Michael McKeon

The World We Have Lost 2nd Edition:

Historicizing the Enlightenment, Volume 2 Michael McKeon, 2023-07-14 Enlightenment critics from Dryden through Johnson and Wordsworth conceived the modern view that art and especially literature entails a double reflection a reflection of the world and a reflection on the process by which that reflection is accomplished Instead neoclassicism and Augustanism have been falsely construed as involving a one dimensional imitation of classical texts and an unselfconscious representation of the world In fact these Enlightenment movements adopted an oblique perspective that registers the distance between past tradition and its present reenactment between representation and presence Two modern movements Romanticism and modernism have appropriated as their own these innovations which derive from Enlightenment thought Both of these movements ground their error in a misreading of imitation as understood by Aristotle and his Enlightenment proponents Rightly understood neoclassical imitation constitutively aware of the difference between what it knows and how it knows it is an experimental inquiry that generates a range of prefixes counter mock anti neo that mark formal degrees of its epistemological detachment Romantic ideology has denied the role of the imagination in Enlightenment imitation imposing on the eighteenth century a dichotomous periodization duplication versus imagination the mirror versus the lamp Structuralist ideology has dichotomized narration and description form and content structure and history Poststructuralist ideology has propounded for the novel a contradictory novel tradition realism modernism postmodernism postcolonialism whose stages both constitute a sequence and collapse it each stage claiming the innovation of the stage that precedes it Published by Bucknell University Press Distributed worldwide by Rutgers University Press **The Family and Family**

Relationships, 1500-1900 Rosemary O'Day, 1994-10-26 While historians have written with ease about the state and the church the family has so far defied historical analysis As the primary cell of human social organisation upon which both state and church depend it is of crucial importance In this concise informative and stimulating book Rosemary O Day seeks to explain the difficulties facing the historian of the family and to suggest strategies for their solution She compares families and households in time space and economy over the period 1500 1914 and draws together the important existing work

Making a Living, Making a Difference Maria Ågren, 2016-11-01 What do people do all day What did women and men do to make a living in early modern Europe and what did their work mean As this book shows the meanings depended both on the worker and on the context With an innovative analytic method that is yoked to a specially built database of source materials this book revises many received opinions about the history of gender and work in Europe The applied verb oriented method finds the work verbs that appear incidentally in a wide variety of early modern sources and then analyzes the context in which they appear By tying information technologies and computer assisted analysis to the analytic powers both quantitative and qualitative of professional historians the method gets much closer to a participatory observation of the micro patterns of early modern life than was once believed possible This book directly addresses a number of broad problems often debated by

historians of gender and early modern Europe First it discusses the problem of assessing more accurately the incidence character and division of work Second it analyzes the configurations of work and human difference Third it deals with the extent to which work practices created notions of difference gender difference but also other forms of difference and conversely to what extent work practices contributed to notions of sameness and gender convergence Finally it studies the impact of processes of change Drawing on sources from Sweden the authors show the importance of multiple employment the openness of early modern households the significance of marriage and marital status the gendered nature of specific tasks and the ways in which state formation and commercialization were entangled in people s everyday lives

The Heroines of English Pastoral Romance Sue P. Starke, 2007 The figure of the woman as hero in pastoral romance is shown to grow in importance and complexity in this important new study The genre of pastoral romance flourished dramatically in Renaissance England between 1590 and 1650 One of its key elements is that it is the daughter not the son of the gentle family who increasingly becomes the subject of the romance s attempt to define and illustrate heroism The pastoral heroine s task is paradoxical to break out of her pastoral paradise in order to ensure its reconstitution She is the princess the shepherdess the Lady or the virtuous daughter who becomes a repository of honor and virtue in a changing society where traditional chivalric definitions of honor hold decreasing purchase This groundbreaking book examines the typical challenges faced by the pastoral romance heroine as she matures within the pastoral locus amoenus the founding dilemma the loop shaped quest the rhetorical battle the chastity threat the reconciliation of beauty to virtue and familial reunification It illustrates how the allegorical symbolic and psychological characterizations of pastoral heroines in the works of Sidney Spenser Wroth Fletcher Milton and Marvell anticipate developments in the representation of female subjectivities normally associated with the novel SUE P STARKE is Associate Professor of English at Monmouth University New Jersey

Love, Hate, and the Law in Tudor England L. R. Poos, 2022 Love Hate and the Law in Tudor England reconstructs the life of Ralph Rishton a member of the sixteenth century Lancashire gentry who was a child bridegroom and a serial wife discarder who bribed church officials to obtain a forged annulment defrauded a kinsman out of his inheritance and adroitly manipulated his own and other people s land The dozens of lawsuits in which the Rishtons were involved in many different courts elucidate one family s engagement with law in Tudor England how they used and misused law how it shaped their perceptions of rights and mutual obligations and how it framed litigants and witnesses language Drawing upon trial and estate records the core of this study is the central narrative of Ralph Rishton s three wives of litigiousness and violence marriage and property and the pursuit of equitable resolutions to disputes along with countless smaller narratives that vividly capture a culture in its time and place Alongside that central narrative L R Poos uses the Rishton stories as a starting point to analyse child marriage the construction of memory and the development of local historical identity through antiquarians and the Victorian and Edwardian local press demonstrating how from the time of the Rishtons into the twentieth century historical narratives were

continually reshaped and repurposed *Universal Difference* K. Nash,1997-10-29 The author argues that rather than seeing liberalism as exclusionary of women's specificity as many contemporary feminists do we should look at variations in liberalism and in particular at its democratisation in the nineteenth century and at how feminists have used liberalism as a resource Liberalism is analysed using a post structuralist theory of hegemony texts of liberal political philosophy are deconstructed to show how the term women is used as an undecidable in the Derridean sense to produce the opposition between feminine private and masculine public spheres these texts are then linked to liberal democratic social and political practices including feminism as a social movement **Medieval Family Roles** Cathy Jorgensen Itnyre,1999 First Published

in 1999 Routledge is an imprint of Taylor Francis an informa company The Authoritarian Family and Political Attitudes in 17Th-Century England Gordon J. Schochet, Available for the first time in paperback this classic study of the relationship between paternal and political authority identifies patriachalism as a leitmotif of western social and political thought since the time of Plato and Aristotle Gordon Schochet shows that patriarchal doctrines can be found in the writings of all major political theorists from Plato to Bodin and that almost every significant political thinker in the seventeenth century England acknowledged and addressed patriarchalism In the Stuart period patriarchalism was the primary alternative to social contract and populist justifications of political authority Moreover patriarchal power was a major presupposition of those very doctrines that were offered in opposition to it The author demonstrates that the ideological social structural and philosophic roots of the patriarchal tradition are deeply embedded in the political consciousness and practices of Western Europe In earlier political thought familial doctrines provided anthropological accounts of the origins of political order whereas in the Stuart period patriarchalism was primarily a justification of political obligation Analyzing these essential differences Professor Schochet offers a number of sociological and virtual disappearance of patriarchal conceptions of obligations during the seventeenth century Untangling the patriarchal theory he shows that it comported well with the implicit ideology and everyday life of the masses and was fully consistent with the level of historical awareness of the early modern period The final chapter traces the ultimate demise of patriarchalism in the eighteenth century and its transformation back into a theory of political origins In addition the author discusses a number of important questions about the nature of political theory how its historical documents may be analyzed and the resort to symbols in political discourse

The Carolina Backcountry Venture Kenneth E. Lewis,2017-04-15 A study of the transformative economic and social processes that changed a backcountry Southern outpost into a vital crossroads The Carolina Backcountry Venture is a historical geographical and archaeological investigation of the development of Camden South Carolina and the Wateree River Valley during the second half of the eighteenth century The result of extensive field and archival work by author Kenneth E Lewis this publication examines the economic and social processes responsible for change and documents the importance of those individuals who played significant roles in determining the success of colonization and the form it took Established to

serve the frontier settlements the store at Pine Tree Hill soon became an important crossroads in the economy of South Carolina's central backcountry and a focus of trade that linked colonists with one another and the region's native inhabitants. Renamed Camden in 1768 the town grew as the backcountry became enmeshed in the larger commercial economy. As pioneer merchants took advantage of improvements in agriculture and transportation and responded to larger global events such as the American Revolution Camden evolved with the introduction of short staple cotton which came to dominate its economy as slavery did its society. Camden's development as a small inland city made it an icon for progress and entrepreneurship. Camden was the focus of expansion in the Wateree Valley and its early residents were instrumental in creating the backcountry economy. In the absence of effective larger economic and political institutions Joseph Kershaw and his associates created a regional economy by forging networks that linked the immigrant population and incorporated the native Catawba people. Their efforts formed the structure of a colonial society and economy in the interior and facilitated the backcountry's incorporation into the commercial Atlantic world. This transition laid the groundwork for the antebellum plantation economy. Lewis references an array of primary and secondary sources as well as archaeological evidence from four decades of research in Camden and surrounding locations. The Carolina Backcountry Venture examines the broad processes involved in settling the area and explores the relationship between the region's historical development and the landscape it created.

Gender and Families Scott Coltrane, Michele Adams, 2008-05-21 When we talk about family values like whether children need two parents we are also talking about gender values because a yes answer to this question might imply that only women with husbands should have children. In the same way when we talk about gender issues such as whether men should be paid higher wages than women we are also talking about family issues because a yes answer suggests that husbands should be the family breadwinner. In this updated second edition of *Gender and Families* Coltrane and Adams continue to demystify the complexities and connections between gender and family in contemporary culture with discussions of race ethnicity and social class.
