Transnational Citizenship Across The Americas:

Transnational Citizenship Across the Americas Ulla Berg, Robyn Rodriguez, 2015-12-22 Mass migrations diasporas dual citizenship arrangements neoliberal economic reforms and global social justice movements have in recent decades produced shifting boundaries and meanings of citizenship within and beyond the Americas In migrant receiving countries this has raised questions about extending rights to newcomers In migrant sending countries it has prompted states to search for new ways to include their emigrant citizens into the nation state This book situates new practices of immigrant and emigrant citizenship and the policies that both facilitate and delimit them in a broader political economic context It shows how the ability of people to act as transnational citizens is mediated by inequalities along the axes of gender race nationality and class both in and between source and destination countries resulting in a plethora of possible relations between states and migrants The volume provides cross disciplinary and theoretically engaging discussions as well as empirically diverse case studies from countries in Latin America and the Caribbean that have been transformed into emigrant states in recent years offering new concepts and theory for the study of transnational citizenship This book was originally published as a special issue of *Identities Global Studies in Culture and Power*

Citizenship, Belonging, and Nation-States in the Twenty-First Century Nicole Stokes-DuPass, Ramona Fruja, 2017-07-15 Citizenship Belonging and Nation States in the Twenty First Century contributes to the scholarship on citizenship and integration by examining belonging in an array of national settings and by demonstrating how nation states continue to matter in citizenship analysis Citizenship policies are positioned as state mechanisms that actively shape the integration outcomes and experiences of belonging for all who reside within the nation state This edited volume contributes an alternative to the promotion of post national models of membership and emphasizes that the most fundamental facet of citizenship a status of recognition in relationship to a nation state need not be left in the relic galleries of an allegedly outdated political past This collection offers a timely contribution both theoretical and empirical to understanding citizenship nationalism and belonging in contexts that feature not only rapid change but also levels of entrenchment in ideological and historical legacies

Critical Dialogues in Latinx Studies Ana Y. Ramos-Zayas, Mérida M. Rúa, 2021-08-10 WINNER D Scott Palmer Prize for Best Edited Collection given by the New England Council of Latin American Studies Introduces new approaches theoretical trends and understudied topics in Latinx Studies This groundbreaking work offers a multidisciplinary social science oriented perspective on Latinx studies including the social histories and contemporary lives of a diverse range of Latina and Latino populations Editors Ana Y Ramos Zayas and Mérida M Rúa have crafted an anthology that is unique in both form and content The book combines previously published canonical pieces with original cutting edge works created for this volume The sections of the text are arranged thematically as critical dialogues each with a brief preface that provides context and a conceptual direction for the scholarly conversation that ensues The editors frame the volume around the humanistic social sciences using the term to highlight the historical and

social contexts under which expressive cultural forms and archival records are created Critical Dialogues in Latinx Studies masterfully sheds light on the diversity and complexity of the everyday lives of Latinx populations the political economic structures that shape enduring racialization and cultural stereotyping and the continuing efforts to carve out new lives as diasporic transnational global and colonial subjects Carceral Citizens Caroline M. Parker, 2025-02-10 A nuanced take on how carceral expansions are changing labor and social life In *Carceral Citizens* anthropologist Caroline M Parker offers an ethnographic portrait of therapeutic communities in Puerto Rico the oldest colony in the Americas As nonprofits nested within the carceral state therapeutic communities serve as reeducation and recovery centers for the mostly male drug offenders who serve out their sentences engaged in manual labor and prayer The most surprising aspect of these centers however is that their graduates often remain long after the completion of their term working as self appointed peer counselors in a mixture of volunteer and low wage positions Parker seeks to explain this dynamic by showing how in these therapeutic communities criminalized men find new and meaningful ways of living in the shadow of the prison Through their participation in the day to day functioning of the centers they discover and cultivate alternative forms of belonging livelihood and citizenship despite living within the restrictions of the carceral state Situating her study against the backdrop of Puerto Rico's colonial history and with findings that extend across Latin America Parker challenges common assumptions about confinement labor and rehabilitation By delving into lives shaped by the convergence of imperialism the carceral state and self help she offers a fresh understanding of the transformations of labor and social life brought about by mass incarceration

Alien Nation Elliott Young, 2014 Young traces the pivotal century of Chinese migration to the Americas beginning with the 1840s at the start of the coolie trade and ending during World War II This book is the first transnational history of Chinese migration to the Americas By focusing on the fluidity and complexity of border crossings throughout the Western Hemisphere Young shows us how Chinese migrants constructed alternative communities and identities through these transnational pathways Provided by publisher Race and Transnationalism in the Americas Benjamin Bryce, David M. K. Sheinin, 2021-05-04 National borders and transnational forces have been central in defining the meaning of race in the Americas *Race and Transnationalism in the Americas* examines the ways that race and its categorization have functioned as organizing frameworks for cultural political and social inclusion and exclusion in the Americas Because racial categories are invariably generated through reference to the other the national community has been a point of departure for understanding race as a concept Yet this book argues that transnational forces have fundamentally shaped visions of racial difference and ideas of race and national belonging throughout the Americas from the late nineteenth century to the present Examining immigration exclusion indigenous efforts toward decolonization government efforts to colonize sport drugs music populism and film the authors examine the power and limits of the transnational flow of ideas people and capital Spanning North America Central America South America and the Caribbean the volume seeks to engage in broad debates about race

citizenship and national belonging in the Americas Patient Citizens, Immigrant Mothers Alyshia Galvez, 2011-09-08 According to the Latina health paradox Mexican immigrant women have less complicated pregnancies and more favorable birth outcomes than many other groups in spite of socioeconomic disadvantage Alyshia Galvez provides an ethnographic examination of this paradox What are the ways that Mexican immigrant women care for themselves during their pregnancies How do they decide to leave behind some of the practices they bring with them on their pathways of migration in favor of biomedical approaches to pregnancy and childbirth This book takes us from inside the halls of a busy metropolitan hospital's public prenatal clinic to the Oaxaca and Puebla states in Mexico to look at the ways Mexican women manage their pregnancies The mystery of the paradox lies perhaps not in the recipes Mexican born women have for good perinatal health but in the prenatal encounter in the United States Patient Citizens Immigrant Mothers is a migration story and a look at the ways that immigrants are received by our medical institutions and by our society The Routledge Handbook of Anthropology and the City Setha Low, 2018-10-03 The Routledge Handbook of Anthropology and the City provides a comprehensive study of current and future urban issues on a global and local scale Premised on an engaged approach to urban anthropology the volume adopts a thematic approach that covers a wide range of modern urban issues with a particular focus on those of high public interest Topics covered include security displacement social justice privatisation sustainability and preservation Offering valuable insight into how anthropologists investigate make sense of and then address a variety of urban issues each chapter covers key theoretical and methodological concerns alongside rich ethnographic case study material The volume is an essential reference for students and researchers in urban anthropology as well as of interest for those in related disciplines such as urban studies sociology and geography **The Immigration and Nationality Act of 1965** c Gabriel J. Chin, Rose Cuison Villazor, 2015-11-19 Along with the civil rights and voting rights acts the Immigration and Nationality Act of 1965 is one of the most important bills of the civil rights era The Act's political legal and demographic impact continues to be felt yet its legacy is controversial The 1965 Act was groundbreaking in eliminating the white America immigration policy in place since 1790 ending Asian exclusion and limiting discrimination against Eastern European Catholics and Jews At the same time the Act discriminated against gay men and lesbians tied refugee status to Cold War political interests and shattered traditional patterns of Mexican migration setting the stage for current immigration politics Drawing from studies in law political science anthropology and economics this book will be an essential tool for any scholar or student interested in immigration law *Vicente Ximenes, LBJ's Great Society, and Mexican American Civil Rights Rhetoric* Michelle Hall Kells, 2018 Beginning as a grassroots organizer in the 1950s Vicente Ximenes was at the forefront of the movement for Mexican American civil rights through three presidential administrations joining Lyndon B Johnson's Great Society and later emerging as one of the highest ranking appointees in Johnson's administration One of the most influential government representatives of Mexican American issues in recent history Ximenes succeeded largely because he could adapt

his rhetoric for different audiences in his speeches and writings In *Vicente Ximenes LBJ's Great Society and Mexican American Civil Rights Rhetoric* Michelle Hall Kells elucidates Ximenes's achievement through a rhetorical history of his career as an activist Kells draws on Ximenes's extensive archive of speeches reports articles and oral interviews to present the activist's rhetorical history and begins each chapter with an excerpt from the collection that showcases Ximenes's ability to negotiate multiple public spheres Exploring Ximenes's legacy against the backdrop of the Cold War era Kells's analyses illustrate how Ximenes effectively agitated for open inclusive and pluralist democracy at regional and national levels After a discussion of Ximenes's early life the author focuses on his career as an activist examining Ximenes's leadership in several key civil rights events including the historic 1967 White House cabinet committee hearings on Mexican American Affairs and highlighting his role in advancing Mexican Americans and Latinos from social marginalization to greater representation in national politics Kells concludes by reflecting on the later years of Ximenes's life and his contributions to the post World War II civil rights movement *Vicente Ximenes LBJ's Great Society and Mexican American Civil Rights Rhetoric* shows us a remarkable man who dedicated the majority of his life to public service using rhetoric to mobilize activists for change at the grassroots level as well as at the highest levels of government to secure civil rights advances for his fellow Mexican Americans
