Women And International Peacekeeping Women And International Peacekeeping:

Women and International Peacekeeping Louise Olsson, Torunn L. Tryggstad, 2001 This work focuses on women's participation in peacekeeping operations and what needs to be considered regarding the role and circumstances of women including those in relation to the host society

Men, Militarism, and UN Peacekeeping Sandra Whitworth, 2004 In this important controversial and at times troubling book Sandra Whitworth looks behind the rhetoric to investigate from a feminist perspective some of the realities of military intervention under the UN flag Whitworth contends that there is a fundamental contradiction between portrayals of peacekeeping as altruistic and benign and the militarized masculinity that underpins the group identity of soldiers Examining evidence from Cambodia and Somalia she argues that sexual and other crimes can be seen as expressions of a violent hypermasculinity that is congruent with militarized identities but entirely incongruent with missions aimed at maintaining peace She also asserts that recent efforts within the UN to address gender issues in peacekeeping operations have failed because they fail to challenge traditional understandings of military conflict and women This unsettling critique of UN operations which also investigates the interplay between gender and racial stereotyping in peacekeeping has the power to change conventional perceptions with considerable policy implications

Women and International Peacekeeping Louise Olsson, Torunn L. Tryggstad, 2001 The Oxford Handbook of Women, Peace and Security Sara E. Davies, Jacqui True, 2019 Passed in 2000 the United Nations Security Council Resolution 1325 and subsequent seven Resolutions make up the Women Peace and Security WPS agenda This agenda is an international policy framework addressing the gender specific impacts of conflict on women and girls including protection against sexual and gender based violence promotion of women's participation in peace and security processes and support for women's roles as peace builders in the prevention of conflict and rebuilding of societies after conflict The handbook addresses the concepts and early history behind WPS international institutions involved with the WPS agenda the implementation of WPS in conflict prevention and connections between WPS and other UN resolutions and agendas

International Peacekeeping: The Yearbook of International Peace Operations Louise Olsson, 2009-05-15 This book expands the inquiry of United Nations peace operations to incorporate their effects on the equality of the host state To achieve this a mainstream based analytical framework additionally informed by suggestions from feminist research is formulated and applied to the case of Timor Leste The study makes two contributions Firstly it enhances our ability to trace changes in the power balance between men and women by developing the concept of gender power relations especially introducing security equality understood as the distribution of protection between men and women Secondly when the concept of gender power relations had been developed to enable a more fine grained analysis the project proceeds to systematically explore effects of peace operations on these power relations in the host state The results show the importance of considering the differences in situation of men and women in order both to avoid doing harm and to obtain a more equal peace

Women and Peace Betty Reardon, 1993-07-01 Developed from United Nations material and intended as the core for a wider inquiry into the emerging topic of women and peace especially in courses of women's studies, peace studies, global issues and the United Nations. The essays discuss negative and positive peace, women's roles in the politics and conceptualization of peace and women's visions of peace. Paper edition, unseen 14 95. Sisters in Peace Kate Laing, 2023-11-03 Is preparing for war the best means of preserving peace? In *Sisters in Peace*, Kate Laing contends that this question has never been solely the concern of politicians and strategists. She maps successive generations of twentieth-century women who were eager to engage in political debate even though legislative and cultural barriers worked to exclude their voices. In 1915, during the First World War, the Women's International Congress at The Hague was convened after alarmed and bereaved women from both sides of the conflict insisted that their opinions on war and the pathway to peace be heard. From this gathering emerged the Women's International League for Peace and Freedom (WILPF), which to this day campaigns against militarism and nuclear weapons. In Australia, the formation of a section of WILPF connected political women to a worldwide network that sustained their anti-war activism throughout the last century. In examining the rise of WILPF in Australia, *Sisters in Peace* provides a gendered history of this country's engagement with the politics of internationalism. This is a history of WILPF women who committed to peace activism even as Australia's national identity and military allegiances shifted over time, a history that has until now been an overlooked part of the Australian peace movement.

Peace and Security Elizabeth Porter, Anuradha Mundkur, 2012 Offering a broad overview of what is being done in conflict-affected countries to advance women's participation in peace processes, peace building and decision making, this record examines the implementation of UN Security Council Resolution 1325 on Women, Peace and Security and presents evidence-based case studies from East Timor, Fiji and Sri Lanka. As it explores ways to protect women and girls from violence, it suggests key actions that should be taken by development agencies, women's nongovernmental organizations and policymakers. The book focuses on the following fundamental aspects: a specifically feminist methodology; a priority on gender equality and women's empowerment; and the broad notions of human security and peace building.
