaks to all these concerns and all these groups by providing an approach to getting in shape that enriches self-understanding and mental vitality.

Personal Training Mark Ansell, 2008-05-27 This is a key text for all those on sport science courses. It covers all the essential areas for a study of personal training, including fitness testing, nutrition, psychology, training principles, health, and fitness training in different contexts and business issues. Students therefore gain all the required multi-disciplinary knowledge with an understanding of how to apply this in practice. Throughout the text, theoretical explanation is supported by case studies, practical and reflective exercises, and guidance on
