Adina Broder creates a highly readable child friendly guide to the Yom Kippur Viduy that will surely enhance young people's understanding and kavanah intention when reciting the viduy that recurs so many times during the Yom Kippur service. As an educator par excellence who touches the heartstrings as well as teaches, Morah Broder brings both an age appropriate sensitivity to the text and its meaning as well as concrete examples from the everyday lives of students that will surely resonate with young people when they use the Booklet as a learning tool and especially as a companion to the Machzor. I hope that it will be used by both schools and parents. Mrs. Rookie Billet, Shulamith School for Girls, MD Principal. I have been shown a draft of Viduy Booklet for Kids organized and presented by Mrs. Adina Broder. Viduy is not only a challenging mitzvah for us all; it is the centerpiece and anchor for the entire Yom Kippur davening. Mrs. Broder has done a tremendous service to our youth by opening up to them much of the rabbinic concepts expressed in our viduy. She tries to capture the idea behind each line with a focus on having practical teshuva messages for our children and grandchildren. May this booklet instill deep feelings of repentance in both young and old and may we all merit to return to Hashem with all our heart. Rabbi Shalom

Munk, as a sidelight to his busy schedule of educational and communal work, has fascinated audiences with his learned and provocative lectures on the Hebrew alphabet. In the process of opening eyes and raising eyebrows, he has convinced countless people that his contention is true: the Hebrew alphabet abounds in scholarly and mystical meaning. He has developed and proven a profound thesis: The alphabet, if correctly understood, is a primer for life. Ethical conduct, religious guidance, philosophical insights—all are nestled in the curls, crowns, and combinations of the Hebrew letters. This is one of those rare books that is both interesting and profound, learned and readable. The wisdom and compassion of the author is evident in those subtle ways that do not intrude on the reader but give him the satisfaction of knowing that a rich, warm, productive lifetime of experience is flavoring the text. *How to be a Jewish Parent*, Anita Diamant, Karen Kushner, 2000. of Judaism Celebrate! Lesli Koppelman Ross, 2000-10-01 This innovative how to guide and reference book on the Jewish holidays provides a well rounded foundation for both knowledge and action Unlike many books of its kind Celebrate The Complete Jewish Holidays Handbook is nondenominational and comprehensive in approach The author includes the historical development religious importance and personal significance of each Jewish holy day in a way that is useful to both beginners and those well versed in Jewish practice The richness and depth of Jewish tradition with a full range of information on why and how to celebrate is presented in a lively warm and user friendly manner Points of Viewing Children's Thinking Ricki Goldman-Segall, Ricki Goldman, 2014-04-08 This book is about learning and ethnography in the context of technologies Simultaneously it portrays young people s thinking attitudes in computer based learning environments and it describes how the practice of ethnography is changing in a digital world The author likens this form of interaction to the double helix where learning and ethnography are intertwined to tell an emergent story about partnerships with technology Two school computer cultures were videotaped for this study Separated not only by geography one school is on the east coast of New England and the other on the west coast of British Columbia on Vancouver Island they are also separated in other ways ethnic make up and inner city vs rural settings to name only two Yet these two schools are joined by a strong thread a change in their respective cultures with the advent of intensive computer use on the part of the students Both school communities have watched their young people gain literacy and competence and their tools have changed from pen to computer video camera multimedia and the Internet Perhaps most striking is that the way they think of themselves as learners has also changed they see themselves as an active participant in the pilot s seat or director s chair as they chart new connections between diverse and often unpredictable worlds of knowledge Meir Zlotowitz, Avie Gold, 1986 To Tell Their Children Rachel L. Greenblatt, 2014-02-26 This book offers an examination of Jewish communal memory in Prague in the century and a half stretching from its position as cosmopolitan capital of the Holy Roman Empire 1583 1611 through Catholic reform and triumphalism in the later seventeenth century to the eve of its encounter with Enlightenment in the early eighteenth Rachel Greenblatt approaches the subject through the lens of the community s own stories stories recovered from close readings of a wide range of documents as well as from gravestones and other treasured objects in which Prague s Jews recorded their history On the basis of this material Greenblatt shows how members of this community sought to preserve for future generations their memories of others within the community and the events that they experienced Throughout the author seeks to go beyond the debates inspired by Yosef Hayim Yerushalmi s influential Zakhor Jewish History and Jewish Memory often regarded as the seminal work in the field of Jewish communal memory by focusing not on whether Jews in a pre modern community had a historical consciousness but rather on the ways in which they perceived and preserved their history In doing this Greenblatt opens a window onto the roles that local traditions aesthetic sensibilities gender social hierarchies and political and financial pressures played in the construction of local memories
