God Loves Diversity and Justice Susanne Scholz, 2013-05-16 Both personal and scholarly in tone this book encourages readers to think theologically ethically and politically about the statement that declares God loves diversity and justice The multi religious multi ethnic multi disciplinary and multi gendered identities of the eleven contributors and two respondents deepen the conversation It considers questions such as Do we affirm or challenge this theological statement Do we concentrate on God in our response or do we interrogate what diversity and justice mean in light of God's love for diversity and justice Alternatively do we prefer to ponder the verb to love and consider what it might mean for society if people really believed in a divinity loving diversity and justice Of course there are no easy and simple answers whether we consult the Sikh scriptures the Bible the Qur'an the movies the Declaration of Human Rights or the transgender movement but the effort is worthwhile The result is a serious historical literary cultural and religious discourse that fends against intellectually rigid thought and simplistic belief systems across the religious spectrum In our world in which so much military unrest and violence economic inequities and religious strife prevail such a conversation nurtures theological ethical and political possibilities of inclusion and justice

Spectatorship Roxanne Samer, William Whittington, 2017-10-25 Media platforms continually evolve but the issues surrounding media representations of gender and sexuality have persisted across decades Spectator The University of Southern California Journal of Film and Television Criticism has published groundbreaking articles on gender and sexuality including some that have become canonical in film studies since the journal's founding in 1982 This anthology collects seventeen key articles that will enable readers to revisit foundational concerns about gender in media and discover models of analysis that can be applied to the changing media world today Spectatorship

begins with articles that consider issues of spectatorship in film and television content and audience reception noting how media studies has expanded as a field and demonstrating how theories of gender and sexuality have adapted to new media platforms Subsequent articles show how new theories emerged from that initial scholarship helping to develop the fields of fandom transmedia and queer theory The most recent work in this volume is particularly timely as the distinctions between media producers and media spectators grow more fluid and as the transformation of media structures and platforms prompts new understandings of gender sexuality and identification Connecting contemporary approaches to media with critical conversations of the past Spectatorship thus offers important points of historical and critical departure for discussion in both the classroom and the field
