The Soviet Economy (Routledge Revivals) Alec Nove, 2013-02-01 First published in 1961 *The Soviet Economy* is a well informed work which seeks to acquaint students with the structure and problems of the economy of the USSR In a balanced and perceptive analysis Alexander Nove describes the organisation of economic life and of the planning system analysing the practical and theoretical problems within the institutional structure of the Soviet system and introducing the student to Soviet economic ideas and concepts The subject is then related to the growth of the Soviet

economy and to the extent to which both the institutions and the problems reflect the historical peculiarities of the USSR The author does not try to argue for or against the system or to provide answers but aims to stimulate the reader to enquire further into the more important questions raised by the strengths and weaknesses of the Soviet economy **Glasnost' in Action (Routledge Revivals)** Alec Nove, 2013-02-01 First published in 1991 Glasnost in Action Cultural Renaissance in Russia is a comprehensive portrait of a society in transition as Professor Nove reflects on the changes taking place in the USSR at that time While in English Glasnost means openness the author questions what openness actually means in the USSR How is Soviet culture their art literature theatre music and social life affected by the new freedom of speech and thought that resulted from Glasnost Was it Gorbachev's power and charisma that propelled Glasnost or would it build up enough momentum in Soviet society to continue independently Professor Nove uses examples from each area of Soviet life in his exploration of the new openness referring to the release of previously banned films writings plays and works of art while reflecting on the newfound honesty about the country's Stalinist past and the problems faced today **Industrial Societies (Routledge Revivals)** Richard Scase, 2015-06-03 This book first published in 1989 addresses an issue that stood at the centre of sociological concern the changing character of industrial societies The authors examine the nature of the industrialization process in terms of its impact upon and development within both state socialist and capitalist societies Is industrialism a constant phenomenon within both kinds of society or are distinctive differences apparent In the 1960s it did seem that economic growth and technological change were producing similarities in social structure between the different socio political systems it now appears however that the crisis that have developed during the 1980s how illustrated their contrasts Through the analysis of this trend in the West in Eastern Europe and in China the authors clarify central issues for the student of sociology The changing character of national states organized labour stratification systems and class relationships Processes of social integration cohesion and control The extent to which dominant groups are able to sustain social and economic privileges in different socio economic systems The changing pattern of work and employment relationships The nature of class gender and ethnicity as sources of socio economic division *Can Russia Change? (Routledge Revivals)* Walter Clemens, 2012-12-06 First published in 1990 this ground breaking book sought to determine whether contemporary Russia had the capacity to change and if in so doing it could alter the complex web of East West relations from a zero sum struggle to a state of peaceful competition and mutual security In order to answer this question the author compares advances and setbacks in arms control and security affairs with co operation on less politically salient issues such as environmental degradation He finds that in the nearly seventy years preceding Mikhail Gorbachev's rise to power the Kremlin relied on several basic approaches to foreign relations These policies isolated the Soviet Union from those nations whose co operation it needed to cope with the escalating interdependencies of the time Gorbachev Clemens argues was the first Soviet leader to recognise both the problems and potential benefits of global interdependence and to explore the

possibilities for co operation between East and West to advance mutual security Can Russia Change is unique in its comparative approach and historical perspective and this reissue will prove invaluable to all those interested in the history of Soviet security and foreign policy as well as US Soviet relations *Socialism, Economics and Development (Routledge Revivals)* Alec Nove,2012-11-12 First published in 1986 this text brings together a selection of papers written by the great Alec Nove on development economics Marxist economies the Soviet economy and law and politics in the Soviet Union Reflecting the varied and diverse interests of its distinguished author the topics range from Soviet constitutional law to Trotsky s view of collectivization from a critique of conventional micro economics to the economic disaster of the Allende regime in Chile The author s long standing immersion in the past and present of the Soviet Union helps to provide the unique insights into the workings of Socialist economies characteristic of Professor Nove s previous work This volume should be essential reading for anyone interested in development economics socialist economies or the problems facing contemporary Soviet economic reformers **Revival: Soviet Politics: The Dilemma of Power (1950)** Barrington Moore, Jr,2017-09-29 First published in 1950 this book investigates the interaction between Communist ideology and Soviet political practices from the period of Lenin s theoretical formulations to the contemporary Soviet bureaucratic state The Soviet Union in World Politics Geoffrey Roberts,2005-08-08 The Soviet Union in World Politics provides an introductory history of Soviet foreign policy and international relations from 1945 to the end of the Cold War and the break up of the USSR The book summarizes historical and political controversies about Soviet foreign policy and brings the latest research to bear on these debates The Soviet Union in World Politics interprets the latest evidence available from the Soviet archives and includes summaries of the main events in Soviet Policy from 1917 1945 a framework for student discussion of relevant issues guides to further reading and research exploration of the role of ideology in the Cold War discussion of Stalin s role in the formulation of policy
