Way Learning And Politics Way Learning And Politics:

Way, Learning, and Politics Tu Wei-ming, 1993-07-01 The emergence of New Confucian Humanism as a major intellectual and spiritual tradition in the Chinese cultural area since the Second World War is a phenomenon vitally important and intriguing to students of history philosophy and religion The Confucian vision rooted in the Chinese Korean Vietnamese and Japanese civilizations has been sustained through more than two millennia of constant social change and holds special meaning for both industrial and socialist East Asia today Indeed as a living force defining our humanity and exploring our human potential for authentic self realization it addresses evolving concerns of East Asian civilizations with profound implications for the post modernized world This book by a leading scholar and thinker of the New Confucian Humanism offers a panoramic view of the core values of the Confucian intellectual from historical and comparative cultural perspectives Grounded in sound sinological scholarship it brilliantly interprets the Confucian project the formation of a moral community and the embodiment of the Mandate of Heaven in ordinary human existence through authentic self realization In the words of the eminent Princeton sinologist Fritz Mote through Tu Wei ming s thought provoking ideas we are shown what has constituted the life blood of Confucianism throughout its history and are led to understand how it still lives We are made to see where it resides in the world today especially within the consciousness of modern East Asians whether or not so identified by them and increasingly in the awareness of philosophers and historians of thought everywhere Like Professor Tu s earlier book Confucian Thought Selfhood as Creative Transformation this book will stir modern minds and evoke powerful responses from scholars in ethics religion history and philosophy as well as those in East Asian studies **Chinese**

Philosophy on Teaching and Learning Xu Di, Hunter McEwan, 2016-03-01 Written over two and a half millennia ago the Xueji On Teaching and Learning is one of the oldest and most comprehensive works on educational philosophy and teaching methods as well as a consideration of the appropriate roles of teachers and students The Xueji was included in the Liji On Ritual one of the Five Classics that became the heart of the educational system during China s imperial era and it contains the ritual protocols adopted by the Imperial Academy during the Han dynasty Chinese Philosophy on Teaching and Learning provides a new translation of the Xueji along with essays exploring this work from both Western and Chinese perspectives Contributors examine the roots of educational thought in classical Chinese philosophy outline similarities and differences with ideas rooted in classical Greek thought and explore what the Xueji can offer educators today **Learning Democracy in School and Society: Education, Lifelong Learning, and the Politics of Citizenship** Gert J.J. Biesta, 2011-10-21 This book explores the relationships between education lifelong learning and democratic citizenship It emphasises the importance of the democratic quality of the processes and practices that make up the everyday lives of children young people and adults for their ongoing formation as democratic citizens The book combines theoretical and historical work with critical analysis of policies and wider developments in the field of citizenship education and civic learning The book urges educators

educationalists policy makers and politicians to move beyond an exclusive focus on the teaching of citizenship towards an outlook that acknowledges the ongoing processes and practices of civic learning in school and society This is not only important in order to understand the complexities of such learning It can also help to formulate more realistic expectations about what schools and other educational institutions can contribute to the promotion of democratic citizenship The book is particularly suited for students researchers and policy makers who have an interest in citizenship education civic learning and the relationships between education lifelong learning and democratic citizenship Gert Biesta www.gertbiesta.com is Professor of Education at the School of Education University of Stirling UK

Theorizing Confucian Virtue Politics

Sungmoon Kim,2019-11-14 Surprisingly little is known about what ancient Confucian thinkers struggled with in their own social and political contexts and how these struggles contributed to the establishment and further development of classical Confucian political theory Leading scholar of comparative political theory Sungmoon Kim offers a systematic philosophical account of the political theories of Mencius and Xunzi investigating both their agreements and disagreements as the champions of the Confucian Way against the backdrop of the prevailing *realpolitik* of the late Warring States period Together they contributed to the formation of Confucian virtue politics in which concerns about political order and stability and concerns about moral character and moral enhancement are deeply intertwined By presenting their political philosophies in terms of constitutionalism Kim shows how they each developed the ability to authorize the ruler's legitimate use of power in domestic and interstate politics in ways consistent with their distinctive accounts of human nature

Revisiting Youth

Political Participation Joerg Forbrig,2005-01-01 **All Under Heaven** John H. Berthrong,1994-01-01 This book is a study of comparative philosophy and theology The themes are the critical issues arising from the modern interpretation of Confucian doctrine as they confront the Christian beliefs of the nineteenth and twentieth centuries

Ordering International Politics

Janice Bially Mattern,2005-09 How do states sustain international order during crises Drawing on the political philosophy of Lyotard and through an empirical examination of the Anglo American international order during the 1956 Suez Crisis Bially Mattern demonstrates that states can and do use representational force a forceful but non physical form of power exercised through language to stabilize international identity and in turn international order

The Politics of Widening

Participation and University Access for Young People Valerie Harwood,Anna Hickey-Moody,Samantha McMahon,Sarah O'Shea,2016-12-01 Young people with tenuous relationships to schooling and education are an enduring challenge when it comes to addressing social inclusion yet their experiences remain overlooked in efforts to widen participation in higher education The Politics of Widening Participation and University Access for Young People examines the existing knowledges and feelings these young people have about higher education and through the authors empirical research demonstrates how sustained connections to educational futures can be created for them Drawing from an empirical study with nearly three hundred young people who have precarious relationships to schooling and live in disadvantaged communities this book offers

new insights into their subjects experiences of educational disadvantages It explains the different ways the university is constructed as impossible undesirable or even risky by young people experiencing educational disadvantage The book brings their stories into focus to offer new ways of thinking about the educational consequences of alienation from school It shows how our understanding of the politics of experience of these young people has an important impact on our ability to develop appropriate means through which to engage them in higher education This book challenges and significantly advances the popular frames for international debate on widening participation and the ethical right to educational participation in contemporary society As such it will be of key interest to academics researchers and postgraduate students in the fields of higher education sociology of education anthropology of education cultural studies of education sociology as well as to those concerned by the impact of disadvantage on young people s understandings of and aspirations towards education and attending university

Politics and the Primary Teacher Peter Cunningham, 2011-12-15 Why is primary education so high on the political agenda and so contentious Why is the performance of primary schools so often in the media spotlight Why should primary teachers trouble themselves with the politics of their work Politics and the Primary Teacher is an accessible introduction to some of the thorniest aspects of a primary teacher s role It aims to support your understanding of the constant changes in education policy give you confidence to engage critically with current political debates and consider how you might shape your response accordingly Including questions for reflection and selected further reading and resources it examines the complex interface between the work of a teacher and the world beyond the classroom walls Key issues explored include assessment testing league tables and national accountability measures the media s impact in shaping both local and national views about education political implications of new policies such as academies and free schools conditions of work in the classroom and workforce remodelling the curriculum its purposes and structure pedagogy and teaching methods education for citizenship health and well being Politics and the Primary Teacher is essential reading for all education professionals who want to think more deeply about primary education what it offers and how children families and communities are served by the primary school

Handbook of Cultural Politics and Education , 2010-01-01 In academia the effects of the cultural turn have been felt deeply In everyday life tenets from cultural politics have influenced how people behave or regard their options for action such as the reconfiguration of social movements protests and praxis in general Many authors writing in this field are known for their scholarship and social activism both of which are arguably guided by principles of cultural politics about the nature of representation and the deployment of power in political discourses The Handbook of Cultural Politics and Education is less an attempt to standardize contemporary educational scholarship and more a collection that engages the problems and promises of recent themes in social and cultural thought which require our attention and demand a response In other words it opens doors to questions rather than convenient answers to difficult educational dilemmas The Handbook is part of the appraisal of an opening created by interdisciplinary writings on such

themes as representation civil society cultural struggle subjectivity and media within the context of education Indeed cultural politics troubles traditional frameworks in search of critical explanations concerning education s place within society The contributions in the collection support this endeavor
