Homeless Advocacy and the Rhetorical Construction of the Civic Home Melanie Loehwing, 2018-10-04 Homeless assistance has frequently adhered to the three hots and a cot model which prioritizes immediate material needs but may fail to address the political and social exclusion of people experiencing homelessness In this study Loehwing reconsiders typical characterizations of homelessness citizenship and democratic community through unconventional approaches to homeless advocacy and assistance While conventional homeless advocacy rhetoric establishes the urgency of homeless suffering it also implicitly invites housed publics to understand homelessness as a state of abnormality that destines the individuals suffering it to life outside the civic body In contrast Loehwing focuses on atypical models of homeless advocacy the meal sharing initiatives of Food Not Bombs the international competition of the Homeless World Cup and the annual Homeless Persons Memorial Day campaign She argues that these modes of unconventional homeless advocacy provide rhetorical exemplars of a type of inclusive and empowering civic discourse that is missing from conventional homeless advocacy and may be indispensable for overcoming homeless marginalization and exclusion in contemporary democratic culture Loehwing's interrogation of homeless advocacy rhetorics demonstrates how discursive practices shape democratic culture and how they may provide a potential civic remedy to the harms of disenfranchisement discrimination and displacement This book will be welcomed by scholars whose work focuses on the intersections of democratic theory and rhetorical and civic studies as well as by homelessness advocacy groups

both at an aggregated level and broken down by various features This should allow sufficient flexibility in the presentation of data on issuance and holdings of securities in line with developments in securities markets and financing The Handbook is the first publication of its kind to focus exclusively on securities statistics Recent turmoil in global financial markets has confirmed the importance of timely relevant coherent and internationally comparable data on securities from the perspective of monetary policy fiscal policy and financial stability analysis This Handbook provides a conceptual framework for the compilation and presentation of statistics on different types

Defining the Government's Debt and Deficit Mr. Timothy Irwin, 2015-11-20 Although the budget deficit and the public debt feature prominently in political debate and economic research there is no agreement about how they should be measured They can be defined for different sets of public institutions including the nested sets corresponding to central government general government and the public sector and for any definition of government there are many measures of the debt and deficit including those generated by four kinds of accounts cash financial full accrual and comprehensive which can be derived from four nested sets of assets and liabilities Each debt and deficit measure says something about public finances but none tells the whole story Each is also vulnerable to manipulation and is likely to be manipulated if it is subject to a binding fiscal rule or target Narrow definitions of government encourage the shifting of spending to entities outside the defined perimeter of government Narrow definitions of debt and deficit encourage operations involving off balance sheet assets and liabilities while broad measures are susceptible to the mismeasurement of on balance sheet assets and liabilities Reviewing the literature on these issues the paper concludes that governments should publish several measures of the debt and deficit in a form that clearly reveals their interrelationships
