Encyclopedia of Weird War Stories Paul Green, 2017-06-14 Fictional war narratives often employ haunted battlefields super soldiers time travel the undead and other imaginative elements of science fiction and fantasy This encyclopedia catalogs appearances of the strange and the supernatural found in the war stories of film television novels short stories pulp fiction comic books and video and role playing games Categories explore themes of mythology science fiction alternative history superheroes and Weird War **Hate Crime Hoax** Wilfred Reilly, 2019-02-26 If you believe the news today s America is plagued by an epidemic of violent hate crimes But is that really true In Hoax Professor Wilfred Reilly examines over one hundred widely publicized incidents of so called hate crimes that never actually happened With a critical eye and attention to detail Reilly debunks these fabricated incidents many of them alleged to have happened on college campuses and explores why so many Americans are driven to fake hate crimes We re not experiencing an epidemic of hate crimes Reilly concludes but we might be experiencing an unprecedented epidemic of hate crime hoaxes **2016: the Campaign Chronicles** JD Foster, 2019-10-08 The 2016 campaign ended with Donald J Trump as president elect of the United States astounding just about everyone More than two dozen candidates had vied for the two parties nominations leaving Trump and former Secretary of State Hillary Clinton Her flaws standing in rough proportion to her strengths Clinton had been the presumed Democratic nominee though Bernie Sanders had nearly upended her run In contrast Trump s capturing the Republican nomination seemed preposterous before and after the fact The campaign overall was far more than the result It was a long tumultuous outrageous frolic of American politics The Campaign Chronicles was written contemporaneously with events as they happened so as to capture the sense of each amazing if horrific moment Even weeks after the election the country remained stunned by the outcome which as we learned foretold of a presidency unlike any before it But before the presidency there was a campaign about which many histories will be written But before the histories must come the chronicling history stripped of faded memories and coherent perspective Herewith such a chronicling written from a determinedly neutral posture presenting the good with the bad for all concerned **Spygate** Dan Bongino, D.C. McAllister, Matt Palumbo, 2018-10-09 Everyone has an opinion about whether or not Donald Trump colluded with the Russians to defeat Hillary Clinton in 2016 The number of actors involved is staggering the events are complicated and it s hard to know who or what to believe Spygate bypasses opinion and brings facts together to expose the greatest political scandal in American history Former Secret Service agent and NYPD police officer Dan Bongino joins forces with journalist D C McAllister to clear away fake news and show you how Trump s political opponents both foreign and domestic tried to sabotage his campaign and delegitimize his presidency By following the names and connections of significant actors the authors reveal Why the Obama administration sent a spy connected to the Deep State into the Trump campaign How Russians were connected to the opposition research firm hired by the Clinton campaign to find dirt on Trump How the FBI failed to examine DNC computers

after they were hacked relying instead on the findings of a private company connected to the DNC and the Obama administration Why British intelligence played a role in building the collusion narrative What role Ukrainians played in legitimizing the perception that Trump was conspiring with the Russians How foreign players in the two events that kickstarted the Trump Russia collusion investigation were connected to the Clinton Foundation and What motivated the major actors who sought to frame the Trump campaign and secure a win for Hillary Clinton *The Operatic Archive* Colleen Renihan,2020-04-03 The Operatic Archive American Opera as History extends the growing interdisciplinary conversation in opera studies by drawing on new research in performance studies and the philosophy of history Moving beyond traditional aesthetic conceptions of opera this book argues for opera s powerful potential for historical impact and engagement in late twentieth and twenty first century works by American composers Considering opera s ability to serve as a vehicle for memory historical experience affect presence and the historical sublime this volume demonstrates how opera s ability to represent and evoke historical events and historical experience differs fundamentally from the representations and recreations of other modes specifically literary and dramatic representations Building on the work of performance scholars such as Joseph Roach Rebecca Schneider and Diana Taylor and in consultation with recent debates in the philosophy of history the book will be of interest to a wide range of scholars and researchers particularly those working in the areas of opera studies and performance studies

Relics of War Jennifer Raab,2024-09-10 How a single haunting image tells a story about violence mourning and memory In 1865 Clara Barton traveled to the site of the notorious Confederate prison camp in Andersonville Georgia where she endeavored to name the missing and the dead The future founder of the American Red Cross also collected their relics whittled spoons woven reed plates a piece from the prison s dead line a tattered Bible and brought them back to her Missing Soldiers Office in Washington DC presenting them to politicians journalists and veterans families before having them photographed together in an altar like arrangement Relics of War reveals how this powerful image produced by Mathew Brady opens a window into the volatile relationship between suffering martyrdom and justice in the wake of the Civil War Jennifer Raab shows how this photograph was a crucial part of Barton s efforts to address the staggering losses of a war in which nearly half of the dead were unnamed and from which bodies were rarely returned home for burial The Andersonville relics gave form to these absent bodies offered a sacred site for grief and devotion mounted an appeal on behalf of the women and children left behind and testified to the crimes of war The story of the photograph illuminates how military sacrifice was racialized as political reconciliation began and how the stories of Black soldiers and communities were silenced Richly illustrated Relics of War vividly demonstrates how one photograph can capture a precarious moment in history serving as witness advocate evidence and memory
