Transmission Passion Practicing Psychoanalysis Borders:

The Transmission of Passion Moshe Halevi Spero, 2015-12-15 The authors in this collection reflect deeply and self consciously about practicing psychoanalysis within or alongside the borders of the Land of Israel Unique passions characterize the lives of those who live here on the individual and group level and this will be true for the psychoanalyst who has been born and raised here or who has immigrated to this land and has had to struggle with transformations in language values and identity In Israel one passionately believes or disbelieves or strives to be dispassionate with varying degrees of success The boundaries of the land can contain these dynamics but this depends on how the boundaries are defined internalized and symbolized The dimension of passion will grip the patient and analyst at some point during the evolution of the transference and countertransference matrix and may bind the two together or drive them apart Using rich clinical presentation and theoretical innovation the authors in this compendium discuss these conflicts and consider how terror war political ideology primitive personality structure the Holocaust and idiosyncratic religious beliefs arouse these hidden passions and challenge analytic neutrality Throughout the authors carefully reexamine the development of their own personal identity ideology and professional perspectives in order to ascertain whether or not or under what conditions passion can be creatively transmitted eros and tragedy

Loving Psychoanalysis Ruth Golan, 2018-06-12 Psychoanalysis was neither a product of philosophy nor of academic study Rather psychoanalysis was born in the clinic Freud took his lead from hysterical women the accounts of their pain anxieties and physical symptoms led him to formulate his theories on the existence of the unconscious
