Narrative and Identity in the Ancient Greek Novel Tim Whitmarsh, 2011-04-07 The Greek romance was for the Roman period what epic was for the Archaic period or drama for the Classical the central literary vehicle for articulating ideas about the relationship between self and community This book offers a reading of the romance both as a distinctive narrative form using a range of narrative theories and as a paradigmatic expression of identity social sexual and cultural At the same time it emphasises the elasticity of romance narrative and its ability to accommodate both conservative and transformative models of identity This elasticity manifests itself partly in the variation in practice between different romancers some of whom are traditionally Hellenocentric while others are more challenging Ultimately however it is argued that it reflects a tension in all romance narrative which characteristically balances centrifugal against centripetal dynamics This book will interest classicists historians of the novel and students of narrative theory

Political Animal Heather Neilson, 2014-12-01 The late Gore Vidal occupied a unique position within American letters Born into a political family he ran for office several times but was consistently critical of his nation's political system and its leaders A prolific writer in several genres he was also widely known particularly in the United States on the basis of his frequent appearances in the various electronic media In this groundbreaking work examining the central theme of power throughout Vidal's writings Heather Neilson focuses primarily on Vidal's historical fiction In his novels depicting American history and those set in ancient times Vidal evokes a world in which deliberately propagated falsehood disinformation becomes established as truth Neilson engages with Vidal's representations of political and religious leaders and with his deeply ambivalent fascination with the increasingly inescapable influence of the media She asserts that Vidal's oeuvre has a Shakespearean resonance in its persistent obsession with the question of what constitutes legitimate power and authority

Retroland Peter Kemp, 2023-01-01 The essential companion for lovers of the contemporary novel Over the past fifty years fiction in English has never looked more various Books bulkier than Victorian three deckers appear alongside works of minimalist brevity and experiments with form have produced everything from verse novels to Twitter thread narratives This is truly a golden age But what unites this kaleidoscopic array of genres and styles Celebrated writer and critic Peter Kemp shows how modern writers are obsessed with the past In a series of engaging and illuminating chapters *Retroland* traces this novelistic preoccupation with history from the imperial and the political to the personal and the literary Featuring famous names from

across the United Kingdom United States and the wider Anglophone world ranging from Salman Rushdie to Sarah Waters Toni Morrison to Hilary Mantel this is a work of remarkable synthesis and clarity a wonderfully readable and enjoyably opinionated guide to our current literary landscape

Science Fiction and Narrative Form David Roberts,Andrew Milner,Peter Murphy,2023-02-23 Establishing science fiction as its own distinct and increasingly important narrative form this book explores how the genre challenges pervasive perceptions of society as they appear in the conventional modern novel Inspired by and building upon Georg Lukács's criticism of the orthodox novel for its depiction of life as alienating and disjointed Milner Murphy and Roberts demonstrate that science fiction steps beyond this contemporary form to be a more constructive form of literature one able to conceive of society as complete integrated and well rounded Taking stock of three kinds of science fiction which lie outside the scope of the modern novel theological ontological science fiction the science fiction of future history and epic science fiction this book demonstrates the genre's unique capacity to encapsulate the whole world persons and events things and objects in a glance and address the motive behind the longing for meaningful totality With reference to a vast array of works by authors such as Michel Houellebecq Elias Canetti Isaac Asimov Jules Verne H G Wells Aldous Huxley Marge Piercy Iain M Banks Margaret Atwood Ursula K Le Guin William Gibson Dirk C Fleck Philip K Dick George Orwell and Kazuo Ishiguro this book offers a compelling argument for rethinking the position and potential of the science fiction novel and to challenge the way we perceive our culture
