Theology Future Evangelical Assertions Explorations:

Theology and the Future Trevor Cairney, David Starling, 2014-07-31 Theology was once queen of the sciences the integrating centre of Christendom's conceptual universe In our own time the very idea of systematic theology is frequently called into question derided as an arcane and superstitious pseudo discipline Even within the church it is commonly disregarded in favour of unreflective piety and pragmatism At the same time the southward shift in world Christianity's centre of gravity prompts crucial questions about the future form and content of theology Within this context Theology and the Future offers a case for the continuing viability of theology exploring how it might adapt to changing circumstances and discussing its implications for how we are to imagine and help shape our shared human future Beginning with the question of God this book explores what might be meant by the future of God and what its implications are for Christian theology Chapters follow on the location of theology in global Christianity the church and the academy and on its sources and method The second half of the book explores a wide variety of dimensions of the human future that theology might address and illuminate The essays bring together a mix of specialist theologians and interdisciplinary thinkers to support the assertion that there can be no more critical endeavor to the future than understanding God and all things in relationship to him

The Fear of the Lord Michael Allen, 2022-01-13 This volume examines what it means to proceed in the path of wisdom by beginning with fear of God that is mindfulness always and everywhere of God's being and presence Michael Allen describes the praxis of fearing the Lord how that posture of contemplative pursuit marks the theological task and defines our theological method in so doing it takes up the significant topics of divine revelation theological exegesis intellectual asceticism and retrieval re-orientation from a distinctly doctrinal perspective In each of these conversations doing theology in the presence of God functions as a consistent thread God is not mere object but truly functions as subject in the process of theological growth though God's presence and agency found rather than negate creaturely theological responsibility The Fear of the Lord Essays on Theological Method explores some of the most central questions of contemporary theological method revelation Scripture theological interpretation retrieval intellectual asceticism scholastic method by asking in each and every case what it means to think fundamentally of the perfect and present God involved and active in these spheres The Oxford History of Protestant Dissenting Traditions, Volume V Mark P. Hutchinson, 2018-10-17 The five volume Oxford History of Protestant Dissenting Traditions series is governed by a motif of migration out of England It first traces organized church traditions that arose in Britain and Ireland as Dissenters distanced themselves from a state church defined by diocesan episcopacy the Book of Common Prayer the Thirty Nine Articles and Royal Supremacy but then follows those traditions as they spread beyond Britain and Ireland and also analyses newer traditions that emerged downstream in other parts of the world from earlier forms of Dissent Secondly it does the same for the doctrines church practices stances toward state and society attitudes toward Scripture and characteristic patterns of organization that also originated in earlier British and Irish

dissent but that have often defined a trajectory of influence independent of ecclesiastical organizations The Oxford History of Protestant Dissenting Traditions Volume V follows the spatial cultural and intellectual changes in dissenting identity and practice in the twentieth century as these once European traditions globalized While in Europe dissent was often against the religious state dissent in a globalizing world could redefine itself against colonialism or other secular and religious monopolies The contributors trace the encounters of dissenting Protestant traditions with modernity and globalization changing imperial politics challenges to biblical denominational and pastoral authority local cultures and languages and some of the century's major themes such as race and gender new technologies and organizational change In so doing they identify a vast array of local and globalizing illustrations which will enliven conversations about the role of religion and in particular Christianity

Theological Education Andrew M. Bain, Ian Hussey, 2018-01-08 This volume draws upon historical and theological sources and empirical research to provide a unique and diverse perspective on theological education in the twenty first century The volume develops and promulgates the best thinking about theological education by drawing upon the breadth of expertise represented by the faculty of colleges within the Australian College of Theology This volume not only produces crucial insights for the future of theological education around the world but gives the Australian theological sector a voice to make its own unique contribution to the global dialogue about theological education

Theologies of Retrieval Darren Sarisky, 2017-11-30 One of the most significant trends in academic theology today which emerges within Protestant Roman Catholic and Orthodox points of view is the growing interest in theologies of retrieval This mode of thinking puts a special stress upon subjecting classic theological texts to a close reading with a view toward using the resources that they provide to understand and address contemporary theological issues This volume offers an understanding of what theologies of retrieval are what their rationale is and what their strengths and weaknesses are The contributions provided by a distinguished team of theologians answer the important questions that existing work has raised expand on suggestions that have not yet been fully developed summarize ideas to highlight themes that are relevant to the topics of this volume and air new critiques that will spur further debate

Faith, Form, and Fashion Paul Helm, 2014-08-14 This is a detailed examination of the theological innovations of Kevin Vanhoozer and John Franke Each proposes that doctrinal and systematic theology should be recast in the light of postmodernity No longer can Christian theology be foundational or have a stable metaphysical and epistemological framework Vanhoozer advocates a theo dramatic reconstruction of Christian doctrine replacing the timeless propositions of the purely cerebral theology of the Reformed tradition in favor of a theology that does justice to the polyphony of multiple biblical genres Franke holds that theology is part of a three way conversation between Scripture tradition and culture with an uncertain outcome This study shows that each of these proposals is based on misunderstanding and exaggeration and that the case against foundationalism is unclear and unpersuasive It is argued that Vanhoozer's appeal to revelation as divine speech acts is not as radical as he thinks and

his epistemology is weak In the hands of postmodernity Christian theology abandons its exactness and the standards of care that are a notable feature of doctrinal constrictions The book will be of importance to those with interest in Reformed theology or Christian theology more generally It provides a clear assessment of the impact of the postmodern mindset on theology

Locating US Theological Education In a Global Context Hendrik R. Pieterse, 2019-06-21 CONTRIBUTORS E Byron Anderson K K Yeo Margaret Eletta Guider OSF Lester Edwin J Ruiz Brent Waters Namsoon Kang Luis R Rivera and David Esterline Theological education in the United States finds itself in untested circumstances today Rapid social change is creating an increasing multicultural multiracial and multireligious context for leadership formation At the same time international enrollment cross border educational initiatives student and faculty exchanges and more are connecting US theological schools with a global community of Christian teaching and learning How do US theological institutions locate themselves within this global ecology of theological formation so as to be both responsible participants and creative shapers within it That is how do they discern their proper place and role It is questions like these that the contributors to this volume explore Building on the decades long discussion about the globalization of US theological education this book argues that in engaging such questions US theological institutions have much to gain from a sustained conversation with the burgeoning literature on the internationalization of American higher education This research offers theological institutions a trove of insights and cautionary tales as they seek to discern their rightful place and role in educating leaders in and for a global Christian church CONTRIBUTORS E Byron Anderson K K Yeo Margaret Eletta Guider OSF Lester Edwin J Ruiz Brent Waters Namsoon Kang Luis R Rivera and David Esterline

Theologians on Scripture Angus Paddison, 2016-11-03 The movement that is known as theological interpretation of Scripture reminds us that the reading and exegesis of Scripture is an indispensable part of the theologian's work not to be reserved to biblical scholars alone This insight that the reading of Scripture is a theological responsibility is always at risk of being eclipsed by the modern disciplinary divisions between biblical studies historical theology and systematic theology Intended as a contribution to the theological re engagement with Scripture this book invites a range of high profile systematic and constructive theologians to reflect on the role that the reading and interpretation of Scripture plays in their theological work both professionally and more personally Spanning a cross section of theological perspectives contributors reflect on the role of tradition in their reading of Scripture the company they view as indispensable in their engagement with the text the place of historical critical study and biblical studies and the significance of their context The book will be valued by all those who care for the place of Scripture in theology and the life of the church as well as those who want an insight into the state of contemporary theology
