Their Noble Lordships Class And Power In Modern Britain:

Their Noble Lordships Simon Winchester,1982 **Troublesome Young Men** Lynne Olson,2025-10-16 A riveting history of the daring politicians who challenged the disastrous policies of the British government on the eve of World War II On May 7 1940 the House of Commons began perhaps the most crucial debate in British parliamentary history On its outcome hung the future of Prime Minister Neville Chamberlain s government and also of Britain indeed perhaps the world Troublesome Young Men is Lynne Olson s fascinating account of how a small group of rebellious Tory MPs defied the Chamberlain government s defeatist policies that aimed to appease Europe s tyrants and eventually forced the prime minister s resignation Some historians dismiss the phony war that preceded this turning point from September 1939 when Britain and France declared war on Germany to May 1940 when Winston Churchill became prime minister as a time of waiting and inaction but Olson makes no such mistake and describes in dramatic detail the public unrest that spread through Britain then as people realized how poorly prepared the nation was to confront Hitler how their basic civil liberties were being jeopardized and also that there were intrepid politicians willing to risk political suicide to spearhead the opposition to Chamberlain Harold Macmillan Robert Boothby Leo Amery Ronald Cartland and Lord Robert Cranborne among them The political and personal dramas that played out in Parliament and in the nation as Britain faced the threat of fascism virtually on its own are extraordinary and in Olson s hands downright inspiring **The Duchess Of Windsor** Greg King,2011-05-01 A sympathetic and believable portrait of the American woman for whom King Edward VIII gave up the throne with photos included Christian Science Monitor A woman s life can really be a succession of lives each revolving around some emotionally compelling situation or challenge and each marked off by some intense experience It was the love story of the century the king and the commoner In December 1936 King Edward VIII abdicated the throne to marry the woman I love Wallis Warfield Simpson a twice divorced American who quickly became one of the twentieth century s most famous personalities a figure of intrigue and mystery both admired and reviled Wrongly blamed for the abdication crisis Wallis suffered hostility from the Royal Family and much of the world Yet interest in her story has remained constant resulting in a small library of biographies that convey a thinly veiled animosity toward their subject The truth however is infinitely more fascinating than the shallow pathetic portrait that has often been painted Using previously untapped sources acclaimed biographer Greg King presents a complete and for the first time sympathetic portrait of the Duchess that sifts the decades of rumor and accusation to reveal the woman behind the legend From her birth in Pennsylvania during the Gilded Age to her death in Paris in 1986 King takes the reader through a world of privilege palaces high society and love with the accompaniment of hatreds feuds conspiracies and lies The cast of characters is vast politicians and presidents dictators and socialites Twenty four pages of photographs reveal the life of the Duchess in all its incomparable glamour and romance A wide absurd cast of characters led by the British royal family Wallis lavish decorati **The European Single Market** H.M. Scobie,2012-12-06 THE EUROPEAN SINGLE
