Theorizing Myth Narrative Ideology And Scholarship:

Theorizing Myth Bruce Lincoln, 1999 In *Theorizing Myth* Bruce Lincoln traces the way scholars and others have used the category of myth to fetishize or deride certain kinds of stories usually those told by others He begins by showing that mythos yielded to logos not as part of a mythic Greek miracle but as part of struggles over political linguistic and epistemological authority occasioned by expanded use of writing and the practice of Athenian democracy Lincoln then turns his attention to the period when myth was recuperated as a privileged type of narrative a process he locates in the political and cultural ferment of the eighteenth and nineteenth centuries Here he connects renewed enthusiasm for myth to the nexus of Romanticism nationalism and Aryan triumphalism particularly the quest for a language and set of stories on which nation states could be founded In the final section of this wide ranging book Lincoln advocates a fresh approach to the study of myth providing varied case studies to support his view of myth and scholarship on myth as ideology in narrative form Religious Studies, Theology, and the University Linell E. Cady, Delwin Brown, 2002-10-10 Explores the relationship between religious studies and theology and the place of each in the modern secular university Studies in the Historical Jesus Justin J. Meggitt, 2023-08-29 *Studies in the Historical Jesus* Anarchy Miracles and Madness is a selection of key essays on the historical figure of Jesus published over the last fifteen years by Justin J Meggitt Each addresses a central question in the study of Jesus and his context from the role of myth in the creation of traditions about him and the historicity of his miracles to the problem of his politics and the reasons for his execution The collection brings fresh perspectives and new data to bear on enduring debates and demonstrates the value of history from below in making sense of the historical Jesus and the world that made him The German Gita Bradley L. Herling, 2014-02-04 How did the Bhagavadgīt first become an object of German philosophical and philological inquiry How were its foundational concepts initially interpreted within German intellectual circles and what does this episode in the history of cross cultural encounter teach us about the status of comparative philosophy today This book addresses these questions through a careful study of the figures who read translated and interpreted the Bhagavadgīt around the turn of the nineteenth century in Germany J G Herder F Majer F Schlegel A W Schlegel W von Humboldt and G W F Hegel Methodologically the study attends to the intellectual contexts and prejudices that framed the early reception of the text But it also delves deeper by investigating the way these frameworks inflected the construction of the Bhagavadgīt and its foundational concepts through the scholarly acts of excerpting anthologization and translation Overall the project contributes to the pluralization of Western philosophy and its history while simultaneously arguing for a continued critical alertness in cross cultural comparison of philosophical and religious worldviews Christian Tourist Attractions, Mythmaking, and Identity Formation Erin Roberts, Jennifer Eyl, 2018-11-29 *Christian Tourist Attractions* Mythmaking and Identity Formation examines a sampling of contemporary Christian tourist attractions that position visitors as the inheritors of ancient sacred traditions and make claims about the truth of the historical narratives that they promote

Rather than approaching these attractions as sacred expressions of religious experience or as uncontested accounts of history the book applies recent work on mythmaking and identity formation to argue that these presentations of the past function as strategic discourses that serve material concerns in the present From an approach informed by social and materialist theories of religion the volume draws upon a variety of methodological approaches that enable readers to understand the often bewildering array of objects claims demands and activities not to mention the seemingly endless array of gifts and personal items available for purchase that appear at attractions including Ark Encounter the Creation Museum the Holy Land Experience Bible Walk Museum Christian Zionist tours of Israel and the recently opened Museum of the Bible Discourse analysis practice theory rhetorical criticism and embodied theories of cognition help make sense not only of the Christian tourist attractions under examination but also of the ways that religion is entangled with contemporary social political and economic interests more broadly

The Story of Myth Sarah Iles Johnston, 2018-12-03 Greek myths have long been admired as beautiful thrilling stories but dismissed as serious objects of belief For centuries scholars have held that Greek epics tragedies and the other compelling works handed down to us obscure the real myths that supposedly inspired them Instead of joining in this pursuit of hidden meanings Sarah Iles Johnston argues that the very nature of myths as stories as gripping tales starring vivid characters enabled them to do their most important work to create and sustain belief in the gods and heroes who formed the basis of Greek religion By drawing on work in narratology sociology and folklore studies and by comparing Greek myths not only to the myths of other cultures but also to fairy tales ghost stories fantasy works modern novels and television series The Story of

Myth reveals the subtle yet powerful ways in which these ancient Greek tales forged enduring bonds between their characters and their audiences created coherent story worlds and made it possible to believe in extraordinary gods Johnston captures what makes Greek myths distinctively Greek but simultaneously brings these myths into a broader conversation about how the stories told by all cultures affect our shared view of the cosmos and the creatures who inhabit it *Queer Readings of the Centurion at Capernaum* Christopher B. Zeichmann, 2022-10-28 The first ever monograph on the history of queer biblical interpretation of a controversial biblical passage Since the 1950s homoerotic readings of the pericope in which Jesus heals a Roman centurion's slave have been built upon three of the account's features the specific Greek word *pais* which can refer to youth slave or the junior partner in a sexual relationship between two men Luke's characterization of the young man as *dear entimos* to the centurion and commonplace homoeroticism in the Roman army Rather than affirming or denying the historical reality of a sexual relationship between the centurion and the young man Christopher B Zeichmann instead traces the shifting patterns of queer readings of the text and the influences of the sexual political and theological discourses of late twentieth and early twenty first century Europe the United States and Australia Readers will see how distinct political contexts have led interpreters to find very different meanings about the sexual subtexts of this story
