Clough, 2018-12-27 This book presents an authoritative and comprehensive survey of human practice in relation to other animals together with a Christian ethical analysis building on the theological account of animals which David Clough developed in On Animals Volume I Systematic Theology 2012 It argues that a Christian understanding of other animals has radical implications for their treatment by humans with the human use and abuse of non human animals for food the most urgent immediate priority Following an introduction examining the task of theological ethics in relation to non human animals and the way it relates to other accounts of animal ethics this book surveys and assess the use humans make of other animals for food for clothing for labour as research subjects for sport and entertainment as pets or companions and human impacts on wild animals The result is both a state of the art account of what humans are doing to other animals and a persuasive argument that Christians in particular have strong faith based reasons to acknowledge the significance of the issues raised and change their practice in response *Climate Crisis and Creation Care* Christine Nellist, 2021-09-28 This

volume considers the interconnectedness of all creatures in relation to our planetary boundaries Through our constant consumption of resources we have had a distinctly negative impact on the world around us affecting everything from the weather food availability sea levels and the social fabric of our society This book explores how we arrived at such an unstable world and offers ecological theological and economically sustainable solutions to a global crisis **Material Eucharist**

David Grumett,2016-09-22 *Material Eucharist* interprets the Eucharist through its material elements of bread and wine Drawing upon a rich variety of biblical patristic medieval and modern texts and traditions David Grumett brings together theological reflection and liturgical action and shows their mutual dependence For both theologians and liturgists a central concern is the matter out of which the created order has been made from which issues of community and social justice are inseparable The ingredients of bread and wine anticipate in their harvesting and manufacture the formal church liturgy which is extended back into the world by the transformative priestly action of laypeople Indeed the transforming presence of Christ in the Eucharist as flesh and substance is theologically grounded in his transformative presence in the wider created order as expressed in eucharistic giving and exchange between churches and their wider communities Rooting the Eucharist in materiality suggests its primary context to be the death and resurrection of Christ in the power of the Spirit in which its recipients may share The many aspects of theology and liturgy with which the book deals have large implications for how the Eucharist is understood in a range of academic disciplines and for how it is celebrated in churches today *The Text in Play*

Mike Higton,Rachel Muers,2012-11-02 *In The Text in Play* Mike Higton and Rachel Muers conduct a series of experiments in the reading of Scripture They experiment in the first place with a form of Christian theological exegesis of the Bible that they call serious play a form of reading beyond the literal sense that is nevertheless serious about the ethical historical and textual responsibilities of the reader They experiment in the second place with the practice called Scriptural Reasoning in which Jews Christians and Muslims read and argue over their respective Scriptures together and argue that the practice makes deep sense for seriously playful Christian readers This constitutes the most detailed and developed account of Scriptural Reasoning yet published *The Vocation of Theology Today* Tom Greggs,Rachel Muers,Simeon Zahl,2013-02-08 What is the

task of theology in a complex religious and secular world What are theologians called to contribute to society the churches and the academy Can theology be both fully faithful to Christian tradition and Scripture and fully open to the challenges of the twenty first century In this book an international team of contributors including some of the best known names in the field respond to these questions in programmatic essays that set the direction for future debates about the vocation of theology David Ford in whose honor the collection is produced has been for many years a key figure in articulating and shaping the role of contemporary theology The contributors are his colleagues collaborators and former students and their essays engage in dialogue with his work The main unifying feature of this exciting collection is not Ford s work per se however but a shared engagement with the pressing question of theology s vocation today Ascetic Eucharists Andrew

McGowan,1999-05-20 The early Eucharist has usually been seen as sacramental eating of token bread and wine in careful or even slavish imitation of Jesus and his earliest disciples In fact the evidence suggests great diversity in its conduct including the use of foods in the first few hundred years Eucharistic meals involving cheese milk salt oil and vegetables are attested and some have argued that even fish was used The most significant exception to using bread and wine however was a bread and water Christian meal an ancient ascetic form of the Eucharist This tradition also involved rejection of meat from general diet and reflected the concern of dissident communities to avoid the cuisine meat and wine characteristic of pagan sacrifice This study describes and discusses these practices fully for the first time and provides important new insights into the liturgical and social history of early Christianity *Food and Faith in Christian Culture* Ken Albala,Trudy Eden,2011 This anthology follows the intersection of food and faith from the fourteenth to the twenty first century charting the complex relationship among religious eating habits and politics culture and social structure Food and Faith Norman Wirzba,2011-05-23 A comprehensive theological framework for assessing the significance of eating demonstrating that eating is of profound economic moral and theological significance **What Would Jesus Really Eat?** Paul Copan,Wes Jamison,Walter Kaiser,2019-06-14 A group of scholars have applied their expertise in biblical studies theology philosophy resource management communication and generational farming to write an accessible response for Christians who rightly believe that meat eating is a gift from God This book responds to leading challenges from animal activism outside the church

Dangerous Food Peter D. Gooch,Canadian Corporation for Studies in Religion,1993-11-16 Recognizing the social meaning of food and meals in Greco Roman culture and in particular the social meaning of idol food is an integral part of understanding the impact of Paul s instructions to the Christian community at Corinth regarding the consumption of idol food Shared meals were a central feature of social intercourse in Greco Roman culture Meals and food were markers of social status and participation at meals was the main means of establishing and maintaining social relations Participation in public rites and sharing the meals which ensued was a requirement of holding public office The social consequences of refusing to eat idol food would be extreme Christians might not attend weddings funerals celebrations in honour of birthdays or even formal banquets without encountering idol food In this extended reading of 1 Corinthians 8 1 11 1 Paul s response to the Corinthian Christians query concerning food offered to idols Gooch uses a social historical approach combining historical methods of source literary and redaction criticism and newer applications of anthropological and sociological methods to determine what idol food was and what it meant in that place at that time to eat or avoid it In opposition to a well entrenched scholarly consensus Gooch claims that although Paul had abandoned purity rules concerning food he would not abandon Judaism s cultural and religious understanding concerning idol food On the basis of his reconstruction of Paul s letter in which he urged the Corinthian Christians to avoid any food infected by non Christian rites Gooch argues that the Corinthians rejected Paul s instructions to avoid facing significant social liabilities **A Christian Diet** S. H. Shepherd,2019-04-15 In

the beginning God created the heavens and the earth He also gave to mankind a simple diet He then showed the human race the way to live and the path of salvation through Jesus Christ Jesus example and teachings lead to a simple natural life Christians have a diet one given to them by God It enables the body to cure itself of diseases and other health disorders It allows us to live a more active and productive life the kind of life that we were meant to live This book explains how diseases come about and how they are cured and prevented from taking root through the foods that God intended for us to eat It explains how to break the vicious cycle of careless eating which is so detrimental to health and causes so many of our diseases and other health issues It describes proper eating habits the food combination laws and how to abide by Nature s laws It provides the incentives and encouragement needed to change not only our diets but the very way that we live So strong are the effects of what we eat on our lives No other book goes as far in explaining why the God given diet is the best for us or the many dangers of our current way of eating and why they are contrary to the laws of Nature Our neglect of the foods that God intended for us to eat has brought about the woeful health conditions that are so prevalent in the world today The book explains What disease is and how to cure it How cooked foods destroy health How eating habits are formed How to gain longevity How to fast How to live a simpler life How to achieve the God given diet from whatever diet you may be on The God given diet provides the zest and energy needed for a healthy active life Eating these foods makes us feel better and more thankful about every day of our lives

Good Eating Stephen H. Webb,2001-10-01 Illustrates how the Bible and Christianity have understood eating practices such as vegetarianism and explores the role of diet as it relates to Christian discipleship

Food for Life Loyle Shannon Jung,2004-01-01 Food for Life draws on L Shannon Jung s gifts as theologian ethicist pastor and eater extraordinaire In this deeply thoughtful but very lively book he encourages us to see our humdrum habits of eating and drinking as a spiritual practice that can renew and transform us and our world In a fascinating sequence that takes us from the personal to the global Jung establishes the religious meaning of eating and shows how it dictates a healthy order of eating He exposes Christians complicity in the face of widespread eating disorders we experience personally culturally and globally and he argues that these disorders can be reversed through faith Christian practices attention to habitual activities like cooking and gardening the church s ministry and transforming our cultural policies about food
