State Legitimacy and Failure in

International Law Mario Silva, 2014-02-06 Failing states share characteristics of inadequate structural competency including inter alia the inability to advance human welfare and security Economic inequalities and corruption are present as well as a loss of legitimacy and reduced social cohesion Failure of rule of law is manifested in areas of judicial adjudication security reduced territorial control and systemic political instability The international community often confronts these challenges in a manner that actually complicates issues further through lack of consensus among state actors Consequently a new and emerging concept of sovereignty requires review in terms of the postmodern state Through scholarly consideration State Legitimacy and Failure in International Law evaluates gaps in structural competency that precipitate state failure and examines the resulting consequences for the world community

The Handbook of European Defence Policies and Armed Forces Hugo Meijer, Marco Wyss, 2018-06-22 The armed forces of Europe have undergone a dramatic transformation since the collapse of the Soviet Union The Handbook of European Defence Policies and Armed Forces provides the first comprehensive analysis of national security and defence policies strategies doctrines capabilities and military operations as well as the alliances and partnerships of European armed forces in response to the security challenges Europe has faced since the end of the cold war A truly cross European comparison of the evolution of national defence policies and armed forces remains a notable blind spot in the existing literature The Handbook of European Defence Policies and Armed Forces aims to fill this gap with fifty one contributions on European defence and international security from around the world The six parts focus on country based assessments of the evolution of the national defence policies of Europe s major medium and lesser powers since the end of the cold war the alliances and security partnerships developed by European states to cooperate in the provision of national security the security challenges faced by European states and their armed forces ranging from interstate through intra state and transnational the national security strategies and doctrines developed in response to these challenges the military capabilities and the underlying defence and technological industrial base brought to bear to support national strategies and doctrines and finally the national or multilateral military operations by European armed forces The contributions to The Handbook collectively demonstrate the fruitfulness of giving analytical precedence

Troubled Regions and Failing States

Kristian Berg Harpviken, 2010-07-07 Is the phenomenon of state failure better understood through a focus on the regional context To what extent may studies of regional security benefit from a focus on the capacities and vulnerabilities of the states involved This title addresses these questions

Sovereignty, State Failure and Human Rights Neil Englehart, 2017-05-08 This book argues that the effectiveness of the state apparatus is one of the crucial variables determining human rights conditions and that state weakness and failure is responsible for much of the human rights abuses we see today Weak states are unable to control their own agents or to police abuses by private actors resulting in less

accountability and more abuse By contrast stronger states have greater capacities to protect human rights even strong authoritarian states tend to have better human rights conditions than weak ones The first two chapters of the book develop the theoretical connections between international law sovereignty states and rights and the consequences of state failure for these relationships The empirical chapters Chapters 3 6 test the validity of these theoretical claims employing a multi method approach that combines quantitative and qualitative methods Englehart uses case studies of Afghanistan Burma Myanmar and the Indian state of Bihar to analyze types and patterns of state failure based on analysis of NGO reports archival research primary and secondary texts and interviews and field research Examining what happens to human rights when states fail the book concludes with implications for scholars and activists concerned with human rights This book will be of great use to scholars of international relations comparative politics human rights law and state sovereignty Failed States and Institutional Decay Natasha M. Ezrow, Erica Frantz, 2013-07-18 What do we mean by failed states and why is this concept important to study The failed states literature is important because it aims to understand how state institutions or lack thereof impact conflict crime coups terrorism and economic performance In spite of this objective the failed state literature has not focused enough on how institutions operate in the developing world This book unpacks the state by examining the administrative security judicial and political institutions separately By doing so the book offers a more comprehensive and clear picture of how the state functions or does not function in the developing world merging the failed state and institutionalist literatures Rather than merely describing states in crisis this book explains how and why different types of institutions deteriorate Moreover the book illustrates the impact that institutional decay has on political instability and poverty using examples not only from Africa but from all around the world **Nation Failure, Ethnic Elites, and Balance of Power** Shinasi A. Rama, 2019-01-12 This book examines the history of nation building in Kosova as a model of how the theories behind nation building state building and peace building can succeed or fail The author argues that two missing factors led to successful state building but failed nation building in Kosova the balance of power and the ethnic elite The author uses his unique expert knowledge gained over thirty years of study to present a thorough overview of international administration and nation building in Kosova **The Fragility of the 'Failed State' Paradigm** Neyire Akpinarli, 2010 The absence of effective government one of the most important issues in current international law became prominent with the failed state concept at the beginning of the 1990s Public international law however lacked sufficient legal means to deal with the phenomenon Neither attempts at state reconstruction in countries such as Afghanistan and Somalia on the legal basis of Chapter VII of the UN Charter nor economic liberalisation have addressed fundamental social and economic problems This work investigates the weaknesses of the failed state paradigm as a long term solution for international peace and security arguing that the solution to the absence of effective government can be found only in an economic and social approach and a true universalisation of international law The Horn of Africa since the 1960s Aleksí Ylönen, Jan Záhorkík, 2017-02-17 The

Horn of Africa has long been one of the most dynamic and politically turbulent sub regions on the African continent Host to great ancient civilizations diverse peoples and expansive states the region has experienced massive social economic and political transformations which have given rise to military coups revolutions and intractable ethnic socio economic and religious conflicts This comprehensive volume brings together a team of expert scholars who analyze international regional national and local affairs in the Horn of Africa The chapters demonstrate the intertwined nature of the actors and forces shaping political realities The case studies focusing on Ethiopia Eritrea Somalia Somaliland Sudan and South Sudan eloquently illustrate the complex dynamics connecting the spectrum of political issues in the region The Horn of Africa since the 1960s will be of interest to students and scholars of contemporary Africa and political science New Agendas in Statebuilding Robert Egnell, Peter Haldén, 2013-04-02 This volume connects the study of statebuilding to broader aspects of social theory and the historical study of the state bringing forth new questions and starting points both academically and practically for the field Building states has become a highly prioritized issue in international politics Since the 1990s mainly Western countries and international institutions have invested large sums of money vast amounts of manpower and considerable political capital in ventures of this kind all across the globe Most of the focus in current literature is on the acute cases such as Afghanistan and Iraq but also to states that seem to fit the label failed states such as Liberia Sierra Leone and Somalia This book brings together a diverse group of scholars who introduce new theoretical approaches from the broader social sciences The chapters revisit historical cases of statebuilding and provide thought provoking new strategic perspectives on the field The result is a volume that broadens and deepens our understanding of statebuilding by highlighting the importance of hybridity contingency and history in a broad range of case studies This book will be of much interest to students of statebuilding and intervention peacebuilding war and conflict studies security studies and IR in general Global Crises, Global Solutions Bjørn Lomborg, 2004-10-25 A unique publication exploring the opportunities for addressing ten of the most serious challenges facing the world today Climate Change Communicable Diseases Conflicts Education Financial Instability Corruption Migration Malnutrition and Hunger Trade Barriers Access to Water In a world fraught with problems and challenges we need to gauge how to achieve the greatest good with our money Global Crises Global Solutions provides a rich set of arguments and data for prioritising our response most effectively Each problem is introduced by a world renowned expert defining the scale of the problem and describing the costs and benefits of a range of policy options to improve the situation Each challenge is evaluated by economists from North America Europe and China who attempt a ranking of the most promising options Whether you agree or disagree with the analysis or conclusions Global Crises Global Solutions provides a serious yet accessible springboard for debate and discussion Global Perspectives on Bullying: Critical Contexts and Spaces Donna-Louise McGrath, 2020-04-28 This volume explores the global problem of bullying from an interdisciplinary perspective **Unveiling Dynamics, Legitimacy, and Governance in Contemporary**

States Ryszard Ficek, 2024-04-25 This book delves into the complex dynamics of legitimizing power in fragile states With five comprehensive chapters it analyzes the geopolitical domestic and international dimensions of fragile states The unique contribution lies in unraveling specific forms of legitimization linked to various types of state fragility providing a nuanced understanding The book distinguishes between temporary crises and chronic fragility crucial for shaping effective international support strategies It addresses the challenges and consequences of weak legitimacy on global security highlighting its impact on aid interventions and systemic stability The author's analysis emphasizes the diverse nature of political regimes in fragile states incorporating considerations of hybrid regimes Additionally it explores the dynamics of authoritarian enclaves at the sub state level revealing their potential national influence By scrutinizing the decline of trust in democratic systems the book addresses contemporary challenges making it a vital resource for understanding and navigating the complexities of fragile states political landscapes

The Idea of Haiti Millery Polyné, 2013-05-17 After Haiti was struck by a devastating earthquake on January 12 2010 aid workers and offers of support poured in from around the world Tellingly though news reports on the catastrophe and relief efforts frequently included a pejorative description of the country that outsiders were determined to rebuild the troubled island nation a nation plagued by political violence There was much talk of inventing a new Haiti which would presumably mimic Western modes of development and thus mitigate political instability and crisis As contributors to this wide ranging book reveal Haiti has long been marginalized as an embodiment of alterity as the other and the idea of a new Haiti is actually nothing new An investigation of the notion of newness through the lenses of history and literature urban planning religion and governance The Idea of Haiti illuminates the politics and the narratives of Haiti's past and present The essays which grow from original research and in depth interviews examine how race class and national development inform the policies that envision re creating the country Together the contributors address important questions How will the present narratives of deviance affect international relief and rebuilding efforts What do Haitians themselves think about Haiti old and new What are the potential complications and weakness of aid strategies during these trying times And what do we mean by crisis in Haiti Contributors Yveline Alexis Rutgers U Wein Weibert Arthus State U of Haiti Greg Beckett Bowdoin College Alex Dupuy Wesleyan U Harley F Etienne U of Michigan Robert Fatton Jr U of Virginia Sibylle Fischer New York U Elizabeth McAlister Wesleyan U Nick Nesbitt Princeton U Karen Richman U of Notre Dame Mark Schuller York College CUNY Patrick Sylvain Brown U velyne Trouillot State U of Haiti Tatiana Wah Columbia U

Failed States and the Origins of Violence Tiffiany Howard, 2016-04-15 What makes a terrorist Is an individual inherently predisposed to be attracted to political violence or does exposure to a certain environment desensitize them in such a way that violence represents a viable mode for addressing political grievances Identifying state failure as the impetus for political violence this book addresses these questions and focuses on why existing extremist groups find failed states so attractive Utilizing global barometer data Tiffiany Howard examines the underpinnings of individual support for political violence and

argues that an insidious pattern of deprivation within failed states drives ordinary citizens to engage in and support extreme acts of political violence A rigorous examination of four regions plagued by a combination of failed states and political violence Sub Saharan Africa The Middle East and North Africa Southeast and South Asia and Latin America this text draws parallels to arrive at a single conclusion that failed states are a natural breeding ground for terrorism and political violence

State Failure in Sub-Saharan Africa Catherine Scott,2017-06-30 How should failed states in Africa be understood Catherine Scott here critically engages with the concept of state failure and provides an historical reinterpretation She shows that although the concept emerged in the context of the post Cold War new world order the phenomenon has been attendant throughout and even before the development of the Westphalian state system Contemporary failed states however differ from their historical counterparts in one fundamental respect they fail within their existing borders and continue to be recognised as something that they are not This peculiarity derives from international norms instituted in the era of decolonisation which resulted in the inviolability of state borders and the supposed universality of statehood Scott argues that contemporary failed states are in fact failed post colonies Thus understood state failure is less the failure of existing states and more the failed rooting and institutionalisation of imported and reified models of Western statehood Drawing on insights from the histories of Uganda and Burundi from pre colonial polity formation to the present day she explores why and how there have been failures to create effective and legitimate national states within the bounds of inherited colonial jurisdictions on much of the African continent

Conflict and Poverty in Africa Ebenezer Durojaye,Gladys Mirugi-Mukundi,John-Mark Iyi,Usang Maria Assim,2025-02-17 The contributors to this book examine the conceptual issues relating to the link between conflict and poverty as well as presenting case studies of countries often regarded as hot spots for conflict in Africa They also explore the roles of regional and sub regional bodies and institutions in addressing the causes of poverty and mitigating the impacts of conflict on vulnerable and marginalized groups Africa is often regarded as the epicentre of conflicts worldwide Virtually every part of the continent is currently engulfed in one form of conflict or another Beyond the loss of life conflicts have brought untold hardship to millions and have derailed social and economic development on the continent Written by African academics this book is divided into three sections the first of which discusses the factors that fuel conflicts and the nature and impacts of conflicts on vulnerable groups The second section comprises case studies of South Sudan Central African Republic Nigeria Ethiopia South Africa Uganda and Cameroon These countries are representative of the sub regional dynamics of Africa west east central and south reflecting the diversity of the continent The final section examines the role of key institutions and bodies in Africa in mitigating the impact of conflict on the socioeconomic lives of the people in the region Bodies discussed include the African Union Economic Community of West African States Southern African Development Community and the East African Community The book will be an invaluable resource for researchers academics and policymakers working in the areas of law political science human rights peace studies development studies and African
