While Europe Slept How Radical Islam Is Destroying The West From Within:

While Europe Slept Bruce Bawer, 2006 Before 9 11 Europe in denial 9 11 and after blaming Americans and Jews Europe s Weimar moment the liberal resistance and its prospects **Climate Change and Migration** Gregory White, 2011-08-20 Focusing on climate induced migration from Africa to Europe Climate Change and Migration shows how global warming s impact on international relations has been significant enhancing the security regimes in not only the advanced economies of the North Atlantic but in the states that serve as transit points between the most advanced and most desperate nations With an in depth coverage of both environmental and border policy from a global perspective the book provides a provocative and much needed link between two of the most pressing issues in contemporary international politics Blind Spot Dorothy Garrity Ranaghan, Dorothy Ranaghan, 2011 Dorothy Ranaghan is the author of several books and writes for various Christian magazines She co authored Catholic Pentecostals the first book detailing the history of this renewal movement and articulating its theological implications Dorothy holds an MA in Theology from the University of Notre Dame and was a founding member of the People of Praise a charismatic ecumenical Christian covenant community **The Cultural Defense of Nations** Liav Orgad, 2015-11-05 The Cultural Defense of Nations presents a timely thought provoking thesis on some of the most pressing issues of our time global immigration majority groups and national identity Never in human history has so much attention been paid to human movement Global migration yields demographic shifts of historical significance profoundly shaking up world politics as has been seen in the refugee crisis the Brexit referendum and the 2016 U S election The Cultural Defense of Nations addresses one of the greatest challenges facing liberalism today is a liberal state justified in restricting immigration and access to citizenship in order to protect its majority culture Liberal theorists and human rights advocates recognize the rights of minorities to maintain their unique cultural identity but assume that majorities have neither a need for similar rights nor a moral ground for defending them The majority culture so the argument goes can take care of itself However with more than 250 million immigrants worldwide majority groups increasingly seek to protect what they consider to be their national identity In recent years liberal democracies have introduced proactive immigration and citizenship policies that are designed to defend the majority culture This book shifts the focus from the prevailing discussion of cultural minority rights and for the first time addresses the cultural rights of majorities It proposes a new approach by which liberal democracies can welcome immigrants without fundamentally changing their cultural heritage forsaking their liberal traditions or slipping into extreme nationalism Disregarding the topic of cultural majority rights is not only theoretically wrong but also politically unwise With forms of majority nationalism rising and the growing popularity of extreme right wing parties in the West time has come to liberally address the new challenge **Putting Faith in Hate** Richard Moon, 2018-02-15 To allow or restrict hate speech is a hotly debated issue in many societies While the right to freedom of speech is fundamental to liberal democracies most countries have accepted that hate speech causes significant

harm and ought to be regulated Richard Moon examines the application of hate speech laws when religion is either the source or target of such speech Moon describes the various legal restrictions on hate speech religious insult and blasphemy in Canada Europe and elsewhere and uses cases from different jurisdictions to illustrate the particular challenges raised by religious hate speech The issues addressed are highly topical speech that attacks religious communities specifically anti Muslim rhetoric and hateful speech that is based on religious doctrine or scripture such as anti gay speech The book draws on a rich understanding of freedom of expression the harms of hate speech and the role of religion in public life **Training**

Disciplined Soldiers for Christ Tim W. Callaway, 2013 A retrospective look at Alberta's Prairie Bible Institute and the influence of American fundamentalism on the school's teachings *Evil, Barbarism and Empire* T. Crook, R. Gill, B.

Marching Toward Hell Michael Scheuer, 2009-02-10 One of the world's leading authorities on counterterrorism and the New York Times bestselling author of *Imperial Hubris* offers a scathing indictment of the U.S. Iraqi War policy and its long term consequences for American security **What Changed When Everything Changed** Joseph Margulies, 2013-05-21

DIV Beautifully written and carefully reasoned this bold and provocative work upends the conventional wisdom about the American reaction to crisis Margulies demonstrates that for key elements of the post 9/11 landscape especially support for counterterror policies like torture and hostility to Islam American identity is not only darker than it was before September 11 2001 but substantially more repressive than it was immediately after the attacks These repressive attitudes Margulies shows us have taken hold even as the terrorist threat has diminished significantly Contrary to what is widely imagined at the moment of greatest perceived threat when the fear of another attack hung over the country like a shroud favorable attitudes toward Muslims and Islam were at record highs and the suggestion that America should torture was denounced in the public

square Only much later did it become socially acceptable to favor enhanced interrogation and exhibit clear anti Muslim prejudice Margulies accounts for this unexpected turn and explains what it means to the nation s identity as it moves beyond 9 11 We express our values in the same language but that language can hide profound differences and radical changes in what we actually believe National identity he writes is not fixed it is made div Religion and the Public Order of the European Union Ronan McCrea,2010-10-07 Ronan McCrea offers the first comprehensive account of the role of religion within the public order of the European Union He examines the facilitation and protection of individual and institutional religious freedom in EU law and the means through which the Union facilitates religious input and influence over law Identifying the limitations on religious influence over law and politics that have been required by the Union it demonstrates how such limitations have been identified as fundamental elements of the public order and prerequisites EU membership The Union seeks to balance its predominantly Christian religious heritage with an equally strong secular and humanist by facilitating religion as a form of cultural identity while simultaneously limiting its political influence Such balancing takes place in the context of the Union s limited legitimacy and its commitment to respect for Member State cultural autonomy Deference towards the cultural role of religion at Member State level enables culturally entrenched religions to exercise a greater degree of influence within the Union s public order than outsider faiths that lack a comparable cultural role Placing the Union s approach to religion in the context of broader historical and sociological trends around religion in Europe and of contemporary debates around secularism equal treatment and the role of Islam in Europe McCrea sheds light on the interaction between religion and EU law in the face of a shifting religious demographic Sufis, Salafis and Islamists Sadek Hamid,2016-03-23 British Muslim activism has evolved constantly in recent decades What have been its main groups and how do their leaders compete to attract followers Which social and religious ideas from abroad are most influential In this groundbreaking study Sadek Hamid traces the evolution of Sufi Salafi and Islamist activist groups in Britain including The Young Muslims UK Hizb ut Tahrir the Salafi JIMAS organisation and Traditional Islam Network With reference to second generation British Muslims especially he explains how these groups gain and lose support embrace and reject foreign ideologies and succeed and fail to provide youth with compelling models of British Muslim identity Analyzing historical and firsthand community research Hamid gives a compelling account of the complexity that underlies reductionist media narratives of Islamic activism in Britain **Colonial and Post-colonial Governance of Islam** Marcel Maussen,Veit-Michael Bader,Annelies Moors,2011 Colonial and post colonial governance of Islam is een heldere weergave van de kansen en belemmeringen voor de islam vanuit een bestuurlijke benadering met speciale aandacht voor de voortdurende strijd rond de codificatie van islamitisch onderwijs religieuze autoriteit wetgeving en praktijk De auteurs onderzoeken de overeenkomsten en verschillen van de islam in het Britse Franse en Portugese koloniale bestuur Zij maken gebruik van hun expertise om de aard van de regelgeving in verschillende historische periodes en geografische gebieden te

Islamophobia Stephen Sheehi, 2010-12-03 Islamophobia The Ideological Campaign Against Muslims examines the rise of anti Muslim and anti Arab sentiments in the West following the end of the Cold War through GW Bush s War on Terror to the Age of Obama Using Operation Desert Storm as a watershed moment Stephen Sheehi examines the increased mainstreaming of Muslim bating rhetoric and explicitly racist legislation police surveillance witch trials and discriminatory policies towards Muslims in North America and abroad The book focuses on the various genres and modalities of Islamophobia from the works of rogue academics to the commentary by mainstream journalists to campaigns by political hacks and special interest groups Some featured Islamophobes are Bernard Lewis Fareed Zakaria Thomas Friedman David Horowitz Ayaan Hirsi Ali Irshad Manji George W Bush Dick Cheney John McCain Hilary Clinton and Barack Obama Their theories and opinions operate on an assumption that Muslims particularly Arab Muslims suffer from particular cultural lacuna that prevent their cultures from progress democracy and human rights While the assertion originated in the colonial era Sheehi demonstrates that it was refurbished as a viable explanation for Muslim resistance to economic and cultural globalization during the Clinton era Moreover the theory was honed into the empirical basis for an interventionist foreign policy and propaganda campaign during the Bush regime and continues to underlie Barack Obama s new internationalism If the assertions of media pundits and rogue academics became the basis for White House foreign policy Sheehi also demonstrates how they were translated into a sustained domestic policy of racial profiling and Muslim baiting by agencies from Homeland Security to the Department of Justice Furthermore Sheehi examines the collusion between non governmental activist groups and lobbies and local state and federal agencies to in suppressing political speech on US campuses critical of racial profiling US foreign policy in the Middle East and Israel While much of the direct violence against Muslims on American streets shops and campuses has subsided Islamophobia runs throughout the Obama administration Sheehi therefore concludes that Muslim and Arab hating emanate from all corners of the American political and cultural spectrum serving poignant ideological functions

Cultural Backlash Pippa Norris, Ronald Inglehart, 2019-02-14 Authoritarian populist parties have advanced in many countries and entered government in states as diverse as Austria Italy the Netherlands Poland and Switzerland Even small parties can still shift the policy agenda as demonstrated by UKIP s role in catalyzing Brexit Drawing on new evidence

this book advances a general theory why the silent revolution in values triggered a backlash fuelling support for authoritarian populist parties and leaders in the US and Europe The conclusion highlights the dangers of this development and what could be done to mitigate the risks to liberal democracy **The Making of Anti-Muslim Protest** Joel Busher, 2015-10-23

Activism in any social movement group is as Deborah Gould observes a project of collective world making It is about changing the world out there by influencing policy and public opinion but is also about the way it transforms the lives of participants activists generate new identities cultures social ties rich and varied emotional experiences and interpretations of the world around them Movements are more likely to be able to attract and sustain support when as projects of collective world making they feel compelling to activists and would be activists In this book Busher explores what has made activism in the English Defence League EDL an anti Muslim protest movement that has staged demonstrations across the UK since 2009 so compelling to those who have chosen to march under its banner Based on sixteen months of overt observation with grassroots activists he explores how people became involved with the group how they forged and intensified belief in the EDL cause how they negotiated accusations that they were just another racist far right group and how grassroots EDL activism began to unravel during the course of 2011 but did not do so altogether Providing a fresh insight as to how contemporary anti minority protest movements work on the inside this book will be of interest to students scholars and activists working in the areas of British politics extremism social movements community relations and current affairs more generally
