between reality the territory and what we perceive to be reality the map of the territory In our journey through life we need something to guide us to give us reassurance that we are on the right track Modern science has done its best to take that reassurance away from us telling us that there is no destination no purpose in life and that in effect our lives are an accident of Nature Religion too has become equally unhelpful it has become dogmatic sectarian and self serving We have lost the core the real message of religion but we still need true spirituality Indeed we need a map to the Truth **The World's Greatest UFO & Alien Encounters** ,2003 *The Encyclopedia of Alien Encounters* Alan Baker,1999 Containing over 500 entries this

Bradbury's classic novel *The Martian Chronicles* films *The Abyss* and *2001 A Space Odyssey* and also the *Star Trek* universe Richard Grigg argues that science fiction is born of nostalgia for a truly Other reality that is no longer available to us and that the most accurate way to see the relationship between science fiction and traditional approaches to the sacred is as an imitation of true sacrality this he suggests is the best option in a secular age He demonstrates this by setting forth five definitions of the sacred and then in consecutive chapters investigating particular works of science fiction and showing just how they incarnate those definitions *Science Fiction and the Imitation of the Sacred* also considers the qualifiers that suggest that science fiction can only imitate the sacred not genuinely replicate it and assesses the implications of this investigation for our understanding of secularity and science fiction
