Without Utterance Ruth Codier Resch, 2012 The catastrophe of losing language is told by a lover of observation willing to dig deep into essential memories of self The author tells the tender sometimes horrifying present lived without language visions of an uncertain future and unexpected creativity from the chaos To speak at all was to locate the fewest words to express anything Returning to language and writing the author uses spare sensory language in vivid touching ways to evoke her experiences for the reader Non verbal languages are surprising and transformative parts of her journey through art music body practices and mysticism These Tales are for anyone who loves a journey stories that incite the imagination to experience the unthinkable These are Tales for those have calamitous chaotic events and illnesses in their lives who yearn to see affirmation that life is in fact possible with possibilities not dreamed despite circumstances

The Illicit Joyce of Postmodernism Kevin J. H. Dettmar, 1996 For nearly three quarters of a century the modernist way of reading has been the only way of reading James Joyce useful yes and powerful but like all frameworks limited This book takes a leap across those limits into postmodernism where the pleasures and possibilities of an unsuspected Joyce are yet to be found Kevin J H Dettmar begins by articulating a stylistics of postmodernism drawn from the key texts of Roland Barthes Mikhail Bakhtin and Jean Fran ois Lyotard Read within this framework Dubliners emerges from behind its modernist facade as the earliest product of Joyce s proto postmodernist sensibility Dettmar exposes these stories as tales of mystery not mastery despite the modernist earmarks of plentiful symbols allusions and epiphanies Ulysses too has been inadequately served by modernist critics Where they have emphasized the work s ingenious Homeric structure Dettmar focuses instead upon its seams those points at which the narrative willfully joyfully overflows its self imposed bounds Finally he reads A Portrait of the Artist and Finnegans Wake as less playful less daring texts the first constrained by the precious would be poet at its center the last marking a surprising retreat from the constantly evolving vertiginous experience of Ulysses In short The Illicit Joyce of Postmodernism explores what happens when the extra literary pronouncements of Eliot Pound and Joyce as well as Joyce s early critics are set aside and a new unauthorized Joyce is allowed to appear This postmodern Joyce more willful and less easily compartmentalized stands as a counterpoint to the modernist Joyce who has perhaps become too familiar

On the Other Side(s) of 150 Linda M. Morra, Sarah Henzi, 2021-05-20 On the Other Side s of 150 explores the different literary historical and cultural legacies of Canada s sesquicentennial celebrations It asks vital

questions about the ways that histories and stories have been suppressed and invites consideration about what happens once a commemorative moment has passed Like a Cubist painting this modality offers a critical strategy by which also to approach the volume as dismantling reassembling and re enacting existing commemorative tropes as offering multiple conditional and contingent viewpoints that unfold over time and as generating a broader although far from being comprehensive range of counter memorial performances The chapters in this volume are thus provisional interconnected and adaptive they offer critical assemblages by which to approach commemorative narratives or showcase lacunae therein by which to return to and intervene in ongoing readings of the past from the present moment and by which not necessarily to resolve but rather to understand the troubled and troubling narratives of the present moment Contributors propose that these preoccupations are not a means of turning away from present concerns but rather a means of grappling with how the past informs or is shaped to inform them and how such concerns are defined by immediate social contexts and networks

Rethinking Egocentric Speech Karen Junefelt, 2007 Egocentric speech has been an important notion in the development of language and thought since Piaget 1923 published his book *Le langage et la pens e chez l enfant* Eng The Language and Thought of the Child and Vygotsky 1934 published his book *Myshlenie i rech* Eng Thought and Language Their hypotheses about the development of thought and language have provided the theoretical basis for scholarly work during the last 80 years However their hypotheses about egocentric speech have seldom been questioned In this book the author will question their hypotheses using the same material that in her own research has led her to reorganise her thinking about egocentric speech data from a blind child The source material that informs the book is a longitudinal case study of a blind child that extended over eight years of time In order to closely investigate egocentric speech in this book data from only two video recordings will be analysed from three perspectives Piaget Vygotsky and Bakhtin Voloshinov Coming from these analyses finally the author presents a new hypothesis on egocentric speech and its developmental significance for inner speech or thought
