What If? Eldon Taylor,2011-03-15 What if you awoke tomorrow with amnesia no memory of who you are what you like and dislike and so on Would you be the same person What if as in the movie The Matrix you discovered that everything was a simulation and you were just a programmed component What if everything you believed was false Who would you be then Eldon Taylor has been researching the power of the mind for more than 25 years He has repeatedly demonstrated the overt attempts that have been made to control your thinking While very interesting in theory most of us do not understand this on a personal level It is easy to understand the concept of Mind Programming when it is occurring with someone else but most would deny that they too are victims What If is a very personal book By using everyday situations and guiding you through numerous thought experiments Eldon does an excellent job of peeling back the layers and revealing the dissonance in much of your thinking beliefs desires and choices contradictory beliefs held at the same time with no apparent awareness Once you have seen your own mind with the filtered lenses removed it is impossible to remain the same That is why so many have praised this work as being absolutely life changing not just a fascinating read but a transformational experience
