Most of them were handed a device before they could walk; they clicked before they took their first bite and scrolled before they said their first words. But living online is a giant uncontrolled experiment. Cyberbullying, Internet addiction, body dysmorphia, and other digital villains lurk in the shadows. How can parents ensure their kids navigate the digital world safely when there's no rulebook? Neha J Hiranandani's **iParent** comes to the rescue. This book decodes India's app generation and elevates the discussion beyond these kids and their phones. Based on research, candid conversations, and personal reflection, this timely book is a witty meditation on parenting in a digital world. Hilarious and informative in equal measure, **iParent** empowers you to connect with the new generation and guide them to cyber safety without being a helicopter parent. No judgement, no preaching.
