Therapy Infants Treating Traumatized Child

Inger Poulsen, Inger Thormann

Therapy Infants Treating Traumatized Child:

Therapy with Infants Inger Poulsen, 2018 When a child without a fully developed language experiences physical and psychological stress that exceeds the child's capacity to cope the experience can leave lasting marks unless the child receives treatment Infant therapy is a method inspired by the work of the French pediatrician and psychoanalyst Françoise Dolto and her student Caroline Eliacheff The method can be applied both with infants and with older children The most important messages are Never allow the child's pain to be forgotten and Everything that is left unsaid ties up energy In therapy the therapist puts the child's stressful experiences into words The infant's story is told the words bring order to the child's chaos and the trauma becomes an identified part of his or her life Infant therapy is primarily a therapeutic intervention aimed at traumatized infants but the method can also be applied in daily educational practices by preschool teachers nurses teachers day care providers and parents Provided by publisher

Therapeutic Approaches in Work with Traumatized Children and Young People Patrick Tomlinson, 2004-07-15 Therapeutic Approaches in Work with Traumatized Children and Young People provides a clear and comprehensive link between theory and practice The author shows how practice in residential child care fostering and other areas of work with children can be developed in a way that is thoughtful and underpinned by a sound theoretical base

Treating Traumatized Children Danny Brom, Ruth Pat-Horenczyk, Julian D. Ford, 2008-10-06 While recent years have seen a vast increase in the literature on adult trauma interest in childhood trauma has only recently started to gain momentum encouraging new research and evidence based interventions Here the editors have brought together an international list of contributors to look at both innovative and established treatments of trauma in a range of contexts and provide up to date coverage of what is on offer in prevention assessment treatment and research Divided into three parts main topics discussed are risk and protective factors for the development of post traumatic disorders conceptualizations of resilience and suggestions for making them operational evidence based treatment models for traumatized children Treating Traumatized Children provides professionals with an up to date international perspective on the subject as well as helping professionals and researchers develop future treatments based on current evidence

Treating Traumatized Children Brian Allen, Mindy Kronenberg, 2014-08-04 Featuring extensive case studies this volume provides a unique window into implementation of evidence based treatments in real world community settings Experienced therapists illustrate the use of three effective therapies for traumatized children and their caregivers trauma focused cognitive behavioral therapy TF CBT child parent psychotherapy CPP and parent child interaction therapy PCIT Covering the entire process of assessment and intervention the cases highlight ways to maintain treatment fidelity while addressing complex clinical challenges with diverse clients Experts in the respective therapy models offer instructive commentaries at the end of each case The book also provides a concise introduction to each model including its theoretical underpinnings empirical support and applications

Developing a Therapeutic Treatment Programme for Traumatized

Children and Young People Christine Bradley, Francina Kinchington, 2024-11-26 This manual sets out an accessible model for assessing the emotional needs of traumatised children and young adults and using the outcomes of the assessment to develop individualised therapeutic programmes to support their needs and emotional development Evolved from Christine Bradley's over 40 years of working with children and young people with complex histories the model and the case studies presented are firmly rooted in a psychotherapeutic approach and her early training of working with pioneers in the field It presents a needs led assessment and treatment tool that offers insight and an understanding of the complex histories and behaviours of individual children and young people based on the impact that trauma has on the inner world of the child The treatment programme is presented in a clearly written and highly accessible step by step approach that is supplemented by exemplar case studies and moving anecdotes This manual will be of use to any professional working with traumatised children and young people including therapists social workers foster carers and teachers It will allow individuals who otherwise would not feel they possess the confidence knowledge training or experience to conduct a high quality effective individualised needs led assessment and subsequent treatment programme

Therapy with Infants Inger Poulsen, Inger Thormann, 2018-05-08 When a child without a fully developed language experiences physical and psychological stress that exceeds the child's capacity to cope the experience can leave lasting marks unless the child receives treatment Infant therapy is a method inspired by the work of the French pediatrician and psychoanalyst Françoise Dolto and her student Caroline Eliacheff The method can be applied both with infants and with older children The most important messages are Never allow the child's pain to be forgotten and Everything that is left unsaid ties up energy In therapy the therapist puts the child's stressful experiences into words The infant's story is told the words bring order to the child's chaos and the trauma becomes an identified part of his or her life Infant therapy is primarily a therapeutic intervention aimed at traumatised infants but the method can also be applied in daily educational practices by preschool teachers nurses teachers day care providers and parents

Treating Trauma and Traumatic Grief in Children and Adolescents, **Therapy with Infants** Inger Poulsen, Inger Thormann, 2019-07-31 When a child without a fully developed language experiences physical and psychological stress that exceeds the child's capacity to cope the experience can leave lasting marks unless the child receives treatment Infant therapy is a method inspired by the work of the French pediatrician and psychoanalyst Françoise Dolto and her student Caroline Eli

Treating Chronically Traumatized Children Arianne Struik, 2019-05-29 When children refuse or seem unable to talk about their traumatic memories it might be tempting to let sleeping dogs lie However if left untreated the memories of childhood abuse and neglect can have a devastating effect on the development of children and young people How can these children be motivated and engage in trauma focused therapy Treating Chronically Traumatized Children The Sleeping Dogs Method describes a structured method to overcome resistance and enable children to wake these sleeping dogs safely so these children heal from their trauma The Sleeping Dogs method is a comprehensive approach to treating

chronically traumatized children first preparing the child to such an extent that he or she can engage in therapy to process traumatic memories then by the trauma processing and integration phase Collaboration with the child's network the child's biological family including the abuser parent and child protection services are key elements of the Sleeping Dogs method The underlying theory about the consequences of traumatization such as disturbed attachment and dissociation is described in a comprehensive easy to read manner illustrated with case studies and is accompanied by downloadable worksheets This new edition has been updated to include the clinical experience in working with this method and the most recent literature and research as well as entirely new chapters that apply the Sleeping Dogs method to the experiences of children in foster care and residential care and those with an intellectual disability Treating Chronically Traumatized Children will have a wide appeal including psychologists psychiatrists psychotherapists counsellors family therapists social workers child protection frontline foster care and youth workers inpatient and residential staff and foster or adoptive parents
