There Is No Alternative Why Margaret Thatcher Matters:

There Is No Alternative Claire Berlinski, 2011-11-08 Great Britain in the 1970s appeared to be in terminal decline ungovernable an economic train wreck and rapidly headed for global irrelevance Three decades later it is the richest and most influential country in Europe and Margaret Thatcher is the reason The preternaturally determined Thatcher rose from nothing seized control of Britain's Conservative party and took a sledgehammer to the nation's postwar socialist consensus She proved that socialism could be reversed inspiring a global free market revolution Simultaneously exploiting every politically useful aspect of her femininity and defying every conventional expectation of women in power Thatcher crushed her enemies with a calculated ruthlessness that stunned the British public and without doubt caused immense collateral damage Ultimately however Claire Berlinski agrees with Thatcher There was no alternative Berlinski explains what Thatcher did why it matters and how she got away with it in this vivid and immensely readable portrait of one of the towering figures of the twentieth century

Wu Ming's Transmedia Activism Paolo Saporito, 2024-05-30 This book explores the activism of the Italian collective Wu Ming Engaging in a dynamic conversation with critical theory post workerist philosophy and eco criticism Saporito illuminates how Wu Ming's forms of protest radically challenge neoliberal models of subjectivity through a revived commitment to an eco centric ethics The book charts how Wu Ming's interventions combining embodied literary and online activism aim to performatively create life rhythms practices and ultimately a political subjectivity alternative to fast paced anthropocentric models imposed by neoliberal apparatuses In depth analyses of Wu Ming's participation in the 27th Genoa G8 Summit literary texts and online presence define the trajectory of their interventions which moved from a traumatic repudiation of neoliberal apparatuses in Genoa to a thorough exploration of how these apparatuses produce and control subjectivity Wu Ming's literary texts invite the reader to grasp the complexity of the human non human relations these apparatuses exploit while affirmatively exploring eco centric ethical relations to the non human other Wu Ming open their bodies to these relations via hikes walks and performances where they try out slow paced life rhythms and experiment with the non human affordances of multiple media Wu Ming's transmedia activism links these offline initiatives with online strategies that promote the collective creation of critical content slow down online users fast paced experience and mobilise a network of human and non human agents that re energise embodied street actions

Reagan and Thatcher: The Difficult Relationship Richard Aldous, 2012-03-19 An iconic friendship an uneasy alliance a revisionist account of the couple who ended the Cold War For decades historians have perpetuated the myth of a Churchillian relationship between Ronald Reagan and Margaret Thatcher citing their longtime alliance as an example of the special bond between the United States and Britain But as Richard Aldous argues in this penetrating dual biography Reagan and Thatcher clashed repeatedly over the Falklands war Grenada and the SDI and nuclear weapons while carefully cultivating a harmonious image for the public and the press With the stakes enormously high these political titans struggled to work together to confront the

greatest threat of their time the USSR Brilliantly reconstructing some of their most dramatic encounters Aldous draws on recently declassified documents and extensive oral history to dismantle the popular conception of Reagan Thatcher diplomacy His startling conclusion that the weakest link in the Atlantic Alliance of the 1980s was the association between the two principal actors will mark an important contribution to our understanding of the twentieth century **There Is No Alternative** Claire Berlinski,2008-09-30 Great Britain in the 1970s appeared to be in terminal decline ungovernable an economic train wreck and rapidly headed for global irrelevance Three decades later it is the richest and most influential country in Europe and Margaret Thatcher is the reason The preternaturally determined Thatcher rose from nothing seized control of Britain's Conservative party and took a sledgehammer to the nation's postwar socialist consensus She proved that socialism could be reversed inspiring a global free market revolution Simultaneously exploiting every politically useful aspect of her femininity and defying every conventional expectation of women in power Thatcher crushed her enemies with a calculated ruthlessness that stunned the British public and without doubt caused immense collateral damage Ultimately however Claire Berlinski agrees with Thatcher There was no alternative Berlinski explains what Thatcher did why it matters and how she got away with it in this vivid and immensely readable portrait of one of the towering figures of the twentieth century **Engaging with Social Work** Christine Morley,Selma Macfarlane,Phillip Ablett,2014-08-29 This is a stimulating rigorous and student friendly resource for beginning as well as more experienced social workers **Challenges for Public Education** Jane Wilkinson,Richard Niesche,Scott Eacott,2018-10-29 An accelerating pattern in Australia and internationally is the dismantling of public education systems as part of a long standing trend towards the modernisation marketisation and privatisation of educational provision Responsibility for direct delivery of education services has been shifted to contracting and monitoring under the clarion call of school and leadership autonomy and parental choice Part of this pattern is an increasing blurring of boundaries between the state and private sector a move from government to new forms of strategic governance and from hierarchy to heterarchy Challenges for Public Education examines the educational leadership policy and social justice implications of these trends in Australia and internationally It maps this movement through early shifts to school based management in Australia New Zealand and Sweden and recent moves such as the academies programme in England and charter schools in the United States It draws on recent studies of a distinct new phase in Australian school reform the creation of independent public schools IPS in Western Australia and Queensland and global policy moves in public education in order to provide a truly international dialogue and debate on these matters This book moves beyond critique It innovatively brings together Australian and international perspectives and a rich range of diverse theoretical lenses practice philosophy feminism gender relational and postmodernism As such it provides a crucial forum for illuminating alternate ways to conceptualise educational leadership policy and social justice as resources for hope **International Perspectives on Maladministration in Education** Eugenie A. Samier,Peter Milley,2018-04-19 This volume develops a theoretical and

critical foundation for understanding maladministration the phenomena of harmful administrative and organisational behaviours in educational systems Chapter authors provide theoretical and practice based perspectives across international contexts regarding common destructive practices that occur in educational organisations such as negligence and mistreatment of people professional dishonesty fraud and embezzlement abuse of power and corrupt organisational cultures International Perspectives on Maladministration in Education shines a light on this complex topic by examining various practices at individual group organisational and system levels the contexts and influences that give rise to them and potential remedies to ensure more accountable just and safe institutions

The Poisoned Chalice of US Democracy John

Young,2023-12-28 In a radical reflection John Young contends that the US model of democracy has failed the Global South because its emphasis on the supremacy of market capitalism entails a loss of national sovereignty and a truncated notion of human rights that leaves little room for citizens engagement or socioeconomic justice The Global South needs democracy but the US model does not address issues of national oppression or economic injustices by raising living standards and ensuring national sovereignty However the US international liberal order is increasing being challenged and a multipolar world is emerging that provides opportunities for people in the Global South to construct systems of democracy that meet their needs rather than those of the US

The Iron Cage Revisited R. Bruce Douglass,2018-06-12

At the start of the twentieth century when Germany among other nations was undergoing industrialization Max Weber famously characterized modern life in words that have often been translated as iron cage During the industrial era that image caught on and was often used by scholars to express concerns about the extent to which the actual character of modern life contradicted its emancipatory promise But we are living in a different time now when the conditions under which we live seem to be quite different from the ones that pertained in Weber s day It is a time when in some respects at least life seems to be freer and more conducive to experimentation which has led some people to conclude that our societies have escaped from Weber s cage But is that really true This book challenges that notion considering the consequences for our way of life of the triumph of neoliberalism as a political force

Politically Incorrect Guide to the British Empire H. W. Crocker,2011-10-24

that he had achieved nothing in his life
