William Schiemann On Reinventing Talent Management:

Reinventing Talent Management William A. Schiemann, 2009-08-07 Praise for Reinventing Talent Management Bill Schiemann's book is a comprehensive presentation of the need to better understand, measure, and increase organizational people equity. It clearly transforms concepts that have historically been considered less tangible into actionable imperatives. Today more than ever, it's essential that leadership maximizes alignment, capabilities, and engagement within their organizations. Paul Schultz, President and COO, Jack in the Box Inc. Reinventing Talent Management has arrived just in time. Given the challenging times we face today, recruiting and retaining the very best people is now more important than ever. Bill has developed a unique, innovative framework on how to do this, as well as provided a broad array of practical approaches to putting the theory into action. Keith Lawrence, Director, Human Resources, Procter & Gamble Reinventing Talent Management is an outstanding blend of research and practice. It reports compelling research on the value of investing in talent and offers specific recommendations on how to develop people equity through alignment, capabilities, and engagement. The book confirms what good people managers do and offers specific guidelines for those wanting to upgrade their people management skills. Dave Ulrich, Professor, Ross School of Business, University of Michigan and Partner, The RBL Group Bill makes the case for reinventing talent management and tells us how to do it. The book is loaded with good examples and must take actions that lead to a winning talent management strategy. Edward E. Lawler III, founder and Director, Center for Effective Organizations, Marshall School of Business, University of Southern California and author of *Talent Making People Your Competitive Advantage* Talent management certainly needs to be reinvented; this book does it. Read, learn, redo. Dr. Richard Beatty, Professor of Human Resource Management, Rutgers University Reinventing Talent Management provides an accessible framework that offers pragmatic ways to better understand how investments in human capital and talent can be measured and linked to financial returns. Dr. John Boudreau, Professor and Research Director, Center for Effective Organizations, Marshall School of Business, University of Southern California *Investing in People* John W. Boudreau, Wayne F. Cascio, Alexis A. Fink, 2019-06-21 In an era of heightened scrutiny, organizations must make smarter, more evidence-based decisions about investing in people. *Investing in People* equips HR professionals and leaders with a proven framework for aligning human capital initiatives with strategic business outcomes. It also offers tools to connect HR initiatives to metrics that matter to senior leadership, including financial performance and customer satisfaction. Stuck in the Middle a Generation X View of Talent Management Curtis L. Odom, 2012-01-01 Part of making things happen in your career as a company or as an individual is taking a hard look at things and saying These are my flaws These are my shortcomings These are my self-defeating actions where I've shot my success in the foot Any person or company who says they've never done those things is hindering their success ruining their achievement and unwittingly keeping themselves stuck in the middle The unwillingness to do a hard current state assessment is a barrier between getting what you want and continuing to lack what you need Finding that progress gap is the secret ingredient in the magic formula for understanding what it is that you need not necessarily what you want and then taking the steps to get that result which leads to what you want Talent management is indeed a business imperative to build and grow a successful organization but more importantly it is also a personal imperative for professionals to build successful careers When people don't employ personal talent management in the way of owning their own succession plan when companies and organizations don't build and sustain an integrated talent management strategy they remain stuck in the middle somewhere between who they are and who they want to be How to get unstuck how to break free from the middle is what individuals and organizations often don't understand That critical understanding and ability to take action on it to improve your situation is what you'll find in this book as told through the eyes of a member of Generation X About the Author Dr Curtis L Odom is Principal and Managing Partner of Prescient Talent Strategists He has over 15 years of experience in talent development performance consulting training and instructional design as a practitioner researcher author and speaker Curtis has an earned doctorate of education from Pepperdine University and has been industry certified as both a Human
