Wits Guide 2015 For Undergraduatr Application:

Understanding the Higher Education Market in Africa Emmanuel Mogaji, Felix Maringe, Robert Ebo

Hinson, 2020-03-06 This book offers theoretical and practical insights into the marketing of higher education in Africa. It explores the key players, challenges and policies affecting higher education across the continent, their marketing strategies and the students' selection process. While acknowledging the vast size of the continent, this book aims to provide an understanding of the dynamics of higher education in Africa. This book recognises the private and government involvement in higher education provision and students and staff as stakeholders in the marketisation process. Strategic efforts are directed by universities to attract prospective students. This book further addresses issues such as the responses of higher education sectors to the notion of markets and marketing, consumerism and competition in higher education in Africa, conceptions of the commodification of higher education in Africa and the dominance of Western epistemologies and their influence in transforming higher education sectors. Students as consumers in increasingly marketised higher education sectors in Africa are also discussed. Though primarily for marketing students and academic researchers, the book's feature of blended theoretical and practical knowledge means that it will also be of interest to marketing practitioners and university managers.

The Oxford Handbook of the Archaeology and Anthropology of Rock Art Bruno David, Ian J. McNiven, 2018 Rock art is one of the most visible and geographically widespread of cultural expressions and it spans much of the period of our species' existence. Rock art also provides rare and often unique insights into the minds and visually creative capacities of our ancestors and how selected rock outcrops with distinctive images were used to construct symbolic landscapes and shape worldviews. Equally important, rock art is often central to the expression of and engagement with spiritual entities and forces and in all these dimensions it signals the diversity of cultural practices across place and through time. Over the past 150 years, archaeologists have studied ancient arts on rock surfaces both out in the open and within caves and rock shelters and social anthropologists have revealed how people today use art in their daily lives. The Oxford Handbook of the Archaeology and Anthropology of Rock Art showcases examples of such research from around the world and across a broad range of cultural contexts, giving a sense of the art's regional variability, its antiquity and how it is meaningful to people in the recent past and today, including how we have ourselves tended to make sense of the art of others replete with our own preconceptions. It reviews past, present and emerging theoretical approaches to rock art investigation and presents new, cutting-edge methods of rock art analysis for the student and professional researcher alike.

ROAD-MAPPING English Medium Education in the Internationalised University Emma Dafouz, Ute Smit, 2019-08-12 This book is the first to offer a conceptual framework of English medium education that can be used across different international higher education (HE) contexts. It provides readers with an understanding of the complexities, possibilities and challenges that this phenomenon raises in the 21st century. Making the case for the pressing need for an overarching conceptualisation, the authors discuss

from a theoretical point of view the recently introduced ROAD MAPPING framework for English Medium Education in Multilingual University Settings EMEMUS Drawing on current research and examples from a variety of settings the book makes a strong case for the applicability of the framework in two important directions as a methodological tool for researching educational practices and as an analytical guide to examine policies and teacher education programmes

Routledge Handbook of African Media and Communication Studies Winston Mano, Viola Milton, 2021-02-11 This handbook comprises fresh and incisive research focusing on African media culture and communication The chapters from a cross section of scholars dissect the forces shaping the field within a changing African context It adds critical corpora of African scholarship and theory that places the everyday worlds needs and uses of Africans first The book goes beyond critiques of the marginality of African approaches in media and communication studies to offer scholars the theoretical and empirical toolkit needed to start building critical corpora of African scholarship and theory that places the everyday worlds needs and uses of Africans first Decoloniality demands new epistemological interventions in African media culture and communication and this book is an important interlocutor in this space In a globally interconnected world changing patterns of authority and power pose new challenges to the ways in which media institutions are constituted and managed as well as how communication and media policy is negotiated and the manner in which citizens engage with increasing media opportunities The handbook focuses on the interrelationships of the local and the global and the concomitant consequences for media practice education and citizen engagement in today's Africa Altogether the book foregrounds convivial epistemologies relevant for locating African media and communication in the pluriverse This handbook is an essential read for critical media communications cultural studies and journalism scholars

Business Research Pieter W. Buys, Merwe Oberholzer, 2023-03-14 This book focuses on research methodologies that apply to business research particularly for researchers and managers embarking thereon to support managerial decision making in the industry In doing so the book's objective is to guide business researchers in identifying defining and applying rigorous academic methodologies that will enable them to formulate design and execute effective research that answers their specific management problems Such guidance can empower organizational managers to understand that business research can contribute to practical solutions to actual problems experienced in the industry In addition by emphasizing the integrative nature between 1 academic research and 2 experienced industry problems it becomes possible to foster an awareness of such research's potential impact on organizational performance management sustainability and resilience With that attention is given to narrowing the gap between theory and practice which requires that fundamentals of scientific research be adhered to while maintaining the delicate balance between a practice friendly guide to pragmatically sound and academically rigorous business research

Archives, Recordkeeping and Social Justice David A. Wallace, Wendy M. Duff, Renée Saucier, Andrew Flinn, 2020-05-10

Archives Recordkeeping and Social Justice expands the burgeoning literature on archival social justice and impact. Illuminating how diverse factors shape the relationship between archives recordkeeping systems and recordkeepers, this book depicts struggles for different social justice objectives. Discussions and debates about social justice are playing out across many disciplines, fields of practice, societal sectors, and governments, and yet one dimension cross-cutting these actors and engagement spaces has remained unexplored: the role of recordkeeping and archiving. To clarify and elaborate this connection, this volume provides a rigorous account of the engagement of archives and records and their keepers in struggles for social justice. Drawing upon multidisciplinary praxis and scholarship, contributors to the volume examine social justice from historical and contemporary perspectives and promote impact methodologies that align with culturally responsive, democratic, Indigenous, and transformative assessment. Underscoring the multiplicity of transformative social justice impacts influenced by recordmaking, recordkeeping, and archiving, the book presents nine case studies from around the world that link the past to the present and offer pathways towards a more just future. Archives Recordkeeping and Social Justice will be an essential reading for researchers and students engaged in the study of archives, truth and reconciliation processes, social justice, and human rights. It should also be of great interest to archivists, records managers, and information professionals.
