Theology Without Borders Leo D. Lefebure, 2022 Theology without Borders the title of this volume evokes the seminal contributions of Peter Phan a remarkably productive and creative scholar who challenges us to make global humanity the starting point for theological reflection Over several decades Phan has persuaded us that the collapse of established bounded frameworks especially that of a European Christianity with a monopoly on truth is not to be feared but celebrated His prodigious output has contributed to and enriched literatures in ecclesiology Christology missiology patristics and other fields This volume brings together the contributions from a number of leading scholars and engages systematically with Phan s ideas across a range of vitally important topics from global Christianity and migration to religious pluralism the legacies of the Second Vatican Council and eschatological controversies Taken together the essays provide an overview of Phan s scholarly contributions and a road map for better understanding theology without borders in our contemporary world

Spirit Outside the Gate Oscar García-Johnson, 2019-07-23 Oscar García-Johnson explores a new grammar for the study of theology and mission in global Christianity especially in Latin America Moving to recover important elements in ancestral traditions of the Americas he discerns pneumatological continuity between the pre Columbian and post Columbian communities With an interdisciplinary narrative approach this work offers a constructive theology of mission for the church in global contexts

S. Barefoot, 2024-12-23 Many Western initiatives exist for theological development in the majority world but how often do practitioners from the West pause to examine the role they should play in that endeavor Missions history and church history have revealed inadequacies of imposing foreign theology on local churches yet the alternative of withdrawing from local theological development appears equally problematic If therefore the outsider's role is neither to impose theology nor withdraw from the task then what is his or her role Hermeneutical Community addresses this fundamental question and seeks to lay a sound missiological foundation for local theological development *Practical Theology and Majority World Epistemologies* Alfred Brunson, Calida Chu, 2024-11-08 This book offers insights into the thinking of majority world practical theologians and introduces the reader to faith realities previously unknown in a quest to create a more inclusive and welcoming practical theological network Practical theologians are situated in all corners of the globe attempting to make sense of their lived experiences and of those around them from a faith perspective Historically practical theology tended to be constructed from academics situated in the West and indirectly marginalized those in and from the majority world Against this backdrop this book is a deliberate attempt to empower practical theological voices from the further corners of the global village based upon the conviction that sharing epistemologies creates an opportunity not only to learn about others and the contexts in which they live but from them enhancing the meaning making of practical theology in the present Cognisant that epistemology as a formal discipline does not always centre lived experience practical theology has historically prioritised the importance of wisdom worldview and a way of life for individual and collective knowing The diverse issues addressed in this work offers insights into the thinking of mainly Asian and African practical theologians and introduces readers to the faith realities previously unknown to create a more inclusive and welcoming practical theological network This book was originally published as a special issue of the journal Practical Theology **Why Evangelical Theology Needs the Global Church**

Stephen T. Pardue, 2023-08-22 Christianity Today 2024 Award of Merit Missions Global Church Christian theologians and students are aware that evangelicals in the Majority World now outnumber those in North America and Europe and many want to know more about emerging voices in the global church At the same time these voices are largely absent from Western evangelical theology Stephen Pardue seeks to bridge this divide by arguing biblically and theologically that it is imperative for Western evangelical theology to engage with the global church and he provides examples of how this can be done Case studies throughout the book illustrate opportunities for fruitful engagement with non Western theology in various areas of Christian doctrine Readers will be given an introduction to the riches available within the worldwide body of Christ and learn how to engage productively with the global church **Majority World Theology** Gene L. Green, Stephen T. Pardue, K. K. Yeo, 2020-12-01 More Christians live in the Majority World than in Europe and North America Yet most theological literature does not reflect the rising tide of Christian reflection coming from these regions Bringing together theological resources from past and present East and West this work engages conversations with leading global scholars on theology faith and mission for the enrichment of the entire church **The Spirit over the Earth** Gene L. Green, Stephen T. Pardue, K. K. Yeo, 2016-12-31 Though the global center of Christianity has been shifting south and east over the past few decades very few theological resources have dealt with the seismic changes afoot The Majority World Theology series seeks to remedy that lack by gathering well regarded Christian thinkers from around the world to discuss the significance of Christian teaching in their respective contexts The contributors to this volume reflect deeply on the role of the Holy Spirit in both the church and the world in dialogue with their respective contexts and cultures Taking African Asian and Latin American cultural contexts into account gives rise to fresh questions and insights regarding the Spirit's work as witnessed in the world and demonstrates how the theological heritage of the West is not adequate alone to address the theological necessities of communities worldwide
